## Pdf HPE6-A86 Dumps, HPE6-A86 Exam Torrent

We would like to provide our customers with different kinds of HPE6-A86 practice torrent to learn, and help them accumulate knowledge and enhance their ability. Besides, we guarantee that the questions of all our users can be answered by professional personal in the shortest time with our HPE6-A86 study guide. One more to mention, we can help you make full use of your sporadic time to absorb knowledge and information. In a word, compared to other similar companies aiming at HPE6-A86 Test Prep, the services and quality of our HPE6-A86 exam questions are highly regarded by our customers and potential clients.

## HPE Network Switching Associate Exam Sample Questions (Q61-Q66):

### NEW QUESTION # 61

A technician installed a new HPE Aruba Networking 580EX Series access point, which is cabled back to an HPE Aruba Networking CX 6000 48G 4SFP switch. However, there are no lights on the access point. What could cause this issue?

- A. The switch does not have enough PoE budget per port.
- B. The wrong VLAN has been configured.
- C. The access point cannot connect to HPE Aruba Networking Central.
- D. STP has not been configured.

**Answer: A**

Explanation:

The correct answer is B. The switch does not have enough PoE budget per port. The HPE Aruba Networking 580EX Series access point requires appropriate power to boot and illuminate its LEDs. HPE Aruba Networking documentation states that the 580EX Series supports 802.3bt Class 6 power or AC power. A standard HPE Aruba Networking CX 6000 48G 4SFP switch, such as the R8N86A model, is a non-PoE switch; the PoE-capable version is identified separately as the CX 6000

48G Class 4 PoE 4SFP 740W switch.

Even when using a PoE-capable CX 6000 model, Class 4 PoE provides up to 30W per port, while the AP requires 802.3bt Class 6 or AC power for normal operation. Therefore, if the AP has no lights, the most likely cause from the options is insufficient or unavailable PoE power from the switch port. A wrong VLAN, missing STP configuration, or failure to connect to HPE Aruba Networking Central would not normally prevent the AP from receiving power and showing LEDs.

#### NEW QUESTION # 62

A Network Technician has been given a list of `show` commands to validate the configuration of a newly installed HPE Aruba Networking CX switch. The technician needs to verify the status of all IP- configured interfaces on the switch, including VLAN interfaces (SVIs) and the out-of-band management port.

The technician wants a single command that produces a table-like output, with one line per interface, showing the interface name, its IP address, and its status. Which of the following validation commands is the best tool for this specific purpose?

- A. `show interface brief`
- B. `show ip interface brief`
- C. `show running-config`
- D. `show ip route`

**Answer: B**

#### NEW QUESTION # 63

A Network Technician is troubleshooting a user connectivity issue. The user, connected to port 1/1/20, is unable to get a DHCP address. The technician needs to capture the traffic from the user's port and analyze it on their laptop, which is connected to port 1/1/48.

\* Source Port (Monitored Port): 1/1/20 (User's PC)

\* Destination Port (Analyzing Port): 1/1/48 (Technician's Laptop)

\* Mirroring Session: Use session ID 1.

\* Goal: Mirror all traffic (both ingress and egress) from the source to the destination.

Which of the following command sets correctly configures the required port mirroring session?

- A. interface 1/1/20  
mirror-port 1/1/48
- B. mirror 1  
source 1/1/20  
destination 1/1/48  
enable
- C. mirror-session 1  
source interface 1/1/20 both  
destination interface 1/1/48  
enable
- D. mirror-session 1  
source interface 1/1/20  
destination interface 1/1/48  
enable

**Answer: C**

#### NEW QUESTION # 64

A Junior Network Engineer needs to transfer a new firmware file to an HPE Aruba Networking CX switch. The primary requirement is that the transfer must be secure and encrypted. Which network management protocol should be used for this task?

- A. SNMPv2 (Simple Network Management Protocol version 2)
- B. SFTP (Secure File Transfer Protocol)
- C. FTP (File Transfer Protocol)
- D. Telnet

**Answer: B**

### NEW QUESTION # 65

The customer plans to roll out new HPE Aruba Networking CX 6000 and CX 6100 switches to replace the existing AOS-S switches. To make the deployment include fewer manual tasks, the customer has asked how Zero Touch Provisioning, or ZTP, would help with the transition.

Select the correct statement about ZTP.

- A. ZTP connects to HPE Aruba Networking Central and downloads the template configuration over SCP.
- **B. A DHCP server needs to be configured with the required options.**
- C. An SFTP server needs to be set up for the switch to download the initial configuration.
- D. The ZTP deployment is enabled by default on the management interface.

**Answer: B**

Explanation:

The correct answer is D. A DHCP server needs to be configured with the required options. HPE Aruba Networking AOS-CX documentation for the 4100i, 6000, and 6100 switch series states that ZTP supports standards-based Zero Touch Provisioning and that the DHCP server must be configured to provide the required ZTP server information. The documentation lists supported DHCP options, including vendor-specific option 43, and explains that the switch contacts a DHCP server when it boots from a factory-default configuration. HPE Aruba documentation also explains that a trusted-network ZTP setup uses a TFTP server for configuration and image files, with the DHCP server providing the required information for the switch to find those files. Therefore, DHCP options are the required foundation for ZTP. Option A is misleading because ZTP is tied to a factory-default boot state, not simply being enabled on the management interface.

Option B is incorrect because SCP is not the documented ZTP download method here. Option C is incorrect because the guide describes TFTP, not SFTP, for this ZTP workflow.

### NEW QUESTION # 66

.....

There are a lot of leading experts and professors in different field in our company. As a result, they have gained an in-depth understanding of the fundamental elements that combine to produce world class HPE6-A86 practice materials for all customers. So we can promise that our HPE6-A86 study materials will be the best study materials in the world. Our HPE6-A86 Exam Questions have a high quality. If you decide to buy our HPE6-A86 study materials, we can make sure that you will have the opportunity to enjoy the HPE6-A86 study guide from team of experts.
