If clients have any problems about our AP-214 study materials they can contact our customer service at any time.

Salesforce Marketing Cloud Advanced Cross Channel Accredited Professional Sample Questions (Q60-Q65):

NEW QUESTION # 60
28, Whit are the functionalities of ad studio. Select multiple.

- A. myspace user match.
- B. linkedin Company match.
- C. tiktok user match.Ez
- D. facebook advanced match.
- E. linkedin user match.

Answer: B,D,E

NEW QUESTION # 61
What user permission is required to configure SSO in social studio.

- A. limited user
- B. Super user
- C. full user
- D. custom user

Answer: B

Explanation:
* Understanding SSO and its Importance:
* SSO (Single Sign-On):SSO allows users to access multiple applications (like Social Studio) with a single set of credentials. It's a critical security and administrative feature.
* Security Implications:Configuring SSO involves integrating Social Studio with your organization's identity provider. This requires high-level permissions due to its impact on security and user access.
* Super User Role:
* Highest Level of Access:In Social Studio, the "Super User" role is the highest level of administrative access. Super Users have full control over the account, including all settings related to security, user management, and integrations.
* Why Super User is Needed for SSO:Because SSO configuration touches upon core security settings, it's restricted to Super Users to prevent unauthorized changes.
* Other Roles and Their Limitations:
* B. Full User:Full Users have broad access within workspaces but lack the administrative privileges to configure account-level settings like SSO.
* C. Custom User:Custom User roles are defined with specific permissions. While youcould theoretically create a custom role with SSO configuration access, it's generally not recommended and the Super User role is the standard for this task.
* D. Limited User:Limited Users have the most restricted access, primarily for viewing content within workspaces. They definitely don't have SSO configuration permissions.
In Summary:
Configuring SSO in Social Studio requires the highest level of administrative access, which is granted by the A. Super Userrole.

NEW QUESTION # 62
In which place can the facebook ad campaign be viewed when created in ad studio?

- A. Facebook testing environment
- B. Harkebing Cloud Setup
