Braindump NCA-6.10 Pdf - Exam NCA-6.10 Dumps

We all know the effective diligence is in direct proportion to outcome, so by years of diligent work, our experts have collected the

frequent-tested knowledge into our NCA-6.10 practice materials for your reference. So our NCA-6.10 training materials are triumph of their endeavor. By resorting to our NCA-6.10 practice materials, we can absolutely reap more than you have imagined before. We have clear data collected from customers who chose our NCA-6.10 actual tests, the passing rate is 98-100 percent. So your chance of getting success will be increased greatly by our materials.

Nutanix Certified Associate v6.10 Sample Questions (Q20-Q25):

NEW QUESTION # 20

When configuring dual encryption, which key management method is supported?

- **A. External Key Manager**
- B. Native Key Manager
- C. Trusted Platform Module
- D. Lockdown Mode Enabled

Answer: A

NEW QUESTION # 21

An administrator needs to verify whether the cluster is protected currently from potential data loss due to a component failure. From the Prism Element Home dashboard, how should the administrator accomplish this task?

- A. Click on Home and then Alerts.
- **B. Look at the Data Resiliency Status widget.**
- C. Select the gear icon and then select Pulse.
- D. Navigate to the Health dashboard.

Answer: B

Explanation:

To verify if the cluster is currently protected from potential data loss due to a component failure, the administrator should check the Data Resiliency Status widget on the Prism Element Home dashboard. This widget provides real-time information about the cluster's resiliency status, including warnings or errors about data redundancy or protection.

Other options:

- * A. Select the gear icon and then select Pulse: Pulse is used for telemetry data, not data resiliency status.
- * B. Click on Home and then Alerts: Alerts show specific issues but do not directly indicate the overall resiliency status.
- * D. Navigate to the Health dashboard: The Health dashboard provides detailed health checks but does not display the current resiliency status.

References:

Nutanix Administration Guide - Data Resiliency Status.

Nutanix Prism UI Documentation - Dashboard Overview.

NEW QUESTION # 22

An administrator receives the alert:

What is the most likely cause?

- A. This node in the cluster is already in maintenance mode.
- B. Another node in this cluster is already in maintenance mode.
- **C. Other nodes in the cluster may not have enough resource available.**
- D. This node in the cluster may not have enough resources available.

Answer: C

Explanation:

When a Nutanix cluster alert occurs, indicating maintenance mode issues, the most likely cause is that another node in the cluster is already in maintenance mode. Nutanix clusters enforce restrictions to prevent more than one node from entering maintenance mode simultaneously. This ensures the cluster can maintain resiliency and availability, adhering to the redundancy factor (RF) policy. If another node is already in maintenance mode, the cluster cannot afford to have additional nodes enter maintenance without compromising data and service availability.

Nutanix Cluster Best Practices Documentation - Maintenance Mode.
Nutanix Alerts and Events Guide, accessible via Prism UI.

NEW QUESTION # 23

Shared storage for Windows Server Failover Clustering (WSFC) is a use case for which Nutanix Unified Storage solution?

- A. Files
- B. Volumes
- C. RF2
- D. FT1

Answer: A

NEW QUESTION # 24

An administrator has been directed to ensure that all Prism Element and Prism Central clusters allow Nutanix Support to gather logs without needing engagement.

What should the administrator enable to meet this requirement?

- A. NKP
- B. Pulse
- C. Self-Service
- D. Proxy Server

Answer: B

Explanation:

To allow Nutanix Support to gather logs automatically without requiring manual intervention, the administrator should enable Pulse. Pulse is a telemetry service that collects and sends system health, log, and usage data to Nutanix Support securely.

Steps:

- * Navigate to Prism Central > Settings > Pulse.
- * Enable the service and configure as required for your environment.

Other options:

- * Self-Service: Refers to role-based access for users, unrelated to log collection.
- * Proxy Server: Used for network communication, not log gathering.
- * NKP: Refers to Nutanix Cluster Protocol, unrelated to telemetry.

:

Nutanix Administration Guide - Pulse Configuration.

Nutanix Support Portal - Pulse Service Details.

NEW QUESTION # 25

.....

We all know, the IT industry is a new industry, and it is one of the chains promoting economic development, so its important role can not be ignored. Our Exam4Free's NCA-6.10 exam training materials is the achievement of Exam4Free's experienced IT experts with constant exploration, practice and research for many years. Its authority is undeniable. If you buy our NCA-6.10 VCE Dumps, we will provide one year free renewal service.
