Unsere Schlüssel ist die PRINCE2 PRINCE2Practitioner Prüfungsunterlagen, die von unserer professionellen IT-Gruppe für mehrere Jahre geforscht werden. Die Antworten davon werden auch ausführlich analysiert. Die Prüfung werden immer aktualisiert. Deshalb aktualisieren wir die Prüfungsunterlagen der PRINCE2 PRINCE2Practitioner immer wieder. Wir tun unser Bestes, um den sicheren Erfolg zu garantieren.

PRINCE2 Practitioner Exam PRINCE2Practitioner Prüfungsfragen mit Lösungen (Q188-Q193):

188. Frage

HOTSPOT

NO: 7 HOTSPOT

Scenario

A photographer from Portraits Ltd, a professional photographic company, has taken on the role of Team Manager after taking some time to understand the requirements of the project. A contract for their services has been set up and is being monitored by the Purchasing Manager and a Work Package has been agreed. This contract specifies that the photographer must arrange a meeting with the Engineering Manager to establish a schedule for the photo sessions to minimize the impact on the Engineering staff. This meeting should have occurred by now.

The Engineering Manager was made aware of this requirement but when asked he reported that he has received no communication from the photographer. The Project Manager has tried to call the photographer and has had no response. The Project Manager believes there is a risk that Portraits Ltd are overbooking work and prioritizing other clients' work. If Portraits Ltd do not deliver on schedule the project will be delayed and the expected benefits will be reduced.

The contract is to be reviewed and Portraits Ltd reminded of their agreement.

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Using the Project Scenario answer the following question. The Plan for stage 3 has been approved and work has commenced.

Column 1 contains a number of issues for this project. Select from Column 2 the appropriate category for each issue. Each selection from Column 2 can be used once, more than once or not at all.

Drop down the right answer from column 1 to column 2.

189. Frage

The Health and Safety Training Project is closing as planned. According to the contract terms, suppliers must submit all invoices within one week of project closure. The project manager will issue a project closure notification informing all suppliers of this invoicing deadline as part of the 'recommended project closure' activity.

Is this appropriate, and why?

- A. No, because the project manager should notify stakeholders using the approved project closure notification.
- B. No, because the project board should issue a project closure notification as part of the 'directing a project' process.
- **C. Yes, because a project closure notification should be sent to suppliers as part of the 'closing project' process.**
- D. Yes, because the project board should approve the project closure notification drafted by the project manager.

Antwort: C

190. Frage

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered.

ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

□

End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.

The Purchasing Manager reports to the Finance Director and is responsible for managing and monitoring supplier contracts.

The Operations Director is responsible for the delivery of all training and for the training development budget. His department

organizes courses, venues and trainers. They work with the Product and the Sales teams to provide a comprehensive training schedule. ABC Company's IT manager reports to the Operations Director.

The Business Development Director has recently been appointed to identify new training needs and propose new products. She will work with the Operations Director to ensure a cost-conscious approach and that appropriate development technologies are used for the health and safety course.

The Training Development Manager reports to the Business Development Director and is responsible for developing training materials and gaining accreditation, in accordance with the standard course development model. Course developers in his team have skills in a range of development technologies and are allocated to projects as needed.

The Training Delivery Manager, who reports to the Operations Director, is responsible for ensuring that internal and external trainers deliver ABC Company training courses to the required standard. He also checks course materials to ensure they are fit for purpose and of the required quality.

The Central Services Director has responsibility for corporate communications, facilities management and configuration management. He recently led a project to consolidate all company quality systems into one quality management system and set up a corporate quality department, now managed by the Corporate Quality Manager.

The Corporate Document Manager reports to the Central Services Director. She helped establish the company's document management system and now operates it across the business. She manages a team of administrators and contracts staff when workload is high.

The Sales Director joined ABC Company two months ago and is keen to establish himself by suggesting new markets for the courses and material. All account managers and the marketing team report to him. They promote existing training courses to other training companies and existing customers.

End of the additional information.

The delivery of the pilot courses has been split into two separate products: 'planned pilot courses' and 'delivered pilot courses'. 'Planned pilot courses' will be produced during stage 3, and the 'delivered pilot courses' will take place during stage 4. This will allow the project board to approve the plan for the pilot courses before the resources are committed to delivering the pilot courses.

Why is this an appropriate application of the plans theme to control the project?

- A. Because the pilot courses have been broken down into two separate products.
- B. Because the project board should ensure that lessons from one stage are applied to the next stage.
- C. Because a PRINCE2 project should focus on the quality of the products being delivered.
- **D. Because the delivery steps to create the pilot courses have been aligned to the management stages.**

Antwort: D

191. Frage

Scenario

Product Summary

A list of customers will be collated. This will use existing information from the Accounts department about current customers, and existing information from the Marketing department about prospective customers.

Using the tariff of mailing costs available from the Post Office, a production cost forecast will be produced to allow the CEO and the Marketing Director to decide whether to continue with the project. If they decide to continue, they will give the approval to launch the internal label design competition. Competition rules will be required to communicate details of the competition to the staff. The chosen label design will then be selected from the competition entries.

The photos for the calendar must be based on existing photo design ideas available from the Marketing department. The selected photos will be chosen from these. Monthly calendar displays will be created to show the required layout of each page.

Product Breakdown Structure (contains errors)

□ Extract from Stage Plan for stage 3.

(All entries are true statements but may not be shown under the correct heading or in the correct document).

□ Using the Project Scenario and the Extract from Stage Plan for stage 3 provided as additional information for this question in the Scenario Booklet, answer the following 5 questions.

The Stage Plan for stage 3 has been produced.

The Engineering Manager insists that there are to be no interruptions to operations whilst photographs are being taken of the engineering staff performing their everyday duties and operating machinery. Two weeks ago the professional photographer produced the photo session schedule based on the operational staff schedule. The operational staff schedule is produced weekly and maintained by the Engineering Manager.

None of the £500 change budget has been used to date and this is available for the stage.

Which 2 statements apply to the Plan prerequisites section?

- A. Delete entry 3 because the production cost forecast is a deliverable of stage 2, not a prerequisite for stage 3.

- B. Delete entry 2 because these are project benefits not prerequisites of the stage.
- C. Add 'Engineering team must be made available for photos'.
- D. Delete entry 4 because the customer list is a deliverable of stage 2, not a prerequisite for stage 3.
- E. Add 'Compliance with the Data Protection Act'.

Antwort: B,D

192. Frage

Which 2 statements explain why Central Records should be appointed as Project Support for this project?

- A. They will ensure compliance with all company policies and procedures.
- B. They already exist within the organization and have been with the company for many years.
- C. They control the receipt, identification, versions, storage and issue of all project products within the company's projects.
- D. They have knowledge of the organizational standards that will be applicable to the project.
- E. They perform a quality assurance function across all projects.

Additional Information

Further information on some resources who could be involved in the project:

Outcome Account Manager: He represents Outcome which is a recruitment agency that provides specialist outsourcing resources. Outcome provided the consultants who carried out the feasibility study and the same consultants will be providing support and guidance to the Information Technology and Facilities teams during the project.

Director of Finance Division: She was transferred from the Information Technology Division 12 months ago.

She is responsible for ensuring a cost-conscious approach is adopted in all operational and project activities across the Ministry of Food Hygiene.

Hardware Manager: Reports to the Director of Information Technology. He provides computer hardware to all business functions but has little awareness of the needs of his colleagues working in software.

Payroll Manager: Reports to the Director of Finance. He is a very experienced and efficient qualified accountant who has much of the responsibility of running the Finance Division on behalf of the Director of Finance. He has been involved in drafting the Ministry's business strategy and assisting in a full business risk assessment. He also drafted the corporate Business Case standards.
