ActualTestsQuiz is a website engaged in the providing customer H13-624_V5.5 VCE Dumps and makes sure every candidates passing actual test easily and quickly. We have a team of IT workers who have rich experience in the study of Huawei dumps torrent and they check the updating of Huawei top questions everyday to ensure the accuracy of exam collection.

Huawei H13-624_V5.5 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Storage System O&M Management: This section of the exam measures the skills of a Storage Operations Specialist and covers the daily operational management of Huawei storage systems. It emphasizes practical abilities in system monitoring, troubleshooting, fault handling, and health checks. The goal is to ensure smooth, reliable operations and reduce risks through proactive maintenance and efficient use of Huawei's O&M tools.
Topic 2	<ul style="list-style-type: none">Basic Storage Technologies: This section of the exam measures the skills of a Storage Engineer and includes fundamental knowledge of storage systems. It covers key concepts such as intelligent storage architecture, RAID levels, storage networking, and widely used data protocols. The section also introduces the structure and function of SAN and NAS environments. A strong grasp of these basic technologies helps professionals support large-scale data infrastructure with efficiency and stability.
Topic 3	<ul style="list-style-type: none">Huawei Intelligent Storage Products and Features: This section of the exam measures the skills of a Storage Administrator and focuses on Huawei's intelligent storage solutions. It includes understanding product models, management interfaces, and advanced features like storage tuning and data protection. Candidates will explore how to manage system operations, optimize resource usage, and apply Huawei-specific technologies for secure and high-performance storage deployment.

Topic 4	<ul style="list-style-type: none">• Storage Technology Trends: This section of the exam measures skills of a Data Center Specialist and covers the latest advancements in the storage industry. It focuses on emerging technologies that are shaping intelligent storage development, including trends like AI integration, green computing, and cloud-oriented storage evolution. Candidates are expected to understand how these trends influence storage planning and deployment in modern IT environments.

2026 Pass-Sure Practice H13-624_V5.5 Online Help You Pass H13-624_V5.5 Easily

Our H13-624_V5.5 test guide is suitable for you whichever level you are in right now. Whether you are in entry-level position or experienced exam candidates who have tried the exam before, this is the perfect chance to give a shot. A growing number of exam candidates are choosing our H13-624_V5.5 Exam Questions, why are you still hesitating? As long as you have make up your mind, our HCIP-Storage V5.5 study question is available in five minutes, so just begin your review now! This could be a pinnacle in your life.

Huawei HCIP-Storage V5.5 Sample Questions (Q105-Q110):

NEW QUESTION # 105

Which of the following features in Huawei Oceanstor 9000 (C30) does not require activation of the corresponding license?

- A. Automatic hierarchical storage
- B. Round-robin load balancing
- C. Directory snapshot
- D. Quota management

Answer: B

NEW QUESTION # 106

Huawei Oceanstor 9000 realizes the storage of unstructured data through WushanSQL, and completes it through Fusion Insight. Into data analysis.

- A. False
- B. True

Answer: A

NEW QUESTION # 107

Assume a financial customer purchases a Huawei OceanStor Pacific scale-out storage system for future service deployment. Which statement is false about software installation of the storage system?

- A. During block service installation, if converged deployment of storage and compute nodes is required, the difference between the disk quantities on any two nodes in the same storage pool cannot be greater than 2 or 30% of the disk quantity on the node having most disks.
- B. To install the Distributed Parallel Client (DPC), the memory required for running the DPC software on a compute node must be greater than or equal to 20 GB.
- C. If wizard-based software installation is used, an engineer must manually add nodes, configure networks, and create a control cluster on DeviceManager, and then install the OceanStor Pacific series software.
- D. During block service installation, if management nodes are deployed where compute and storage nodes are converged, the number of vCPUs on each converged compute and storage node must be greater than or equal to 20.

Answer: C

Explanation:

The software installation process for Huawei OceanStor Pacific scale-out storage systems is detailed in the *HCIP-Storage V5.5 Training Material (Module 3: Scale-Out Storage Technologies)*. Let's evaluate each option:

- Option A: True. The material states: "For block service installation with converged compute and storage nodes, each node requires at least 20 vCPUs to support management and data processing tasks."
- Option B: True. The material confirms: "In converged deployments, the disk quantity difference between any two nodes in a storage pool must not exceed 2 or 30% of the disk count on the node with the most disks to ensure balanced performance."
- Option C: False. The material explains: "Wizard-based software installation automates node addition, network configuration, and control cluster creation via DeviceManager, reducing manual steps. Engineers do not need to perform these tasks manually before installing the OceanStor Pacific software." This makes the statement incorrect.
- Option D: True. The material notes: "DPC installation requires a minimum of 20 GB of memory on compute nodes to ensure stable operation." Thus, option C is false.

Reference:

HCIP-Storage V5.5 Training Material, Module 3: Scale-Out Storage Technologies, Section 3.12: Software Installation and Configuration*, Huawei Technologies Co., Ltd.

NEW QUESTION # 108

Which of the following statements are false about direct TCP offload engine (DTCOE) 1.0? Select all that apply.

- A. This technology uses the polling mode, reducing the latency.
- B. This technology allows to directly operate the hardware queue in the user mode, avoiding the context switching overhead.
- C. High latency overhead still exists using the technology, such as kernel mode interrupts, locks, system calls, and thread switching.
- D. This technology requires CPU to process each MAC frame, which will consume a large number of CPU resources.

Answer: C,D

Explanation:

A is true, so it is not selected. Huawei training material states that DTCOE 1.0 uses polling mode to reduce latency.

B is true, so it is not selected. Huawei training material states that the hardware queue is operated in user mode, which helps avoid context-switching overhead.

C is false, so it must be selected. The same Huawei material explains that DTCOE 1.0 is designed to eliminate traditional overheads such as kernel-mode interrupts, locks, system calls, and thread switching. Therefore, saying that these high-latency overheads still exist is incorrect.

D is false, so it must be selected. Huawei material lists the traditional problem that the CPU must spend great resources processing each MAC frame as a challenge of the conventional approach. DTCOE 1.0 addresses this by offloading processing, so saying DTCOE 1.0 still requires the CPU to process each MAC frame is incorrect.

NEW QUESTION # 109

OceanStor 9000 supports clients of different protocols to access the same directory or file at the same time. E.g Windows client (CIFS protocol), Linux client (NFS protocol), Mac OS X client (CIFS protocol or NFS protocol).

- A. True
- B. False

Answer: A

NEW QUESTION # 110

.....

You may be in a condition of changing a job, but having your own career is unbelievably hard. Then how to improve yourself and switch the impossible mission into possible is your priority. If you want to pass H13-624_V5.5 exam, here come our H13-624_V5.5 exam prep giving you a helping hand. Our company has the highly authoritative and experienced team to help you pass the H13-624_V5.5 Exam. You can not only get the most helpful and valid H13-624_V5.5 exam questions, but also you can get according suggestions on how to pass the H13-624_V5.5 exam.
