Latest ADX-211 Braindumps Sheet & Valid Exam ADX-211 Preparation

Thousands of people will crowd into our website to choose the ADX-211 study materials. So people are different from the past. Learning has become popular among different age groups. Our ADX-211 guide questions truly offer you the most useful knowledge.

You can totally trust us. We are trying our best to meet your demands. Why not give our ADX-211 Practice Engine a chance? Our products will live up to your expectations.

Salesforce ADX-211 Certification Exam is an advanced-level exam that is designed for professionals who want to demonstrate their expertise in administering, extending, and automating Salesforce. ADX-211 exam is highly sought-after by employers and is recognized globally as a mark of excellence in Salesforce administration. To be eligible for the exam, candidates must have at least six months of experience working with Salesforce and a good understanding of its various features. Taking a training course is one of the best ways to prepare for the exam and increase the chances of passing it.

Salesforce Administer, Extend, and Automate Salesforce Sample Questions (Q143-Q148):

NEW QUESTION # 143
what should an administrator do before case feeds can be enabled? choose 2

- A. Enable chatter.
- B. Enable case assignment rules.
- C. Enable feed tracking on cases.
- D. Enable default email templates

Answer: A,C

NEW QUESTION # 144
Which three types of prices should an administrator set for an organization's products?
Choose 3 answers.

- A. Discount prices
- B. Standard prices
- C. Sales prices
- D. List prices
- E. Product prices

Answer: A,B,D

NEW QUESTION # 145
What are the similarities of customizable and collaborative forecasting? Choose two answers. * (1 Point)

- A. Submit Forecast
- B. Monthly and Quarterly Forecasts
- C. Quotas
- D. Territory management

Answer: B,C

NEW QUESTION # 146
Ursa Major Solar has a training sandbox with 160MB of test data that needs to be refreshed every other day.
Which two sandboxes should be used in this instance?
Choose 2 answers

- A. Full
- B. Developer Pro
- C. Partial
- D. Developer

Answer: B,C

Explanation:

To create a training sandbox with 160MB of test data that needs to be refreshed every other day, NTO should use either Partial or Developer Pro sandboxes. Partial sandboxes have a storage limit of 10GB and can be refreshed every 5 days. Developer Pro sandboxes have a storage limit of 1GB and can be refreshed every day. Both sandboxes can include test data from production. Reference: https://help.salesforce.com/s/articleView?id=sf.data_sandbox_environments.htm&type=5

NEW QUESTION # 147

What should an administrator do to keep secure fields protected in email templates'?

- A. Implement GDPR.
- B. Remove the fields from the email.
- C. Set up an approval process for email alerts.
- D. Use classic encrypted fields.

Answer: D

Explanation:
To ensure that secure fields remain protected in email templates, administrators should remove the fields from the email. Email templates can expose sensitive information if they contain fields with secure data. By excluding these fields, administrators can prevent unauthorized access to sensitive information through email communication.
Removing Secure Fields from Email Templates:
When creating or updating email templates, administrators should carefully assess the fields included and remove any that contain sensitive information, such as encrypted fields or fields that contain Personal Identifiable Information (PII).
This approach ensures that secure information is not unintentionally shared via email, aligning with best practices for data security and minimizing exposure risks.
Implications of Including Secure Data in Emails:
Secure fields, particularly those that contain sensitive or confidential information, should be restricted from emails to avoid potential data breaches.
Email communication often lacks the same security controls as the Salesforce platform, making it essential to limit the sharing of sensitive data.
Incorrect options:
Implement GDPR: While GDPR compliance ensures proper data handling practices, it does not directly prevent secure fields from being included in emails.
Set up an approval process for email alerts: An approval process can control the sending of email alerts but does not inherently protect secure fields within the email content.
Use classic encrypted fields: Encrypted fields add a layer of security for data at rest within Salesforce but do not provide specific protections for data included in email templates. Moreover, encrypted fields cannot be referenced in email templates.
In conclusion, the most effective way to ensure that secure fields are not exposed through email templates is to remove these fields from the template altogether, avoiding the inclusion of sensitive data in email communications.
