아무런 노력을 하지 않고 승진이나 연봉인상을 꿈꾸고 있는 분이라면 이 글을 검색해낼수 없었을것입니다. 승진이나 연봉인상을 꿈꾸면 승진과 연봉인상을 시켜주는 회사에 능력을 과시해야 합니다. IT인증시험은 국제적으로 승인해주는 자격증을 취득하는 시험입니다. Itexamdump의AHIMA인증 CDIP덤프의 도움으로 AHIMA인증 CDIP시험

을 패스하여 자격증을 취득하면 승진이나 연봉인상의 꿈이 이루어집니다. 결코 꿈은 이루어질것입니다.

최신 AHIMA CDI CDIP 무료샘플문제 (Q77-Q82):

질문 # 77

Which of the following indicates a noncompliant multiple-choice query? One that does NOT

- A. list options in alphabetical order
- B. allow the provider to add their own response
- C. include at least four options
- D. include the option of "unable to determine"

정답: C

설명:

Explanation

A noncompliant multiple-choice query is one that does not include at least four options because it may limit the provider's choice and suggest a preferred answer. A compliant multiple-choice query should include at least four options that are clinically significant, reasonable, and plausible based on the clinical indicators and documentation in the health record. The options should also be listed in alphabetical order to avoid any bias or preference. A compliant multiple-choice query should also allow the provider to add their own response if none of the options are appropriate, and include the option of "unable to determine" if the provider cannot make a definitive diagnosis based on the available information. 질문 # 78

Given the following ICD-10-CM Alphabetical Index entry:

Ectopic (pregnancy) 008.9

What is the meaning of the parenthesis?

- A. Non-essential modifiers
- B. Exclusion notes
- C. Essential modifiers
- D. Inclusion notes

정답: A

질문 # 79

A physician documented the specific site of the malignancy in the medical record documentation; however, the coder is unable to locate a specific entry in the ICD-10- CM Alphabetical Index to match the specified diagnosis. Which abbreviation used in the Alphabetical Index will assist the coder in assigning the appropriate diagnosis code for the specified condition?

- A. NOS
- B. DRG
- C. NEC
- D. OCE

정답: C

설명:

Explanation

The abbreviation NEC stands for "not elsewhere classified" and is used in the ICD-10-CM Alphabetical Index when a specific code is not available for a condition. The coder should use the NEC notation to locate the closest existing code that matches the documented diagnosis. For example, if the physician documented a malignant neoplasm of the left upper eyelid, but the Alphabetical Index only has an entry for malignant neoplasm of eyelid NEC, then the coder should use the code C44.10 (Unspecified malignant neoplasm of unspecified eyelid, including canthus) and assign a seventh character to specify laterality. 질문 # 80

A noncompliant query includes querying the provider regarding

- A. gram-negative pneumonia on every pneumonia case, regardless of documented clinical indicators
- B. sepsis that was present on admission because sepsis was only documented in the discharge summary
- C. morbid obesity due to BMI of 40.9 documented on the history and physical
- D. acute blood loss anemia due to low hemoglobin treated with iron supplements

정답: A

설명:

Explanation

A noncompliant query includes querying the provider regarding gram-negative pneumonia on every pneumonia case, regardless of documented clinical indicators because it may lead to over-specification of a diagnosis that is not supported by the health record. A compliant query should be based on the clinical evidence and documentation in the record, and should not suggest or imply a diagnosis that is not clinically relevant or plausible. A query should also not be driven by reimbursement or coding factors, but by the need to improve the quality and accuracy of documentation. (CDIP Exam Preparation Guide) References:

질문 # 81

Hospital-acquired condition pay provisions apply only to

- A. long-term acute care hospitals
- B. inpatient prospective payment system hospitals
- C. critical access hospitals
- D. inpatient psychiatric hospitals

정답: B

설명:

Explanation

Hospital-acquired condition pay provisions apply only to inpatient prospective payment system hospitals because they are subject to the CMS policy that reduces payments for cases with conditions that were not present on admission. This policy is intended to encourage hospitals to improve the quality of care and prevent avoidable complications. Other types of hospitals, such as critical access hospitals, long-term acute care hospitals, and inpatient psychiatric hospitals, are not affected by this policy and are paid based on different methodologies.
