

Latest Microsoft DP-100 Braindumps Questions - DP-100 Study Group

MICROSOFT DP-100 CERTIFICATION EXAM QUESTIONS AND ANSWERS PDF

Microsoft DP-100 Exam

EDUSUM.COM

Get complete detail on DP-100 exam guide to crack Designing and Implementing a Data Science Solution on Microsoft Azure. You can collect all information on DP-100 tutorial, practice test, books, study material, exam questions, and syllabus. Firm your knowledge on Designing and Implementing a Data Science Solution on Microsoft Azure and get ready to crack DP-100 certification. Explore all information on DP-100 exam with number of questions, passing percentage and time duration to complete test.

BONUS!!! Download part of TestkingPDF DP-100 dumps for free: <https://drive.google.com/open?id=1aHvAEYlGkoUemmbhV80p26LffLebLU3H>

You can acquire a sense of the DP-100 software by downloading a free trial version before deciding whether to buy it. This Microsoft DP-100 practice exam software lets you identify your strengths and shortcomings, allowing you to concentrate on those aspects of your Designing and Implementing a Data Science Solution on Azure (DP-100) test preparation that could use some work.

Microsoft DP-100 certification exam is designed for data scientists who want to validate their skills in designing and implementing data science solutions on the Azure platform. DP-100 exam is ideal for professionals who have experience in programming languages such as Python and R, and are familiar with Azure Machine Learning, Azure Databricks, and other Azure services. The DP-100 Exam is a great way to showcase your expertise in the field of data science and gain recognition as a certified data scientist.

Free PDF 2026 Pass-Sure DP-100: Latest Designing and Implementing a Data Science Solution on Azure Braindumps Questions

In order to make you confirm the quality of our DP-100 Dumps and let you know whether the dumps suit you, pdf and software version in TestkingPDF exam dumps can let you download the free part of our DP-100 training materials. We will offer free the part of questions and answers for you and you can visit TestkingPDF.com to search for and download these certification training materials. You cannot buy the dumps until you experience it so that you can avoid buying ignorantly the exam dumps without fully

understanding the quality of questions and answers.

Microsoft Designing and Implementing a Data Science Solution on Azure Sample Questions (Q517-Q522):

NEW QUESTION # 517

You are developing a machine learning experiment by using Azure. The following images show the input and output of a machine learning experiment:

The image shows a data transformation interface with two tables. The 'Input' table has 4 rows and 3 columns: Server ID, Risk Level, and Cost. The 'Output' table has 4 rows and 5 columns: Server ID, Risk Level-High, Risk Level-Low, Risk Level-Medium, and Cost. The 'Output' table shows binary values (0 or 1) indicating the presence of risk levels in the input data.

Server ID	Risk Level	Cost
N102696	High	4500
N102874	Low	5000
N107027	Medium	4000
N106548	High	4800

Server ID	Risk Level-High	Risk Level-Low	Risk Level-Medium	Cost
N102696	1	0	0	4500
N102874	0	1	0	5000
N107027	0	0	1	4000
N106548	1	0	0	4800

Use the drop-down menus to select the answer choice that answers each question based on the information presented in the graphic.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 518

You are analyzing the asymmetry in a statistical distribution.

The following image contains two density curves that show the probability distribution of two datasets.

Use the drop-down menus to select the answer choice that answers each question based on the information presented in the graphic.
NOTE: Each correct selection is worth one point.

Question	Answer choice
Which type of distribution is shown for the dataset density curve of Graph 1?	<input type="checkbox"/> Negative skew <input type="checkbox"/> Positive skew <input type="checkbox"/> Normal distribution <input type="checkbox"/> Bimodal distribution
Which type of distribution is shown for the dataset density curve of Graph 2?	<input type="checkbox"/> Negative skew <input type="checkbox"/> Positive skew <input type="checkbox"/> Normal distribution <input type="checkbox"/> Bimodal distribution

Answer:

Explanation:

Question	Answer choice
Which type of distribution is shown for the dataset density curve of Graph 1?	<input type="checkbox"/> Negative skew <input checked="" type="checkbox"/> Positive skew <input type="checkbox"/> Normal distribution <input type="checkbox"/> Bimodal distribution
Which type of distribution is shown for the dataset density curve of Graph 2?	<input type="checkbox"/> Negative skew <input checked="" type="checkbox"/> Positive skew <input type="checkbox"/> Normal distribution <input type="checkbox"/> Bimodal distribution

NEW QUESTION # 519

A biomedical research company plans to enroll people in an experimental medical treatment trial.

You create and train a binary classification model to support selection and admission of patients to the trial. The model includes the following features: Age, Gender, and Ethnicity.

The model returns different performance metrics for people from different ethnic groups.

You need to use Fairlearn to mitigate and minimize disparities for each category in the Ethnicity feature.

Which technique and constraint should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Option	Microsoft	Value
Technique		<ul style="list-style-type: none"> Grid search Outlier detection Dimensionality reduction
Constraint		<ul style="list-style-type: none"> Demographic parity False-positive rate parity

Answer:

Explanation:

Option	Value
Technique	<ul style="list-style-type: none"> Grid search Outlier detection Dimensionality reduction
Constraint	<ul style="list-style-type: none"> Demographic parity False-positive rate parity
Microsoft

NEW QUESTION # 520

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You train and register a machine learning model.

You plan to deploy the model as a real-time web service. Applications must use key-based authentication to use the model.

You need to deploy the web service.

Solution:

Create an AksWebservice instance.

Set the value of the auth_enabled property to True.

Deploy the model to the service.

Does the solution meet the goal?

- A. No
- B. Yes

Answer: B

Explanation:

Explanation

Key-based authentication.

Web services deployed on AKS have key-based auth enabled by default. ACI-deployed services have key-based auth disabled by default, but you can enable it by setting auth_enabled = TRUE when creating the ACI web service. The following is an example of creating an ACI deployment configuration with key-based auth enabled.

```
deployment_config <- aci_webservice_deployment_config(cpu_cores = 1,  
memory_gb = 1,  
auth_enabled = TRUE)
```

NEW QUESTION # 521

You create a new Azure Databricks workspace.

You configure a new cluster for long-running tasks with mixed loads on the compute cluster as shown in the image below.

Microsoft Azure

Create Cluster

New Cluster

Cancel

Create Cluster

2-8 Workers: 28.0-112.0 GB Memory, 8-32 Cores, 1.5-6 DBU
1 Driver: 14.0 GB Memory, 4 Cores, 0.75 DBU

Cluster Name: mysparkcluster

Cluster Mode: Standard

Pool: None

Databricks Runtime Version: Runtime: 6.4 (Scala 2.11, Spark 2.4.5)

New This Runtime version supports only Python 3.

Autopilot Options:

- Enable autoscaling
- Terminate after 120 minutes of inactivity

Worker Type: Standard_DS3_v2

Min Workers: 2

Max Workers: 8

Driver Type: Same as worker

Advanced Options

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Code for each user runs as a separate process

<input type="checkbox"/>	▼
Yes	
No	
<input type="checkbox"/>	▼

The number of workers is fixed for the entire duration of the job

<input type="checkbox"/>	▼
Yes	
No	
<input type="checkbox"/>	▼

Answer:

Explanation:

Code for each user runs as a separate process

<input type="checkbox"/>	▼
Yes	

The number of workers is fixed for the entire duration of the job

<input type="checkbox"/>	▼
Yes	

Explanation:

Box 1: No

Running user code in separate processes is not possible in Scala.

Box 2: No

Autoscaling is enabled. Minimum 2 workers, Maximum 8 workers.

NEW QUESTION # 522

.....

You only need 20-30 hours to practice our software materials and then you can attend the exam. It costs you little time and energy. The DP-100 exam questions are easy to be mastered and simplified the content of important information. The Designing and Implementing a Data Science Solution on Azure test guide conveys more important information with amount of answers and questions, thus the learning for the examinee is easy and highly efficient. The language which is easy to be understood and simple, DP-100 Exam Questions are suitable for any learners no matter he or she is a student or the person who have worked for many years with profound experiences. So it is convenient for the learners to master the DP-100 guide torrent and pass the exam in a short time. The amount of the examinee is large.
