## Useful HPE2-B08 Training Kit Covers the Entire Syllabus of HPE2-B08

Considering all customers'sincere requirements, HPE2-B08 test question promise to our candidates with plenty of high-quality products, considerate after-sale services. Numerous advantages of HPE2-B08training materials are well-recognized, such as 99% pass rate in the exam, free trial before purchasing, secure privacy protection and so forth. From the customers'perspective, We treasure every customer'reliance and feedback to the optimal HPE2-B08 Practice Test and be the best choice.

## HPE Private Cloud AI Solutions Sample Questions (Q80-Q85):

### NEW QUESTION # 80

During a discovery call, a customer from a telecommunications company explains their primary goal:

"We need to analyze network traffic patterns in real-time to detect anomalies that could indicate a security threat or a network outage." Which key use case for HPE Private Cloud AI does this represent?

- A. Code Generation
- **B. AI Cybersecurity**
- C. Document Chat
- D. AI Recommender System

**Answer: B**

### NEW QUESTION # 81

A customer needs a solution for AI inferencing at the edge for a computer vision application. They have determined a Small configuration of HPE Private Cloud AI is sufficient. The solution also requires several value-added services, including an AI transformation workshop and a data design service.

How should an architect attach these services in One Config Advanced (OCA)?

- A. The services must be quoted separately from the hardware and software configuration.
- B. The services are automatically included in the Smart Template and require no action.
- **C. The services can be selected and added to the configuration as optional line items within OCA.**
- D. The architect must open a support ticket with HPE to have the services added to the quote.

**Answer: C**

#### NEW QUESTION # 82

An architect is meeting with a prospective customer to determine the right HPE AI solution. The customer provides the following information about their situation.

...

- AI Status: No formal AI strategy. One successful PoC for theft prevention using computer vision is running at a single store.
- Goal: Wants to explore creating a "digital twin" of their supply chain for simulation, but has no clear KPIs.
- Team: Two data scientists, one ML engineer.
- Infrastructure: Ad-hoc use of public cloud for the PoC; no standardized tech stack.

...

Based on this profile, which AI maturity level and corresponding HPE solution should the architect initially position? (Choose 2.)

- **A. Lead with HPE Private Cloud AI with NVIDIA.**
- B. Lead with HPE Cray systems for the digital twin simulation.
- C. The customer is an 'AI Pro'.
- **D. The customer is an 'Early AI user'.**
- E. The customer is a 'Deployer of AI at scale'.

**Answer: A,D**

#### NEW QUESTION # 83

A customer in the media and entertainment industry wants a solution to accelerate the creation of 3D animations and renderings. Their artists need to be able to generate complex visual AI content quickly.

The company has a mature AI practice and requires a powerful, data center-based solution.

Which HPE ProLiant server and NVIDIA GPU combination is purpose-built for these generative visual AI workloads?

- A. HPE ProLiant DL380a Gen11 server with CPU-only configuration
- B. HPE ProLiant DL380a Gen12 server with an NVIDIA NVLink Bridge but no GPUs
- **C. HPE ProLiant DL380a Gen11 server with NVIDIA L40S GPUs**
- D. HPE ProLiant DL320 Gen11 server with NVIDIA L4 GPUs

**Answer: C**

#### NEW QUESTION # 84

After an architect selects the "HPE Private Cloud AI - Large - Expanded" Smart Template in OCA, they see it includes a significant number of "HPE Factory Express Complex Unit of SVC" services.

What is the purpose of these bundled services?

- A. To provide a credit for future software purchases on the HPE GreenLake cloud.
- B. To provide on-site training for the customer's data science team.
- **C. To cover the pre-integration and configuration of the entire solution at an HPE factory before shipment.**
- D. To allow the customer to exchange the hardware for the next generation at no cost.

**Answer: C**
