

Brain Dump Oracle 1Z0-182 Free, Practice 1Z0-182 Questions

BTW, DOWNLOAD part of DumpsTests 1Z0-182 dumps from Cloud Storage: <https://drive.google.com/open?id=1xGPEpDrGsIkM0eNL7ZNx1GUV-U3IQLVX>

When you choose to attempt the mock exam on the Oracle 1Z0-182 practice software by DumpsTests, you have the leverage to custom the questions and attempt it at any time. Keeping a check on your Oracle Database 23ai Administration Associate exam preparation will make you aware of your strong and weak points. You can also identify your speed on the practice software by DumpsTests and thus manage time more efficiently in the actual Oracle exam.

Oracle 1Z0-182 Exam Syllabus Topics:

Topic	Details
Topic 1	Automated Maintenance: This section measures the skills of Database Administrators in describing automated maintenance tasks within Oracle databases. It focuses on applying automated features to streamline routine maintenance activities.
Topic 2	Managing Users, Roles, and Privileges: This domain evaluates the expertise of Security Administrators in implementing user security measures. It focuses on creating and managing users, roles, and privileges to ensure secure access to Oracle databases.
Topic 3	Describe Managing Database Instances: This section tests the knowledge of Database Administrators in performing essential tasks for managing database instances. It includes starting and shutting down databases, utilizing dynamic performance views, managing initialization parameter files, and using the Automatic Diagnostic Repository (ADR) for troubleshooting.
Topic 4	Introduction to Performance: This section evaluates the expertise of Performance Analysts in summarizing Oracle database performance management techniques. It includes measuring database performance using SQL execution plans, directives, and advisors to ensure optimal system efficiency.

Topic 5	Describe Oracle Database Architecture: This section of the exam measures the skills of Database Administrators and System Architects in understanding the Oracle database architecture. It covers the configurations of Oracle database instances, memory structures like SGA and PGA, and process structures such as background processes. It also explains the logical and physical database structures, including datafiles, control files, and redo log files.
Topic 6	Employ Oracle-Supplied Database Tools: This section evaluates the abilities of Database Engineers and Support Specialists in identifying and using Oracle-supplied tools for managing databases. It focuses on leveraging tools to monitor, troubleshoot, and optimize database performance effectively.

Practice Oracle 1Z0-182 Questions | 1Z0-182 Study Center

We provide Oracle 1Z0-182 web-based self-assessment practice software that will help you to prepare for the Oracle Database 23ai Administration Associate exam. Oracle 1Z0-182 Web-based software offers computer-based assessment solutions to help you automate the entire Oracle Database 23ai Administration Associate exam testing procedure. The stylish and user-friendly interface works with all browsers, including Mozilla Firefox, Google Chrome, Opera, Safari, and Internet Explorer. It will make your Oracle 1Z0-182 Exam Preparation simple, quick, and smart. So, rest certain that you will discover all you need to study for and pass the Oracle 1Z0-182 exam on the first try.

Oracle Database 23ai Administration Associate Sample Questions (Q72-Q77):

NEW QUESTION # 72

One of your database instances was shut down normally and then started in NOMOUNT state. You then executed this command: ALTER DATABASE MOUNT; Which two of these actions are performed?

- A. Online redo logs are opened.
- B. Online data files are opened.
- C. The initialization parameter file is read.
- D. Control files are read.
- E. Oracle shared memory structures are allocated.
- F. The alert log has instance startup details written to it.

Answer: D,F

Explanation:

- A. False. Data files open in OPEN.
- B. False. Redo logs open in OPEN.
- C. False. PFILE/SPFILE is read at NOMOUNT.
- D. False. SGA is allocated at NOMOUNT.
- E. True. Alert log records mount event.
- F. True. Control files are read in MOUNT.

NEW QUESTION # 73

Examine these commands:

```
[oracle@host01 ~]$ sqlplus u1/oracle
SQL> SELECT * FROM emp;
ENO ENAME DN
```

```
-----
1 Alan 2
2 Ben 2
SQL> exit
[oracle@host01 ~]$ cat emp.dat
1, Alan, 2
```

3, Curl, 4

4, Bob, 4

[oracle@host01 ~]\$ sqlldr u1/oracle TABLE=emp

Which two statements are true?

- A. It overwrites all data in EMP with data from EMP.DAT.
- **B. It appends data from EMP.DAT to EMP.**
- C. It generates a SQL script that it uses to load data from EMP.DAT to EMP.
- D. It overwrites the data for Alan and adds data for Curl and Bob.
- **E. It generates a log that contains control file entries, which can be used with normal SQL*Loader operations.**

Answer: B,E

Explanation:

SQL*Loader (sqlldr) loads data from external files into Oracle tables. The command sqlldr u1/oracle TABLE=emp uses defaults since no control file is specified. Let's evaluate:

A . It overwrites the data for Alan and adds data for Curl and Bob.

False. SQLLoader's default mode is APPEND, not REPLACE. It doesn't "overwrite" existing rows unless REPLACE or TRUNCATE is specified in a control file. Here, row 1, Alan, 2 exists, and SQLLoader will either skip it (if a primary key rejects duplicates) or raise an error, but it won't overwrite. 3, Curl, 4 and 4, Bob, 4 are appended.

Mechanics:Without a control file, SQL*Loader assumes APPEND and matches columns positionally (ENO, ENAME, DN).

B . It generates a log that contains control file entries, which can be used with normal SQL*Loader operations.

True. SQL*Loader always generates a log file (e.g., emp.log) when invoked. With no control file specified, it auto-generates one internally and logs it, including entries like LOAD DATA INFILE 'emp.dat' APPEND INTO TABLE emp FIELDS TERMINATED BY ',' (ENO, ENAME, DN). This can be reused.

Practical Use:The log's control section is editable for future runs (e.g., changing to REPLACE).

C . It appends data from EMP.DAT to EMP.

True. Default behavior without a control file is APPEND, adding new rows (3, Curl, 4 and 4, Bob, 4) to EMP. Existing rows (1, Alan, 2, 2, Ben, 2) remain unless constrained (e.g., unique key violations).

Mechanics:SQL*Loader processes each line of emp.dat, skipping duplicates if constrained, appending otherwise.

D . It generates a SQL script that it uses to load data from EMP.DAT to EMP.

False. SQL*Loader doesn't generate SQL scripts; it uses direct path or conventional path loading, not SQL scripts. The log contains control file syntax, not a script.

E . It overwrites all data in EMP with data from EMP.DAT.

False. REPLACE or TRUNCATE would overwrite, but these require a control file with those options. Default APPEND preserves existing data.

NEW QUESTION # 74

Which three actions are ways to apply the principle of least privilege?

- A. Setting the O7_DICTIONARY_ACCESSIBILITY parameter to TRUE.
- B. Setting the REMOTE_OS_AUTHENT parameter to TRUE.
- **C. Using Access Control Lists (ACLs).**
- **D. Enabling Unified Auditing.**
- **E. Revoking execute privilege on UTL_SMTP, UTL_TCP, UTL_HTTP, and UTL_FILE from the roles/users (assuming typo for duplicate option).**

Answer: C,D,E

Explanation:

A .True. Auditing tracks privilege use, enforcing least privilege.

B .True. Revoking unnecessary PL/SQL access limits capabilities.

C .True. ACLs restrict network access precisely.

D .False. TRUE relaxes dictionary access, violating least privilege.

E .False. TRUE allows risky OS auth, weakening security.

NEW QUESTION # 75

What are Optimizer Statistics?

- A. Optimizer Statistics are table, column, index, and system statistics used for generating efficient SQL execution plans.
- B. Optimizer Statistics are statistics about data distribution within Oracle Datafiles.
- C. Optimizer Statistics are a set of data distribution statistics collected in real time as data is inserted, deleted, or updated, which are stored in AWR and used for generating SQL execution plans.
- D. Optimizer Statistics are part of system performance statistics stored in AWR required for calculating SQL execution plans.

Answer: A

Explanation:

- A .False. Not real-time; collected periodically.
- B .False. Not about datafile distribution.
- C .True. Includes table, column, index stats for plan generation.
- D .False. Stored in data dictionary, not AWR.

NEW QUESTION # 76

As the DBA, you execute this command: GRANT CREATE VIEW TO usr1 WITH ADMIN OPTION; USR1 then executes: GRANT CREATE VIEW TO usr2 WITH ADMIN OPTION; USR2 then executes: GRANT CREATE VIEW TO usr3; Which statement is true?

- A. The DBA can revoke only ADMIN OPTION from USR1.
- B. When the DBA revokes the CREATE VIEW privilege from USR2, it is revoked from USR3.
- C. When the DBA revokes the CREATE VIEW privilege from USR1, it is revoked from USR2 but not USR3.
- D. When the DBA revokes the CREATE VIEW privilege from USR1, it is neither revoked from USR2 nor USR3.
- E. USR1 can revoke the CREATE VIEW privilege from USR3.

Answer: B,D

Explanation:

- A .False. Revoking from USR1 doesn't cascade due to WITH ADMIN OPTION.
- B .True. Revoking from USR2 cascades to USR3 because USR2 granted it.
- C .False. DBA can revoke the full privilege, not just ADMIN OPTION.
- D .False. USR1 can't revoke from USR3 directly; only the grantor (USR2) can.
- E .True. WITH ADMIN OPTION breaks the revoke chain from USR1 onward.

NEW QUESTION # 77

.....

We can find that the Internet is getting closer and closer to our daily life and daily work. We can hardly leave the Internet now, we usually use computer or iPad to work and learn. Inevitably, we will feel too tired if we worked online too long. You can see our 1Z0-182 exam materials have three version, including Pdf version, APP version and soft version, the Pdf version support printing. You can free download part of 1Z0-182 simulation test questions and answers of 1Z0-182 exam dumps and print it, using it when your eyes are tired. It is more convenient for you to look and read while protect our eye. If you print the 1Z0-182 exam materials out, you are easy to carry it with you when you out, it is to say that will be a most right decision to choose the 1Z0-182, you will never regret it.
