## Cisco 300-815 Exam Blueprint & 300-815 Pass4sure Pass Guide

There are great and plenty benefits after the clients pass the 300-815 test. Because the knowledge that our 300-815 exam practice materials provides is conducive to enhancing the client' practical working abilities and stocks of knowledge, the clients will be easier to increase their wages and be promoted by their boss. Besides, they will be respected by their colleagues, friends and family members and be recognized as the elites among the industry. They will acquire more access to work abroad for further studies. So the clients must appreciate our 300-815 study question after they pass the test.

## Cisco Implementing Cisco Advanced Call Control and Mobility Services Sample Questions (Q227-Q232):

### NEW QUESTION # 227

Refer to the exhibit. An administrator configured a new SIP trunk between Cisco UCM and Cisco Unified Border Element. Calls that use this new trunk are failing, and debugs from the Cisco Unified Border Element do not show any signaling received from Cisco UCM. The administrator verified that OPTIONS is enabled on the SIP profile configured on the trunk on Cisco UCM. The route pattern matched for this call is correctly configured to send calls to the Cisco Unified Border Element using this new trunk. What is the cause of this failure?

```

- A. There are multiple matches for the dialed number, and Cisco UCM is trying to send the call to SEP2834A2824611 rather than Cisco Unified Border Element
- B. A connectivity issue between Cisco UCM and Cisco Unified Border Element prevents Cisco UCM from receiving a response to the OPTIONS it is sending to Cisco Unified Border Element
- C. The called party number is not complete because it contains only 7 digits
- D. The calling search space on the calling line/device does not contain the partition of the route pattern

**Answer: B**

### NEW QUESTION # 228

An administrator is working on an issue between the customer's Cisco Unified Border Element and the service provider. The provider only wants to see mid-call signaling from the Cisco Unified Border Element for fax calls. Which command must be configured on Cisco Unified Border Element?

- A. midcall-signalling passthru
- B. no update-callerid
- C. midcall-signaling preserve-codec
- D. midcall-signaling passthru media-change

**Answer: D**

### NEW QUESTION # 229

What is the relationship between partition, time schedule, and time period in Time-of-Day routing in Cisco Unified Communications Manager?

- A. A partition can have multiple time schedules assigned. A time schedule contains one or more time periods.
- B. A partition can have multiple time schedules assigned. A time schedule contains only one time period.
- C. A partition can have one time schedule assigned. A time schedule contains only one time period.
- D. A partition can have one time schedule assigned. A time schedule contains one or more time periods.

**Answer: D**

Explanation:

As mentioned earlier, partitions allow you to assign a time schedule to a partition. A time schedule contains a list of time periods.

The time schedule can include more than one time period. For example, you might create a time period for each holiday and then create a time schedule named Holidays that includes all the holiday time periods.

#### NEW QUESTION # 230

An administrator wants to use the Call Queuing feature on Cisco UCM to allow new customers to wait in the queue while other agents are not available to take their call. Which configuration step enables this feature?

- A. Call Routing > Route/Hunt > Hunt List
- **B. Call Routing > Route/Hunt > Hunt Pilot**
- C. Call Routing > Route/Hunt > Call Park
- D. Call Routing > Route/Hunt > Line Group

**Answer: B**

#### NEW QUESTION # 231

Cisco UCM has 100,000 entries in the database learned through the ILS Service. Parameter ILS Max Number of Learned Objects in Database value is set to 100,000. What will happen to learned data when the service parameter value is reduced to 50,000?

- A. Cisco UCM will overwrite an entry for newly learned data and keep the parameter value at 100,000.
- B. Cisco UCM does not write additional ILS learned objects to the database and will delete the last 50,000 entries learned to keep it to the service parameter value.
- **C. Cisco UCM does not write additional ILS learned objects to the database and keeps the existing database entries.**
- D. Cisco UCM does not write additional ILS learned objects to the database and will delete the first 50,000 entries learned to keep it to the service parameter value.

**Answer: C**

#### NEW QUESTION # 232

.....

It will make you practice nicely and productively as you will experience better handling of the Cisco 300-815 questions when you take the actual Cisco 300-815 exam to grab the Cisco 300-815 certification. Work hard and practice with our Cisco 300-815 Dumps till you are confident to pass the Cisco 300-815 exam. And that too with flying colors and achieving the Cisco 300-815 certification on the first attempt.
