The purchase process of our CDPSE question torrent is very convenient for all people. In order to meet the needs of all customers, our company is willing to provide all customers with the convenient purchase way. If you buy our CDPSE study tool successfully, you will have the right to download our CDPSE Exam Torrent in several minutes, and then you just need to click on the link and log on to your website's forum, you can start to learn our CDPSE question torrent. At the same time, we believe that the convenient purchase process will help you save much time.

The CDPSE Certification Exam consists of four domains that cover the complete spectrum of data privacy engineering. These domains include privacy governance, privacy architecture, privacy operations, and privacy engineering. Each domain covers specific topics related to data privacy, such as data protection, privacy risk assessment, privacy policies, and privacy compliance. Certified Data Privacy Solutions Engineer certification exam assesses the candidate's knowledge and skills in all these domains.

## CDPSE Test Dumps: Certified Data Privacy Solutions Engineer - CDPSE Actual Exam Questions

With the intense competition in labor market, it has become a trend that a lot of people, including many students, workers and so on, are trying their best to get a CDPSE certification in a short time. They all long to own the useful certification that they can have an opportunity to change their present state, including get a better job, have a higher salary, and get a higher station in life and so on, but they also understand that it is not easy for them to get a CDPSE Certification in a short time. If you are the one of the people who wants to get a certificate, we are willing to help you solve your problem.

### ISACA Certified Data Privacy Solutions Engineer Sample Questions (Q141-Q146):

#### NEW QUESTION # 141

Which of the following is the BEST way to hide sensitive personal data that is in use in a data lake?

- A. Data masking
- B. Data encryption
- C. Data truncation
- D. Data minimization

**Answer: A**

#### NEW QUESTION # 142

Which of the following BEST supports an organization's efforts to create and maintain desired privacy protection practices among

employees?

- A. Code of conduct principles
- **B. Awareness campaigns**
- C. Skills training programs
- D. Performance evaluations

**Answer: B**

Explanation:

Explanation

Awareness campaigns are initiatives that aim to educate and inform employees about the importance of privacy protection, the organization's privacy policies and procedures, the applicable laws and regulations, and the best practices and behaviors to safeguard personal data. Awareness campaigns can support an organization's efforts to create and maintain desired privacy protection practices among employees by raising their awareness, understanding and commitment to privacy, as well as by influencing their attitudes, values and culture. Awareness campaigns can use various methods and channels, such as posters, newsletters, videos, webinars, quizzes, games or events, to deliver consistent and engaging messages to the target audience. The other options are not the best ways to support an organization's efforts to create and maintain desired privacy protection practices among employees. Skills training programs are focused on developing specific technical or functional skills related to privacy, but they may not address the broader aspects of privacy awareness or culture. Performance evaluations are focused on measuring and rewarding individual or team performance based on predefined criteria or objectives, but they may not reflect the actual level of privacy awareness or practice. Code of conduct principles are focused on establishing and enforcing ethical standards and rules of behavior for employees, but they may not be sufficient to create or maintain privacy awareness or practice without effective communication and education<sup>1</sup>, p. 103-104 References: 1: CDPSE Review Manual (Digital Version)

#### NEW QUESTION # 143

An organization has initiated a project to enhance privacy protections by improving its information security controls. Which of the following is the MOST useful action to help define the scope of the project?

- A. Review recent audit reports on the internal control environment
- **B. Review proposed privacy rules that govern the processing of personal data**
- C. Identify databases that do not have encryption in place.
- D. Identify databases that contain personal data

**Answer: B**

Explanation:

Explanation

Reviewing proposed privacy rules that govern the processing of personal data is the most useful action to help define the scope of the project because it helps identify the legal and regulatory requirements, the data protection principles and the privacy objectives that the information security controls need to support.

Reviewing recent audit reports, identifying databases that contain personal data or do not have encryption in place are helpful actions to assess the current state of privacy and security, but they do not provide a clear direction for the project scope.

#### NEW QUESTION # 144

Which of the following would BEST ensure privacy when utilizing AI-based technologies?

- **A. Minimization**
- B. Masking
- C. Encryption
- D. Pseudonymization

**Answer: A**

Explanation:

Data minimization requires collecting and using only what is necessary for the stated purpose—directly limiting privacy risk in AI development and use. Encryption (A) and masking (D) protect data post-collection, and pseudonymization (B) reduces identifiability but does not limit collection or use. Minimization addresses privacy by default at the source.

"Collect and process no more personal data than necessary for the specified purpose."

## NEW QUESTION # 145

Which of the following helps to ensure the identities of individuals in two-way communication are verified?

- A. Mutual certificate authentication
- B. Virtual private network (VPN)
- C. Secure Shell (SSH)
- D. Transport Layer Security (TLS)

**Answer: A**

## NEW QUESTION # 146
