Oracle 1Z0-947 Exam Dumps - 100% Pass Guarantee With Latest Demo [2026]

One of the best features of ExamBoosts exam questions is free updates for up to 1 year. The ExamBoosts has hired a team of experienced and qualified 1Z0-947 exam trainers. They update the 1Z0-947 exam questions as per the latest 1Z0-947 Exam Syllabus. So rest assured that with the ExamBoosts you will get the updated 1Z0-947 exam practice questions all the time. Try a free demo if you to evaluate the features of our product. Best of luck!

Oracle GoldenGate 19c Implementation Professional Sample Questions (Q66-Q71):

NEW QUESTION # 66
Which components have been made redundant in Oracle GoldenGate 12.2 and later?

- A. Replicat
- B. ASSUMETARGETDEFS
- C. Extract
- D. SOURCEDEFS

Answer: B,D

Explanation:
From 12.2, ASSUMETARGETDEFS and SOURCEDEFS are no longer needed.

NEW QUESTION # 67
How is Integrated Capture different from Classic Capture?

- A. Integrated Capture is different because it receives Logical Change Records (LCRs) directly from a database logmining server.
- B. Integrated Capture is different because it captures processes to integrate with an application server.
- C. Integrated Capture is different because it connects directly to the inbound server to apply transactions.
- D. Integrated Capture is different because it automatically configures the Capture process of GoldenGate.

Answer: A

Explanation:
The main difference between Integrated and Classic Capture in Oracle GoldenGate lies in how changes are captured from the database. Integrated Capture uses a database logmining server to receive Logical Change Records (LCRs) directly, while Classic Capture directly reads redo log files.

NEW QUESTION # 68
Which of these can you not do from the main page of the MA Administration Server web page?

- A. See the lag time of currently configured Extracts and Replicats.
- B. Restart configured Extracts and Replicats.
- C. Fix the situation of what caused the Extract or Replicat to be down from the Critical Event box.
- D. Create an Extract or Replicat.

Answer: C

Explanation:
From the main page of the Oracle GoldenGate 19c Microservices Architecture (MA) Administration Server web interface, you can do the following: ? Restart configured Extracts and Replicats ? Create Extract or Replicat processes ? View lag time and status of running processes ? But you cannot directly "fix" the underlying issue causing an Extract or Replicat to fail from the Critical Event box. You may be alerted to the issue there, but resolving it typically requires additional diagnosis or configuration changes via other tools or pages.

NEW QUESTION # 69
Which statement is not true for a Data Path in the Oracle GoldenGate Microservices architecture environment?

- A. The Replicat process reads the trail files that are made available by the Distribution Server.
- B. The Replicat process applies all committed changes to the target database.
- C. The Distribution Server accesses the trail files for a defined Path.
- D. The Extract process stores the captured data in trail files.

Answer: C

Explanation:
In Oracle GoldenGate Microservices Architecture, the Distribution Server does not access local trail files directly. Instead, it receives data from the Source Extract (or Data Pump) and sends it to the Receiver Server on the target.

NEW QUESTION # 70

Which statement about trails is correct?

- A. Extract is typically used to produce local trail files over a TCP/IP connection.
- B. RMTTRAIL is for remote trails and EXTTRAIL is for local trails.
- C. Trail files are used to show how many records your Distribution Path is trailing behind the Extract.
- D. Trail files are used to show the order GoldenGate files are accessed to perform replication.

Answer: B

Explanation:
In Oracle GoldenGate, EXTTRAIL is used to define local trail files written by a primary Extract, while RMTTRAIL defines remote trail files that are sent over the network (via TCP/IP) by a Data Pump or Distribution Server to a remote target.

NEW QUESTION # 71

......

The Oracle 1Z0-947 certification exam is a valuable credential that often comes with certain personal and professional benefits. For many Oracle professionals, the Oracle GoldenGate 19c Implementation Professional (1Z0-947) certification exam is not just a valuable way to boost their skills but also Oracle GoldenGate 19c Implementation Professional certification exam gives them an edge in the job market or the corporate ladder.
