

SCP-NPM Latest Exam Camp - Latest SCP-NPM Dumps Questions

BTW, DOWNLOAD part of PDFBraindumps SCP-NPM dumps from Cloud Storage: <https://drive.google.com/open?id=1TcV7pVojROsMErcIguaWU6laXFcEiUh>

We have three versions of our SCP-NPM certification guide, and they are PDF version, software version and online version. With the PDF version, you can print our materials onto paper and learn our SCP-NPM exam braindumps in a more handy way as you can take notes whenever you want to, and you can mark out whatever you need to review later. With the software version, you are allowed to install our SolarWinds Network Performance Monitor (NPM) Exam guide torrent in all computers that operate in windows system. Besides, the software version can simulate the real test environment, which is favorable for people to better adapt to the examination atmosphere. With the online version, you can study the SolarWinds Network Performance Monitor (NPM) Exam guide torrent wherever you like, and you still have access to the materials even if there is no internet available on the premise that you have studied the SCP-NPM Certification guide online once before.

PDFBraindumps offers authentic and actual SCP-NPM dumps that every candidate can rely on for good preparation. Our top priority is to give you the most reliable prep material that helps you pass the SCP-NPM Exam on the first attempt. In addition, we offer up to three months of free SolarWinds Network Performance Monitor (NPM) Exam questions updates.

Latest SCP-NPM Dumps Questions, SCP-NPM Official Study Guide

The system of SCP-NPM study materials is very smooth and you don't need to spend a lot of time installing it. We take into account all aspects on the SCP-NPM exam braindumps and save you as much time as possible. After the installation is complete, you can devote all of your time to studying SCP-NPM Exam Questions. And a lot of our worthy customers always praise the high-efficiency of our SCP-NPM learning guide. If you buy it, I guess you will love it as well.

SolarWinds SCP-NPM (SolarWinds Network Performance Monitor) Certification Exam is designed to validate the skills of network professionals in managing and monitoring network performance using SolarWinds NPM. SCP-NPM exam is ideal for network engineers, administrators, and managers who want to prove their expertise in using SolarWinds NPM to maintain network uptime, optimize network performance, and troubleshoot network issues.

IT professionals who pass the SolarWinds SCP-NPM Exam demonstrate a deep understanding of network performance monitoring concepts and best practices. They are skilled in using SolarWinds NPM to optimize network performance and ensure high availability of critical applications and services. SolarWinds Network Performance Monitor (NPM) Exam certification also validates their ability to troubleshoot complex network issues and provide effective solutions that meet the needs of their organization.

SolarWinds SCP-NPM Certification Exam is a vendor-neutral certification that helps IT professionals demonstrate their proficiency in network performance monitoring. By earning this certification, IT professionals can differentiate themselves in the job market and gain a competitive advantage. Additionally, this certification can help organizations identify professionals who have the skills and knowledge needed to manage their network infrastructure using SolarWinds NPM.

SolarWinds Network Performance Monitor (NPM) Exam Sample Questions (Q39-Q44):

NEW QUESTION # 39

NPM polls static properties, and calculates bandwidth consumption based on the total amount of _____ coming through the firewall.

- A. Kilobytes
- **B. Bytes**
- C. Nibbles
- D. Megabytes

Answer: B

Explanation:

NPM polls static properties, such as interface speed and duplex mode, from the firewall devices using SNMP. NPM also collects traffic statistics, such as bytes in and bytes out, from the firewall interfaces using SNMP or NetFlow. NPM then calculates bandwidth consumption based on the total amount of bytes coming through the firewall over a given time interval. Bandwidth consumption is expressed as a percentage of the interface speed. For example, if a firewall interface has a speed of 100 Mbps and NPM polls 10 MB of bytes in and 10 MB of bytes out in one minute, the bandwidth consumption is 20% $[(10 \text{ MB} + 10 \text{ MB}) / 100 \text{ Mbps} * 100\%]$. Reference: Monitor firewalls with NPM, Calculate bandwidth utilization on an interface

NEW QUESTION # 40

How many agents does NPM require for Quality of Experience, NetPath, and system monitoring on the same Windows server?

- **A. 0**
- B. 1
- C. 2
- D. 3

Answer: A

NEW QUESTION # 41

You need to change the polling method from ICMP to SNMP on 200 nodes you monitor with Orion. How would you best accomplish this?

- A. Edit each individual node and change the polling method
- **B. Bulk select nodes in Manage Nodes and change the polling method**
- C. Use the Orion Polling Configuration tool to change polling methods
- D. Unmanage all the nodes and remanage them choosing SNMP as the polling method

Answer: B

Explanation:

The easiest and fastest way to change the polling method for multiple nodes is to use the Manage Nodes feature in the web console. You can select up to 1000 nodes at a time and edit their properties in bulk. You can choose the polling method from the available options, such as ICMP, SNMP, WMI, or Agent, and provide the required credentials or settings. This will apply the changes to all the selected nodes without affecting their existing data or alerts. References: Choose the polling method to use in the SolarWinds Platform; Polling Intervals - Best Practices; SOLARWINDS NETWORK PERFORMANCE MONITOR

NEW QUESTION # 42

Network performance over an inter-campus Ethernet link is slow. One side of the connection is experiencing a high number of packet drops. What information in NPM can you review to help discover the cause of the issue?

- A. Routing tables on each side of the link
- **B. Possible Duplex Mismatches**
- C. MTU of each side of the link
- D. Packet loss on the nodes on either side of the connection

Answer: B

NEW QUESTION # 43

You need to change the polling method from ICMP to SNMP on 200 nodes you monitor with Orion. How would you best accomplish this?

- A. Edit each individual node and change the polling method
- B. Bulk select nodes in Manage Nodes and change the polling method
- **C. Use the Orion Polling Configuration tool to change polling methods**
- D. Unmanage all the nodes and remanage them choosing SNMP as the polling method

Answer: C

NEW QUESTION # 44

.....

Remember to fill in the correct mail address in order that it is easier for us to send our SCP-NPM study guide to you, therefore, this personal message is particularly important. We are selling virtual products, and the order of our SCP-NPM exam materials will be immediately automatically sent to each purchaser's mailbox according to our system. In the future, if the system updates, we will still automatically send the latest version of our SCP-NPM learning questions to the buyer's mailbox.
