SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q49-Q54):

NEW QUESTION # 49

What does SAP's Tax Management solution handle?

- A. Various types of taxes and e-invoicing
- B. Linking financial outcomes to operational drivers
- C. Automating financial statements
- D. Supporting quote to cash processes

Answer: A

NEW QUESTION # 50

Which of the following SAP solutions are designed to support Implementation of Business Controls and monitoring Compliance?

Note: There are 3 correct answers to this question.

- A. SAP Global Trade Management
- B. SAP S/4HANA Finance for Group Reporting
- C. SAP Entitlement Management
- D. SAP Business Integrity Screening
- E. SAP Process Control

Answer: A,D,E

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

SAP's Governance, Risk, and Compliance (GRC) portfolio provides a comprehensive suite of tools designed to safeguard the organization through automated controls. SAP Process Control is central to this effort, offering a framework for implementing and continuously monitoring internal business controls. It moves organizations away from manual, sample-based audits toward automated, continuous monitoring of processes, ensuring that compliance is maintained in real-time.

SAP Business Integrity Screening complements this by scanning large volumes of transactional data to detect anomalies that might indicate fraud or errors. By identifying these "red flags" early, CFOs can prevent financial loss and protect the organization's reputation. Furthermore, SAP Global Trade Management (within the context of SAP GTS) ensures that all international trade activities comply with complex global regulations, managing everything from sanctioned party screening to license management. Together, these three solutions provide the transparency and oversight necessary for modern risk management. While SAP S/4HANA Finance for Group Reporting is essential for consolidation, it is a closing tool rather than a monitoring control solution. SAP Entitlement Management focuses on rights management, which is distinct from the core financial business controls described here.

NEW QUESTION # 51

How does the SAP Business suite help Chief Financial Officers (CFOs) to achieve their top objectives?

Note: There are 3 correct answers to this question.

- A. By ensuring an engaged and productive workforce as competition intensifies and expectations evolve.
- B. By ensuring compliance and sustainability amid evolving regulations.
- C. By enabling agile and compliant HR in an increasingly complex legal and regulatory landscape.
- D. By navigating transformation by continuously optimizing processes for growth and efficiency.
- E. By managing uncertainty via real-time planning and scenario analysis.

Answer: B,D,E

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

The SAP Business Suite is designed to address the evolving strategic needs of the modern CFO, who is increasingly responsible for driving enterprise value. The suite focuses on three core pillars: navigating transformation, ensuring compliance/sustainability, and

managing uncertainty. First, SAP helps CFOs navigate transformation by providing a digital core in SAP S/4HANA. This allows for the optimization of critical financial processes like the "Record-to-Report" cycle, which enhances operational efficiency and supports business growth.

Second, the suite ensures compliance and sustainability by embedding regulatory requirements directly into business workflows. This is vital as CFOs face increasing pressure to report on non-financial ESG (Environmental, Social, and Governance) metrics alongside traditional financial data. Third, SAP enables CFOs to manage uncertainty through real-time planning and "what-if" scenario analysis. By utilizing a unified data foundation, finance leaders can immediately see the potential impact of market volatility or supply chain disruptions. This allows for proactive steering of the company rather than reactive reporting. While HR and workforce engagement (options C and E) are critical to the business, they are primarily handled by SAP SuccessFactors rather than being the direct focus of the SAP Financial Management solution set for CFO objectives.

NEW QUESTION # 52

Which of the following is a key feature of SAP Analytics Cloud?

- A. Real-time insights and predictive analytics
- B. Limited data visualization
- C. No support for financial reporting
- D. Manual data integration

Answer: A

NEW QUESTION # 53

Which financial process solution area is responsible for managing interfacing with banking institutions?

- A. Invoice to Cash
- B. Invoice to Pay
- C. Treasury Management
- D. Financial Planning & Analysis

Answer: C

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

Within the SAP Financial Management ecosystem, the Treasury Management solution area is primarily responsible for the relationship and technical interfacing with banking institutions. While "Invoice to Cash" and "Invoice to Pay" involve transactions that eventually hit a bank account, it is the Treasury function that governs the overall cash liquidity, bank account management, and communication protocols.

SAP Treasury Management, supported by tools like SAP Multi-Bank Connectivity (MBC), provides a secure, automated link between the corporate ERP and the global banking network. This allows for the automated transmission of payment files and the retrieval of electronic bank statements. Beyond simple connectivity, Treasury Management enables the CFO to see a global view of cash positions in real-time, manage financial risks (such as currency or interest rate exposure), and optimize the company's funding strategy. By centralizing the bank interface within Treasury Management, organizations can ensure high security through encryption and digital signatures, reduce bank fees through consolidation, and gain the visibility needed to ensure the business always has the necessary liquidity to operate and grow.

NEW QUESTION # 54

.....

Under the instruction of our C_BCFIN_2502 exam torrent, you can finish the preparing period in a very short time and even pass the exam successful, thus helping you save lot of time and energy and be more productive with our SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions prep torrent.
