

GH-900認定資格試験 & GH-900試験概要

The image shows the cover of a study guide for the Microsoft GH-900 GitHub Foundations certification. The cover is primarily white with teal and orange accents. At the top, the Microsoft logo is visible. The main text on the cover includes '毎日1時間勉強' (Study 1 hour every day) and '2週間で合格' (Pass in 2 weeks). Below this, it says 'GH-900 GitHub Foundations' and '解説付き' (Includes explanations). A gold seal on the right side of the cover reads '最短合格 No.1' (Shortest time to pass No.1) and '5年の実績をまとめた 渾身の1冊' (A single volume summarizing 5 years of experience).

有効的な GH-900認定資格試験 & 保証する Microsoft GH-900 公認された試験の成功GH-900試験概要

しかし、GH-900「GitHub Foundations」試験は簡単ではありません。専門的な知識が必要で、もしあなたはまだこの方面の知識を欠かれば、It-Passportsは君に向ける知識を提供いたします。It-Passportsの専門家チームは彼らの知識や経験を利用してあなたの知識を広めることを助けています。そしてあなたにGH-900試験に関するテスト問題と解答が分析して差し上げるうちにあなたのIT専門知識を固めています。

Microsoft GitHub Foundations 認定 GH-900 試験問題 (Q93-Q98):

質問 #93

Where can a user manually link a pull request to an issue?

- A. in the description of the issue
- **B. in the right sidebar of the pull request, under "Development"**
- C. in the right sidebar of the pull request, under "Assignees"
- D. in the comment section of the issue

正解: B

解説:

Manually linking a pull request or branch to an issue using the issue sidebar Anyone with write permissions to a repository can manually link a pull request or branch to an issue from the issue sidebar.

You can manually link up to ten issues to each pull request. The issue can be in a different repository than the linked pull request or branch. Your last selected repository will be remembered.

1. On GitHub, navigate to the main page of the repository.
2. Under your repository name, click Issues.
3. In the list of issues, click the issue that you'd like to link a pull request or branch to.
- *-> 4. In the right sidebar, click Development.
5. Click the repository containing the pull request or branch you want to link to the issue.
6. Click the pull request or branch you want to link to the issue.
7. Click Apply.

<https://docs.github.com/en/issues/tracking-your-work-with-issues/using-issues/linking-a-pull-request-to-an-issue>

質問 # 94

Who can be assigned to an Issue or pull request? (Choose two.)

- A. Anyone who has an enterprise GitHub account
- **B. Anyone with write permissions to the repository**
- C. Anyone who has a personal GitHub account
- **D. Anyone who has commented on the Issue or pull request**

正解: B、D

解説:

In GitHub, issues and pull requests (PRs) are essential tools for managing work and collaboration in a project. Assigning individuals to these issues or PRs is a way to indicate responsibility for addressing the issue or completing the PR.

Anyone with write permissions to the repository:

Users who have write permissions to a repository can be assigned to issues and pull requests.

Write permissions allow users to push changes to the repository, create branches, and modify issues and pull requests. Assigning them to an issue or PR ensures they are recognized as responsible for the task.

Anyone who has commented on the Issue or pull request:

GitHub allows you to assign issues or pull requests to users who have already engaged with the discussion by commenting on it. This feature is particularly useful for quickly assigning tasks to those who are already involved in the conversation.

質問 # 95

As a user, which of the following default labels is used to indicate that a maintainer needs assistance on an issue or pull request?

- A. Question
- **B. Help wanted**
- C. Enhancement
- D. Documentation

正解: B

解説:

In GitHub, labels are used to categorize issues and pull requests, and certain default labels are provided to help manage tasks:

Help Wanted Label:

Option B is correct. The "Help wanted" label is used to indicate that the maintainer of the repository needs assistance on a particular issue or pull request. This label helps in attracting contributors who might be interested in helping with specific tasks.

質問 # 96

What folder is the definition files stored in when creating custom issue forms?

- A. .issues/ISSUE_TEMPLATE
- **B. .GitHub**

- C. [.github/ISSUE_TEMPLATE](#)
- D. [.issues](#)

正解: C

解説:

When creating custom issue forms on GitHub, the definition files are stored in the `.github/ISSUE_TEMPLATE` folder. This directory is used to define issue templates and forms that help standardize the information collected when users open new issues in the repository. The `.github` folder is a special directory used for various repository configurations and workflows.

質問 #97

As a user, what feature can you use to add an issue to the top of the Issues page for easier visibility?

- A. Subscribe to the issue.
- B. [Pin the issue.](#)
- C. Star the issue.
- D. Label the issue.

正解: B
