### NEW QUESTION # 40

DRAG DROP

You are a dispatcher for a cable installation company that provides installation services in multiple territories. The company is using Dynamics 365 for Field Service to manage their work orders. Every time a work order is created, the dispatch team is manually assigning the work order to a territory in order to book the correct resources.

You are tasked with ensuring that Dynamics 365 will automatically assign work orders to territories so that the dispatcher can search for the correct resources.

Which four steps, in sequence, must be configured to ensure that when work orders are created they will automatically be mapped to the correct territory? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

**Answer:**

Explanation:

Section: Schedule and dispatch work orders

### NEW QUESTION # 41

You are implementing the Field Service mobile app for an air conditioning (AC) repair company. A field technician installed an AC unit at a customer location and completed the booking.

The technician now needs to create a follow-up work order in order to schedule the first service on the installed AC unit. What will happen once the follow-up work order is created?

- A. The technician will need to manually assign the work order to the dispatcher.
- B. The system will auto-schedule the work order to the same technician to begin work immediately.
- C. The system will auto-assign the work order to the same technician for a future date.
- **D. The work order will be available for scheduling by the dispatcher.**

**Answer: D**

## NEW QUESTION # 42

.....
