

New The Open Group OGEA-101 Dumps Questions & Valid OGEA-101 Cram Materials

DOWNLOAD the newest Rea4Prep OGEA-101 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=12cwI2EmuWTZywd13myEWwgwDzz-dz6Uv>

Our OGEA-101 exam cram is famous for instant access to download, and you can receive the downloading link and password within ten minutes, and if you don't receive, you can contact us. Moreover, OGEA-101 exam materials contain both questions and answers, and it's convenient for you to check the answers after practicing. We offer you free demo to have a try before buying, so that you can know what the complete version is like. We offer you free update for 365 days for OGEA-101 Exam Dumps, so that you can obtain the latest information for the exam, and the latest version for OGEA-101 exam dumps will be sent to your email automatically.

The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Architecture Content Framework: Candidates learn about the TOGAF content metamodel and architecture artifacts. This topic of the OGEA-101 exam measures their understanding of content organization and documentation.
Topic 2	<ul style="list-style-type: none">Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.
Topic 3	<ul style="list-style-type: none">Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 Exam.

Topic 4	<ul style="list-style-type: none"> • ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.
Topic 5	<ul style="list-style-type: none"> • Business Architecture: This topic of The Open Group OGEA-101 exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.

Trustable New OGEA-101 Dumps Questions bring you Authorized Valid OGEA-101 Cram Materials for The Open Group TOGAF Enterprise Architecture Part 1 Exam

Our OGEA-101 practice engine boosts both the high passing rate which is about 98%-100% and the high hit rate to have few difficulties to pass the test. Our OGEA-101 exam simulation is compiled based on the resources from the authorized experts' diligent working and the real exam and confer to the past years' exam papers thus they are very practical. So the content of the OGEA-101 Learning Materials is quite fully covered and completed. And we will update it to be the latest.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q85-Q90):

NEW QUESTION # 85

Which one of the following classes of information within the Architecture Repository would typically contain a list of the applications in use within the enterprise?

- A. Reference Library
- B. Governance Log
- C. Architecture Metamodel
- D. Architecture Landscape

Answer: D

Explanation:

The Architecture Landscape is a class of information within the Architecture Repository that shows an architectural view of the building blocks that are in use within the organization today (the Baseline Architecture), as well as those that are planned for the future (the Target Architecture). The Architecture Landscape typically contains a list of the applications in use within the enterprise, along with their relationships and dependencies, as well as other relevant architectural information. The Architecture Landscape helps to identify opportunities for re-use, consolidation, or retirement of existing applications, as well as gaps or overlaps in the current or future architecture. Reference: : The TOGAF Standard, Version 9.2, Part IV: Architecture Content Framework, Chapter 34: Architecture Landscape : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 47: Architecture Repository

NEW QUESTION # 86

What is the purpose of the Preliminary Phase?

- A. Describing the target architecture.
- B. Developing an Enterprise Architecture Capability.
- C. Defining the Enterprise Strategy.
- D. Identifying the stakeholders and their requirements.

Answer: B

Explanation:

An Enterprise Architecture Capability is the ability of the organization to perform effective and efficient architecture work, including

the definition, governance, and management of its architectures². The Preliminary Phase involves the following activities¹:

*Reviewing the organizational context, scope, and drivers for conducting Enterprise Architecture

*Establishing the Architecture Capability desired by the organization, including the maturity level, roles, responsibilities, processes, and tools

*Defining and establishing the Organizational Model for Enterprise Architecture, which describes how the architecture function is organized and integrated within the enterprise

*Defining and establishing the Architecture Governance framework, which provides the mechanisms for ensuring the quality, consistency, and compliance of the architecture work

*Selecting and implementing the tools that support the Architecture Capability, such as repositories, modeling tools, and communication tools

*Defining the Architecture Principles that will guide and constrain the architecture work, based on the business principles, goals, and drivers of the organization

*Defining the Organization-Specific Architecture Framework, which is an adaptation of the generic TOGAF ADM to suit the specific requirements, standards, and practices of the organization The Preliminary Phase is essential for preparing the organization for the successful development and implementation of its architectures, as well as for ensuring the alignment of the architecture work with the business strategy and objectives¹.

NEW QUESTION # 87

Complete the following sentence. In the ADM documents which are under development and have not undergone any formal review and approval process are _____.

- A. Known as "Version 0.1"
- B. Invalid
- C. Called "draft"
- D. In between phases

Answer: C

Explanation:

In the ADM documents which are under development and have not undergone any formal review and approval process are called "draft". This indicates that they are subject to change and refinement as the architecture development progresses. Reference: The TOGAF Standard | The Open Group Website, Section 4.2.5 Architecture Deliverables.

NEW QUESTION # 88

Consider the following ADM phase objectives:

* Determine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous business value

* Generate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D

* Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan

* Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders Which two are objectives of ADM Phase F?

- A. 1 & 2
- B. 1 & 3
- C. 3 & 4
- D. 2 & 3

Answer: C

Explanation:

Phase F: Migration Planning - Objectives/Outputs include:

"The outputs for this phase: ... Finalized Architecture Roadmap ... Implementation and Migration Plan ... projects assigned business value and risk."

"To prioritize all work packages... by assigning business value to each and conducting a cost/business analysis." Open Group Publications Reference: The Open Group, TOGAF 9 Conformance Requirements-Phase F learning objectives, outputs.

NEW QUESTION # 89

Consider the following ADM phases objectives.

Objective:

1. Develop the Target Data Architecture that enables the Business Architecture and the Architecture Vision
 2. Develop the Target Business Architecture that describes how the enterprise needs to operate to achieve the business goals
 3. Develop a high-level aspirational vision of the capabilities and business value to be delivered as a result of the proposed Enterprise Architecture
 4. Identify candidate Architecture Roadmap components based upon gaps between the Baseline and Target Technology Architectures
- Which phase does each objective match?

- A. 1C-2B-3A-4D
- B. 1C-2D-3B-4A
- C. 1B-2D-3A-4C
- D. 1A-2B-3C-4D

Answer: A

Explanation:

* Phase A: Architecture Vision

o Develop a high-level aspirational vision of the capabilities and business value to be delivered as a result of the proposed Enterprise Architecture
o Define the scope and boundaries of the architecture engagement
o Identify the key stakeholders and their concerns and expectations
o Define the Architecture Vision statement and the Architecture Definition Document
o Obtain approval and commitment from the sponsors and stakeholders

* Phase B: Business Architecture

o Develop the Target Business Architecture that describes how the enterprise needs to operate to achieve the business goals
o Define the Baseline Business Architecture, if not available
o Perform a gap analysis between the Baseline and Target Business Architectures
o Define candidate roadmap components for the Business Architecture
o Resolve impacts across the Architecture Landscape

* Phase C: Information Systems Architecture

o Develop the Target Data Architecture that enables the Business Architecture and the Architecture Vision
o Develop the Target Application Architecture that supports the Business Architecture and the Architecture Vision
o Define the Baseline Data and Application Architectures, if not available
o Perform a gap analysis between the Baseline and Target Data and Application Architectures
o Define candidate roadmap components for the Information Systems Architecture
o Resolve impacts across the Architecture Landscape

* Phase D: Technology Architecture

o Develop the Target Technology Architecture that enables the Information Systems Architecture and the Architecture Vision
o Define the Baseline Technology Architecture, if not available
o Perform a gap analysis between the Baseline and Target Technology Architectures
o Identify candidate Architecture Roadmap components based upon gaps between the Baseline and Target Technology Architectures
o Resolve impacts across the Architecture Landscape

Therefore, the correct matching of the objectives and the phases is:

* 1C: Develop the Target Data Architecture that enables the Business Architecture and the Architecture Vision

* 2B: Develop the Target Business Architecture that describes how the enterprise needs to operate to achieve the business goals

* 3A: Develop a high-level aspirational vision of the capabilities and business value to be delivered as a result of the proposed Enterprise Architecture

* 4D: Identify candidate Architecture Roadmap components based upon gaps between the Baseline and Target Technology Architectures

NEW QUESTION # 90

.....

It is a matter of common sense that pass rate of a kind of OGEA-101 exam torrent is the only standard to testify weather it is effective and useful. I believe that you already have a general idea about the advantages of our OGEA-101 exam question, but now I would like to show you the greatest strength of our OGEA-101 Guide Torrent --the highest pass rate. According to the statistics, the pass rate among our customers who prepared the exam under the guidance of our OGEA-101 guide torrent has reached as high as 98% to 100% with only practicing our OGEA-101 exam torrent for 20 to 30 hours.
