NEW QUESTION # 190

An engineer is creating a configuration import policy that must terminate if the imported configuration is incompatible with the existing system. Which import mode achieves this result?

- A. replace
- B. best effort
- C. merge
- D. atomic

Answer: D

Explanation:
The import mode that must be used to ensure that the import process terminates if the imported configuration is incompatible with the existing system is the 'atomic' mode. This mode ignores shards that contain objects that cannot be imported while proceeding with shards that can be imported. If the incoming configuration's version is incompatible with the existing system, the import process will terminate2.
