

Latest SK0-005 Practice Dumps Materials: CompTIA Server+ Certification Exam - SK0-005 Training Materials - VCEEngine

P.S. Free 2026 CompTIA SK0-005 dumps are available on Google Drive shared by VCEEngine: https://drive.google.com/open?id=1n7nWF6XSbouG8Vvk8uLb_pabJXAiLJMt

We want to provide our customers with different versions of SK0-005 test guides to suit their needs in order to learn more efficiently. Our SK0-005 qualification test can help you make full use of the time and resources to absorb knowledge and information. If you are accustomed to using the printed version of the material, we have a PDF version of the SK0-005 study tool for you to download and print, so that you can view the learning materials as long as you have free time. If you choose to study online, we have an assessment system that will make an assessment based on your learning of the SK0-005 qualification test to help you identify weaknesses so that you can understand your own defects of knowledge and develop a dedicated learning plan. Moreover our SK0-005 test guides provide customers with supplement service-mock test, which can totally inspire them to study hard and check for defects during their learning process. Our commitment is not frank, as long as you choose our SK0-005 study tool you will truly appreciate the benefits of our products.

CompTIA SK0-005 Exam Syllabus Topics:

Section	Weight	Objectives
Server Hardware Installation and Management	18%	- Given a scenario, install physical hardware - Summarize power and cooling components - Given a scenario, configure and manage server components - Given a scenario, deploy and manage storage
Server Administration	30%	- Given a scenario, perform server management tasks - Explain the purpose of virtualization and containerization - Given a scenario, configure security features - Given a scenario, configure networking - Explain the purpose and operation of scripting - Given a scenario, install and configure an operating system

Security and Disaster Recovery	24%	- Given a scenario, implement server hardening techniques - Explain physical security concepts - Explain logical security concepts - Explain disaster recovery and high availability concepts - Given a scenario, implement backup and restore procedures - Summarize data security concepts
Troubleshooting	28%	- Given a scenario, troubleshoot software failures - Given a scenario, troubleshoot storage failures - Given a scenario, troubleshoot security issues - Explain the troubleshooting methodology - Given a scenario, troubleshoot connectivity issues - Given a scenario, troubleshoot hardware failures

100% Pass Latest SK0-005 - Latest CompTIA Server+ Certification Exam Exam Book

As far as our SK0-005 practice test is concerned, the PDF version brings you much convenience with regard to the following two aspects. On the one hand, the PDF version contains demo where a part of questions selected from the entire version of our SK0-005 Test Torrent is contained. On the other hand, our SK0-005 preparation materials can be printed so that you can study for the exams with papers and PDF version. With such benefits, why don't you have a try?

CompTIA Server+ Certification Exam Sample Questions (Q348-Q353):

NEW QUESTION # 348

An administrator has been asked to deploy a database server that provides the highest performance with fault tolerance. Which of the following RAID levels will fulfill this request?

- A. RAID 6
- **B. RAID 10**
- C. RAID 5
- D. RAID1
- E. RAID0

Answer: B

Explanation:

Explanation

RAID 10 is the best option to deploy a database server that provides the highest performance with fault tolerance. RAID 10 is a type of RAID level that combines RAID 1 (mirroring) and RAID 0 (striping) to create an array of mirrored stripes. RAID 10 offers high performance by distributing data across multiple disks in parallel (striping), which improves read/write speed and I/O operations. RAID 10 also offers fault tolerance by duplicating data across two or more disks in each stripe (mirroring), which provides redundancy and data protection in case of disk failure. RAID 10 requires at least four disks to implement and has a high storage overhead, as half of the disk space is used for mirroring. References: [CompTIA Server+ Certification Exam Objectives]

NEW QUESTION # 349

A user cannot save large files to a directory on a Linux server that was accepting smaller files a few minutes ago. Which of the following commands should a technician use to identify the issue?

- A. mount
- B. pvdisplay
- **C. df-h**
- D. fdisk -l

Answer: C

Explanation:

The `df -h` command should be used to identify the issue of not being able to save large files to a directory on a Linux server. The `df -h` command displays disk space usage in human-readable format for all mounted file systems on the server. It shows the total size, used space, available space, percentage of use, and mount point of each file system. By using this command, a technician can check if there is enough free space on the file system where the directory is located or if it has reached its capacity limit.

NEW QUESTION # 350

The Chief Information Officer of a data center is concerned that transmissions from the building can be detected from the outside. Which of the following would resolve this concern? (Choose two.)

- A. Bollards
- B. RFID
- C. Proximity readers
- **D. Signal blocking**
- E. Camouflage
- **F. Reflective glass**

Answer: D,F

Explanation:

Signal-blocking materials reduce electromagnetic or wireless emissions from leaving the building, while reflective glass can help prevent signal leakage and external observation through windows.

NEW QUESTION # 351

A server administrator has received calls regarding latency and performance issues with a file server. After reviewing all logs and server features the administrator discovers the server came with four Ethernet ports, but only one port is currently in use. Which of the following features will enable the use of all available ports using a single IP address?

- A. Network address translation
- B. Round robin
- C. in-band management
- **D. NIC teaming**

Answer: D

Explanation:

Explanation

NIC teaming is a feature that allows the use of multiple network interface cards (NICs) as a single logical interface with a single IP address. It can improve the network performance, bandwidth, and redundancy of a server. Verified References: [NIC teaming], [Network interface card]

NEW QUESTION # 352

A server is performing slowly, and users are reporting issues connecting to the application on that server. Upon investigation, the server administrator notices several unauthorized services running on that server that are successfully communicating to an external site. Which of the following are MOST likely causing the issue? (Choose two.)

- **A. The server is infected with a virus**
- B. The firewall rule for the server is misconfigured
- C. Unnecessary services are disabled on the server
- **D. SELinux is enabled on the server**
- E. Adware is installed on the users' devices
- F. Intrusion detection is enabled on the network

Answer: A,D

Explanation:

The server is infected with a virus and SELinux is enabled on the server are most likely causing the issue of unauthorized services running on the server. A virus is a type of malicious software that infects a system and performs unwanted or harmful actions, such as

creating, modifying, deleting, or executing files. A virus can also create backdoors or open ports on a system to allow remote access or communication with external sites. SELinux (Security-Enhanced Linux) is a security module for Linux systems that enforces mandatory access control policies on processes and files. SELinux can prevent unauthorized services from running on a server by restricting their access to resources based on their security context. However, SELinux can also cause problems if it is not configured properly or if it conflicts with other security tools.

NEW QUESTION # 353

.....

It is very normal to be afraid of the exam, especially such difficult exam like SK0-005 exam. We know that encouragement alone cannot really improve your confidence in exam, so we provide the most practical and effective test software to help you pass the SK0-005 Exam. You can use our samples first to experience the effect of our software, and we believe that you can realize our profession and efforts by researching and developing SK0-005 exam software from samples of SK0-005.
