

CDCS-001 Exam Objectives Pdf, Valid CDCS-001 Test Online

Newest CDCS-001 Reliable Test Vce & Leading Offer in Qualification Exams & Unparalleled CDCS-001: Certified Data Centre Specialist (CDCS)

ExamBoosts is a website specifically provide the certification exam information sources for GAQM professionals. Through many reflects from people who have purchase ExamBoosts's products, ExamBoosts is proved to be the best website to provide the source of information about [CDCS-001 Certification Exam](#). The product of CDCS-001 is a very reliable training tool for you. The answers of the exam exercises provided by ExamBoosts is very accurate. Our ExamBoosts's senior experts are continuing to enhance the quality of our training materials.

The CDCS-001 exam covers a wide range of topics related to data center management, including power and cooling, networking, storage, virtualization, security, and disaster recovery. CDCS-001 exam consists of 100 multiple-choice questions and must be completed within 120 minutes. The passing score for the exam is 70%, and candidates who pass the exam receive a certificate that is valid for three years.

GAQM Certified Data Centre Specialist (CDCS) Sample Questions (Q20-Q25):

NEW QUESTION # 20

For which one of these processes is Direct Current essential, and will not work with alternating current?

- A. Heating
- B. Electrolysis
- C. Lighting
- D. Turning a motor

Answer: B

Explanation:
Explanation

Direct Current (DC) is essential for the process of electrolysis. Electrolysis is the process of breaking down a compound using an electric current. The electric current causes ions to move, which results in a chemical reaction that breaks down the compound. In order for electrolysis to work, a direct current is required, as the ions must flow in one direction. Alternating Current (AC) changes direction and would not provide a consistent flow of ions.

Heating, lighting, and turning a motor can be done by either DC or AC. Heating can be done by passing an electric current through a heating element, which can be powered by either DC or AC. Lighting can be done by passing an electric current through a light bulb, which can be powered by either DC or AC. A motor can be powered by either DC or AC, but the type of motor and the application will determine which type of current is more suitable.

NEW QUESTION # 21

Which one of the following uses sensors such as laser beams or touch sensor?

- A. CCTV

Downloading the CDCS-001 free demo doesn't cost you anything and you will learn about the pattern of our practice exam and the accuracy of our CDCS-001 test answers. We constantly check the updating of CDCS-001 vce pdf to follow the current exam requirement and you will be allowed to free update your pdf files one-year. Don't hesitate to get help from our customer assisting.

The CDCS-001 certification exam is a rigorous exam that requires candidates to have a solid understanding of data centre management. CDCS-001 exam is designed to test the candidate's knowledge and practical skills in managing and maintaining data centres. CDCS-001 Exam consists of 100 multiple choice questions and the duration of the exam is 2 hours. Candidates must score at least 70% to pass the exam.

100% Pass Quiz 2026 Useful GAQM CDCS-001: Certified Data Centre Specialist (CDCS) Exam Objectives Pdf

If you still upset about your CDCS-001 certification exams and look for professional CDCS-001 learning guide materials on the internet purposelessly, it is a good way for candidates to choose our best CDCS-001 exam preparation materials which can help

you consolidate of key knowledge effectively & quickly. Before purchasing we provide free PDF demo download for your reference. After purchasing our products, you can receive our products within 10 minutes and you have no need to spend too much time on your CDCS-001 Exams but obtain certification in short time.

The CDCS-001 exam is ideal for professionals who work in data centers, including data center managers, network engineers, system administrators, and IT professionals. Certified Data Centre Specialist (CDCS) certification program is also beneficial for those who aspire to work in data centers or are interested in pursuing a career in this field. The CDCS-001 Exam is an excellent way to demonstrate your knowledge and skills in data center design, operations, and management, and to enhance your career prospects in this high-demand field.

GAQM Certified Data Centre Specialist (CDCS) Sample Questions (Q29-Q34):

NEW QUESTION # 29

AC is more easily distributed than DC. This is because:

- A. Wires have less resistance if they are carrying AC
- **B. AC can be transformed from a low voltage to a high voltage and back again with a transformer. DC cannot.**
- C. DC needs wires to be totally insulated, while AC wires can be bare, hung from insulator on pylons.
- D. AC can be transmitted using lighter wires.

Answer: B

Explanation:

AC can be transformed from a low voltage to a high voltage and back again with a transformer, while DC cannot. This makes it easier to distribute AC electricity over long distances and is why it is used more widely than DC electricity. A and B are also true, as wires carrying AC can be bare and don't need to be totally insulated. Wires have less resistance when carrying AC electricity, which is why it is more efficient than DC.

NEW QUESTION # 30

True or False: The availability of fuel typically determines the type of standby generator chosen.

- A. False
- **B. True**

Answer: B

NEW QUESTION # 31

True or False: A grounded wire is connected to metal appliance cases

- A. False
- **B. True**

Answer: B

Explanation:

Explanation

A grounded wire is connected to metal appliance cases in order to provide a safe path for electricity to flow in the event of a short circuit or other electrical problem. This helps to protect the appliance and the people using it from potential electrical shocks, and it also helps prevent fires and other accidents.

NEW QUESTION # 32

Which one of the following is an advantage of using Natural Gas?

- **A. Minimum carbon build up**
- B. Maximum carbon build up
- C. Tends to cost more

- D. More exhaust able

Answer: A

Explanation:

The main advantage of using natural gas is that it tends to produce fewer carbon emissions than other fossil fuels, such as coal or oil. Natural gas combustion produces less carbon dioxide and other pollutants than other fuels, making it a cleaner and more renewable source of energy. Additionally, natural gas costs less than other fuels, making it a more cost-effective option.

NEW QUESTION # 33

_____ measures the amount of electrical current flowing through a circuit during a specific time interval.

- A. Ohm
- B. Watts
- C. Volts
- **D. Ampere**

Answer: D

Explanation:

An ampere (A) is the unit of measurement for electric current. It measures the amount of electrical current flowing through a circuit during a specific time interval. The ampere is named after Andre-Marie Ampere, a French mathematician and physicist who was one of the main discoverers of electromagnetism.

Ohm (#) is the unit of measurement for electric resistance, which is the opposition to the flow of an electric current through a circuit.

Volt (V) is the unit of measurement for electric potential difference, which is the energy required per unit charge to move a test charge between two places in a static electric field.

Watt (W) is the unit of measurement for power, which is the rate at which energy is used or generated in an electrical circuit.
