2026 1z0-1110-25 Test Questions Fee Pass Certify | High Pass-Rate Test 1z0-1110-25 Voucher: Oracle Cloud Infrastructure 2025 Data Science Professional

P.S. Free 2026 Oracle 1z0-1110-25 dumps are available on Google Drive shared by UpdateDumps: https://drive.google.com/open?id=1-A92U491r42ZI6MLdRCVinxzNx4YLz8E

It is certain that the pass rate among our customers is the most essential criteria to check out whether our 1z0-1110-25 training materials are effective or not. The good news is that according to statistics, under the help of our training materials, the pass rate among our customers has reached as high as 98% to 100%. And you can prepare for your 1z0-1110-25 Exam with under the guidance of our training materials anywhere at any time. Just take action to purchase we would be pleased to make you the next beneficiary of our 1z0-1110-25 exam practice.

UpdateDumps website is fully equipped with resources and the questions of Oracle 1z0-1110-25 exam, it also includes the Oracle 1z0-1110-25 exam practice test. Which can help candidates prepare for the exam and pass the exam. You can download the part of the trial exam questions and answers as a try. UpdateDumps provide true and comprehensive exam questions and answers. With our exclusive online Oracle 1z0-1110-25 Exam Training materials, you'll easily through Oracle 1z0-1110-25 exam. Our site ensure 100% pass rate.

Updated Oracle 1z0-1110-25 Practice Material for Exam Preparation

The high pass rate coming from our customers who have passed the exam after using our 1z0-1110-25 exam software, and our powerful technical team make us proudly say that our UpdateDumps is very professional. The after-sale customer service is an important standard to balance whether a company is better or not, so in order to make it, we provide available 24/7 online service, one-year free update service after payment, and the promise of "No help, full refund", so please be rest assured to choose our product if you want to pass the 1z0-1110-25 Exam.

Oracle 1z0-1110-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Apply MLOps Practices: This domain targets the skills of Cloud Data Scientists and focuses on applying MLOps within the OCI ecosystem. It covers the architecture of OCI MLOps, managing custom jobs, leveraging autoscaling for deployed models, monitoring, logging, and automating ML workflows using pipelines to ensure scalable and production-ready deployments.
Topic 2	• Use Related OCI Services: This final section measures the competence of Machine Learning Engineers in utilizing OCI-integrated services to enhance data science capabilities. It includes creating Spark applications through OCI Data Flow, utilizing the OCI Open Data Service, and integrating other tools to optimize data handling and model execution workflows.
Topic 3	• Create and Manage Projects and Notebook Sessions: This part assesses the skills of Cloud Data Scientists and focuses on setting up and managing projects and notebook sessions within OCI Data Science. It also covers managing Conda environments, integrating OCI Vault for credentials, using Git-based repositories for source code control, and organizing your development environment to support streamlined collaboration and reproducibility.
Topic 4	• OCI Data Science - Introduction & Configuration: This section of the exam measures the skills of Machine Learning Engineers and covers foundational concepts of Oracle Cloud Infrastructure (OCI) Data Science. It includes an overview of the platform, its architecture, and the capabilities offered by the Accelerated Data Science (ADS) SDK. It also addresses the initial configuration of tenancy and workspace setup to begin data science operations in OCI.
Topic 5	• Implement End-to-End Machine Learning Lifecycle: This section evaluates the abilities of Machine Learning Engineers and includes an end-to-end walkthrough of the ML lifecycle within OCI. It involves data acquisition from various sources, data preparation, visualization, profiling, model building with open-source libraries, Oracle AutoML, model evaluation, interpretability with global and local explanations, and deployment using the model catalog.

Oracle Cloud Infrastructure 2025 Data Science Professional Sample Questions (Q128-Q133):

NEW QUESTION # 128
What is the minimum active storage duration for logs used by Logging Analytics to be archived?

- A. 60 days
- B. 30 days
- C. 15 days
- D. 10 days

Answer: B

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Determine minimum log storage duration before archiving in Logging Analytics.
* Understand Logging Analytics: Logs are active before archival.
* Evaluate Options:
* A: 60 days-Too long for minimum.
* B: 10 days-Too short.
* C: 30 days-Standard minimum-correct.
* D: 15 days-Not OCI's default.
* Reasoning: 30 days is OCI's documented minimum active period.
* Conclusion: C is correct.
OCI documentation states: "Logs in Logging Analytics remain active for a minimum of 30 days (C) before archiving, ensuring availability for analysis." B and D are shorter, A is longer-only C matches OCI's policy.
Oracle Cloud Infrastructure Logging Analytics Documentation, "Log Retention".

NEW QUESTION # 129

You want to build a multistep machine learning workflow by using the Oracle Cloud Infrastructure (OCI) Data Science Pipeline feature. How would you configure the conda environment to run a pipeline step?

- A. Use environmental variables
- B. Use command-line variables
- C. Configure a compute shape
- D. Configure a block volume

Answer: A

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Configure conda env for a pipeline step.
* Evaluate Options:
* A: Shape-Infra, not env config.
* B: Volume-Storage, not env.
* C: Command-line-Step args, not env.
* D: Env variables-Sets conda path-correct.
* Reasoning: D specifies runtime env (e.g., CONDA_ENV_SLUG).
* Conclusion: D is correct.
OCI documentation states: "Configure a pipeline step's conda environment using environment variables (D), such as CONDA_ENV_SLUG, in the step definition." A, B, and C address other aspects-only D fits env config.
Oracle Cloud Infrastructure Data Science Documentation, "Pipeline Step Configuration".

NEW QUESTION # 130

Which statement about Oracle Cloud Infrastructure Multi-Factor Authentication (MFA) is NOT valid?

- A. Users cannot disable MFA for themselves
- B. An administrator can disable MFA for another user
- C. Users must install a supported authenticator app on the mobile device they intend to register for MFA
- D. A user can register only one device to use for MFA

Answer: D

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Identify the invalid MFA statement.
* Evaluate Options:
* A: True-Users can't disable MFA; admin-controlled.
* B: False-Multiple devices can be registered-invalid.
* C: True-Authenticator app is required.
* D: True-Admins can disable MFA.
* Reasoning: B contradicts OCI's multi-device support.
* Conclusion: B is incorrect.
OCI documentation states: "Users can register multiple devices for MFA (B is false), must use an authenticator app (C), and cannot disable MFA themselves (A)-admins can (D)." Only B is not valid per OCI's IAM MFA policy.
Oracle Cloud Infrastructure IAM Documentation, "Multi-Factor Authentication".

NEW QUESTION # 131

You have an embarrassingly parallel or distributed batch job on a large amount of data that you consider running using Data Science Jobs. What would be the best approach to run the workload?

- A. Create the job in Data Science Jobs and start a job run. When it is done, start a new job run until you achieve the number of runs required
- B. Reconfigure the job run because Data Science Jobs does not support embarrassingly parallel workloads
- C. Create the job in Data Science Jobs and then start the number of simultaneous job runs required for your workload

- D. Create a new job for every job run that you have to run in parallel, because the Data Science Jobs service can have only one job run per job

Answer: C

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Optimize embarrassingly parallel workload in OCI Jobs.
* Evaluate Options:
* A: Sequential runs-Inefficient for parallel tasks.
* B: Simultaneous runs-Maximizes parallelism-correct.
* C: False-Jobs support parallelism.
* D: One job per run-Misstates capability, wasteful.
* Reasoning: B leverages OCI's parallel run support.
* Conclusion: B is correct.
OCI documentation states: "For embarrassingly parallel tasks, create one Job and launch multiple simultaneous Job Runs (B) to process data efficiently." A is slow, C is incorrect, and Dovercomplicates-B is the best approach.
Oracle Cloud Infrastructure Data Science Documentation, "Parallel Job Execution".

NEW QUESTION # 132
In which two ways can you improve data durability in Oracle Cloud Infrastructure Object Storage?

- A. Setup volumes in a RAID1 configuration
- B. Limit delete permissions
- C. Enable client-side encryption
- D. Enable Versioning
- E. Enable server-side encryption

Answer: B,D

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Identify two methods to enhance Object Storage durability.
* Understand Durability: Ensures data isn't lost-focus on redundancy and protection.
* Evaluate Options:
* A: RAID1-Block volume feature, not Object Storage.
* B: Encryption-Secures data, not durability.
* C: Versioning-Retains old versions, prevents loss-correct.
* D: Limit delete-Prevents accidental deletion-correct.
* E: Client encryption-Secures, not durability-focused.
* Reasoning: C and D directly protect against data loss-durability-focused.
* Conclusion: C and D are correct.
OCI documentation states: "Improve Object Storage durability with Versioning (C) to retain previous object versions and by limiting delete permissions (D) to prevent accidental loss." A isn't applicable, B and E focus on security-only C and D enhance durability per OCI's storage features.
Oracle Cloud Infrastructure Object Storage Documentation, "Data Durability Options".

NEW QUESTION # 133
......

Both practice exams (web-based & desktop) give a Oracle 1z0-1110-25 real exam feeling and identify your mistakes so you can overcome your weaknesses before the 1z0-1110-25 final test. The desktop Oracle 1z0-1110-25 Practice Test software works on Windows after software installation. You can take the web-based Oracle Cloud Infrastructure 2025 Data Science Professional 1z0-1110-25 practice exam via any operating system.
