All these three VCEdumps P3O-Foundation Exam Questions formats are easy to use and perfectly work with desktop computers, laptops, tabs, or even on your smartphone devices.

### PRINCE2 P3O Foundation Project Office2013 Exam Sample Questions (Q38-Q43):

#### NEW QUESTION # 38

What is defined as the decision-enabling and support business model for all business change within an organization?

- A. Portfolio
- **B. P3O**
- C. Programme
- D. Project

**Answer: B**

Explanation:

The P3O is defined as the decision-enabling and support business model for all business change within an organization, per the P3O Foundation (2013) manual. Section 2.1.2 states, "P3O is the decision-enabling and support business model that brings together a set of principles, processes, and techniques to facilitate the management of portfolios, programmes, and projects." This distinguishes it from programmes (A), which coordinate projects, projects (C), which are individual efforts, and portfolios (D), which oversee multiple initiatives. The 2013 edition underscores P3O's overarching role in providing governance and support structures, ensuring strategic alignment across all change activities. This framework is essential for effective decision-making and resource management. Reference: P3O Foundation (2013) manual, Section 2.1.2, AXELOS.

### NEW QUESTION # 39

What is used to measure the success of a P3O?

- A. P3O Value Matrix
- B. Principles for extracting value
- C. Key Performance Indicators
- D. Complexity modelling

**Answer: C**

Explanation:

The P3O Foundation (2013) manual specifies that Key Performance Indicators (KPIs) are used to measure the success of a P3O. Section 7.3.1 states, "Key Performance Indicators are employed to measure the success of a P3O, assessing its contribution to strategic objectives, risk balance, and benefits realization." This differs from value extraction principles (A), the P3O Value Matrix (B), which aids design, or complexity modelling (D), which analyzes systems. The 2013 edition highlights KPIs as a quantitative tool to evaluate P3O effectiveness, ensuring accountability and continuous improvement. This supports organizational decision-making and justification.

Reference: P3O Foundation (2013) manual, Section 7.3.1, AXELOS.

### NEW QUESTION # 40

What technique provides the benefit of checking the quality of the decision-support information being provided to the P3O?

- A. Business process swimlanes
- B. Management dashboards
- C. Capacity planning for resource management
- D. Gated reviews

**Answer: D**

Explanation:

Gated reviews provide the benefit of checking the quality of decision-support information, according to the P3O Foundation (2013) manual. Section 7.3.2 states, "Gated reviews offer an independent assessment to verify the quality and reliability of information used for P3O decision-making, ensuring governance standards are met." This contrasts with business process swimlanes (B), which map processes, capacity planning (C), which manages resources, and management dashboards (D), which visualize data. The 2013 edition highlights gated reviews as a key assurance technique, supporting P3O's role in maintaining high-quality decision support. This process enhances strategic alignment and risk management.

Reference: P3O Foundation (2013) manual, Section 7.3.2, AXELOS.

### NEW QUESTION # 41

What is the MOST appropriate use of project planning software for an organization at P3M3 maturity level 1?

- A. Collaborative
- B. Integrated
- C. Individual
- D. Networking

**Answer: C**

Explanation:

For an organization at P3M3 maturity level 1, the P3O Foundation (2013) manual suggests the most appropriate use of project planning software is individual, reflecting its basic process capability. Section 6.2.1 notes, "At P3M3 maturity level 1, organizations typically use project planning software on an individual basis due to limited process integration and collaboration maturity." Collaborative (A), integrated (C), and networking (D) uses require higher maturity levels (e.g., 2 or 3), where standardized processes and data sharing are established. The 2013 edition aligns this with the initial stage's focus on basic project management, where tools are used ad hoc by individuals rather than across teams. This approach supports gradual improvement toward more sophisticated usage.

Reference: P3O Foundation (2013) manual, Section 6.2.1, AXELOS.

#### NEW QUESTION # 42

How can a P3O directly support effective teamwork between Programme Managers located in different regions?

- A. Implement the portfolio prioritization and optimization technique
- B. Appoint a P3O Sponsor for each region
- C. Support the fast track mobilization of programs
- **D. Implement standard collaborative tools**

**Answer: D**

Explanation:

The P3O Foundation (2013) manual highlights that implementing standard collaborative tools directly supports effective teamwork among regionally dispersed Programme Managers. Section 6.2.2 states, "Standard collaborative tools, such as information portals and shared workspaces, enable effective communication and coordination among distributed teams, including Programme Managers in different regions." This contrasts with appointing regional sponsors (A), which is a governance role, portfolio prioritization (B), which focuses on strategy, and fast-track mobilization (D), which aids initiation. The 2013 edition emphasizes technology's role in overcoming geographical barriers, ensuring real-time collaboration and consistency. This approach enhances team cohesion and efficiency, aligning with P3O's support function for distributed models. Reference: P3O Foundation (2013) manual, Section 6.2.2, AXELOS.

#### NEW QUESTION # 43

.....

Professionals who hold P3O-Foundation certification demonstrate to their employers and clients that they have the knowledge and skills necessary to succeed in the industry. To meet the growing demand for PRINCE2 P3O-Foundation certification exam, preparation platforms have emerged in recent years.
