In our CFRP practice materials, users will not even find a small error, such as spelling errors or grammatical errors. It is believed that no one is willing to buy defective products, so, the CFRP study guide has established a strict quality control system.

## Psychiatric Rehabilitation Association Certified Child and Family Resiliency Practitioner (CFRP) Sample Questions (Q62-Q67):

### NEW QUESTION # 62

The concept of person-first language is founded in

- A. political correctness.
- B. the need for accommodation.
- C. the limits of disability.
- D. respect for differences.

**Answer: D**

Explanation:

The CFRP framework emphasizes cultural competence and respectful communication within interpersonal competencies. Person-first language, which prioritizes the individual over their disability or condition (e.g., "a child with autism" rather than "an autistic child"), is founded in respect for differences. This approach acknowledges the dignity and individuality of each person. The CFRP study guide states, "Person-first language is rooted in respect for differences, emphasizing the individual's humanity and unique qualities over their condition or disability." The limits of disability (option A) or the need for accommodation (option B) are not the foundation, though they may relate to its application. Political correctness (option C) is a mischaracterization, as person-first language is about dignity, not superficial compliance.

\* CFRP Study Guide (Section on Interpersonal Competencies): "The concept of person-first language is founded in respect for differences, promoting dignity by prioritizing the individual's identity over their disability or condition." References:

Certified Child and Family Resiliency Practitioner (CFRP) Study Guide, Section on Interpersonal Competencies, Respectful Communication.

Psychiatric Rehabilitation Association (PRA) Guidelines on Person-First Language.

### NEW QUESTION # 63

What factors must be understood when considering typical childhood development?

- A. Education and learning needs
- B. Gender and birth order
- C. Nature and environment
- D. Context and culture

**Answer: D**

Explanation:

The Supporting Health and Wellness domain requires practitioners to understand developmental factors to tailor interventions.

The PRA CFRP Study Guide 2024-2025 emphasizes that context and culture are critical in assessing typical childhood development, as they shape social, emotional, and behavioral norms.

Option B (Context and culture) is correct because the PRA framework highlights the importance of cultural values, family dynamics, and environmental context in understanding developmental milestones and behaviors.

Option A (Education and learning needs) is incorrect because, while important, these are secondary to broader contextual factors in developmental assessment.

Option C (Nature and environment) is incorrect because "nature" is vague, and the PRA prioritizes culture over general environmental factors.

Option D (Gender and birth order) is incorrect because, while influential, these are not the primary factors compared to context and culture in the PRA guidelines.

:

Psychiatric Rehabilitation Association, CFRP Study Guide 2024-2025, Section on Supporting Health and Wellness: Childhood Development.

PRA Certification Candidate Handbook, Competency Domain 7: Supporting Health and Wellness.

PRA Code of Ethics, Principle 3: Respect for Diversity.

### NEW QUESTION # 64

For a child whose goal is to make more friends, joining Girl Scouts would be an example of:

- A. Facilitating collaboration.
- **B. Promoting individual choice.**
- C. Maintaining personal wellness.
- D. Practicing interventions.

**Answer: B**

Explanation:

The Community Integration domain emphasizes connecting children with community resources and activities to support social inclusion and personal goals. According to the PRA CFRP Study Guide 2024-2025, promoting individual choice involves empowering children to select activities that align with their interests and goals, such as joining a group like Girl Scouts to foster social connections.

Option A (Facilitating collaboration) is correct because joining Girl Scouts reflects the child's agency in choosing a community-based activity to achieve their goal of making friends. The PRA framework highlights that practitioners should support children in making self-directed choices to enhance engagement and ownership.

Option B (Facilitating collaboration) is incorrect because collaboration refers to coordinating with other providers or stakeholders, not the act of joining a group. The PRA study guide distinguishes collaboration as a systems-level activity.

Option C (Practicing interventions) is incorrect because joining Girl Scouts is a community-based activity, not a clinical intervention. The PRA framework categorizes interventions as targeted therapeutic strategies.

Option D (Maintaining personal wellness) is incorrect because, while social connections support wellness, the primary focus of joining Girl Scouts in this context is social integration, not wellness maintenance per the PRA guidelines.

:

Psychiatric Rehabilitation Association, CFRP Study Guide 2024-2025, Section on Community Integration:

Empowering Choice.

PRA Certification Candidate Handbook, Competency Domain 3: Community Integration.

PRA Code of Ethics, Principle 3: Respect for Autonomy.

### NEW QUESTION # 65

A transition-age youth, who is depressed and shows patterns of thinking that reinforce suicide as the only option, is experiencing cognitive

- **A. distortions.**
- B. dissonance.
- C. restructuring.
- D. congruence.

**Answer: A**

Explanation:

In supporting transition-age youth, the CFRP framework addresses mental health challenges like depression and suicidality. Patterns of thinking that reinforce suicide as the only option are indicative of cognitive distortions, such as all-or-nothing thinking or hopelessness, which are common in depression. The CFRP study guide notes, "Transition-age youth with depression who view suicide as the only option are experiencing cognitive distortions, characterized by irrational or exaggerated thought patterns."

Cognitive restructuring (option A) is a therapeutic technique to address distortions, not the condition itself. Congruence (option B) refers to alignment between thoughts and feelings, not distorted thinking. Dissonance (option D) involves conflicting beliefs, not the described pattern.

\* CFRP Study Guide (Section on Transition-Age Youth Services): "Cognitive distortions, such as viewing suicide as the only option, are common in depressed transition-age youth and require targeted interventions to address irrational thought patterns." References: Certified Child and Family Resiliency Practitioner (CFRP) Study Guide, Section on Transition-Age Youth Services, Mental Health Interventions.

Psychiatric Rehabilitation Association (PRA) Guidelines on Cognitive Behavioral Approaches.

### NEW QUESTION # 66

To nurture resilience in children, practitioners must

- A. teach the development realistic goals.
- **B. emphasize that mistakes are opportunities for growth.**
- C. avoid using humor to minimize disappointment.
- D. emphasize performance over learning.

**Answer: B**

Explanation:

Fostering resilience is a core strategy for facilitating recovery in the CFRP framework. Practitioners nurture resilience in children by emphasizing that mistakes are opportunities for growth, which encourages a growth mindset and perseverance. The CFRP study guide states, "To nurture resilience, practitioners should emphasize that mistakes are opportunities for growth, helping children develop a positive approach to challenges." Emphasizing performance (option A) can increase pressure and hinder resilience. Teaching realistic goals (option C) is important but less directly tied to resilience. Avoiding humor (option D) is not a resilience strategy and may limit emotional connection.

\* CFRP Study Guide (Section on Strategies for Facilitating Recovery): "Nurturing resilience in children involves emphasizing that mistakes are opportunities for growth, fostering a growth mindset and adaptability." References:

CFRP Study Guide, Section on Strategies for Facilitating Recovery, Resilience Building.  
Psychiatric Rehabilitation Association (PRA) Guidelines on Strengths-Based Resilience.

## NEW QUESTION # 67

.....

Are you often regretful that you have purchased an inappropriate product?
