Role of Microsoft MS-721 Exam Questions in Getting the Highest-Paid Job

Our MS-721 exam simulation is selected many experts and constantly supplements and adjust our questions and answers. When you use our MS-721 study materials, you can find the information you need at any time. When we update the MS-721 preparation questions, we will take into account changes in society, and we will also draw user feedback. If you have any thoughts and opinions in using our MS-721 Study Materials, you can tell us. We hope to grow with you and the continuous improvement of MS-721 training engine is to give you the best quality experience.

Microsoft Collaboration Communications Systems Engineer Sample Questions (Q264-Q269):

NEW QUESTION # 264

Case Study 3 - Contoso, Ltd

Overview

Company Information

Contoso, Ltd. is an international manufacturing company that has 2,000 employees.

Contoso currently uses a third-party meeting service. The company plans to migrate the meeting service to Microsoft Teams and replace all legacy video teleconferencing (VTC) devices.

Physical Locations

Contoso has offices in Toronto, New York, Rome, and London. The company has a global sales team that works remotely.

Existing Environment

Active Directory Environment

The on-premises network contains an Active Directory Domain Services (AD DS) forest named contoso.com.

Microsoft 365 and Teams Environment

Contoso has a Microsoft 365 subscription. All users are licensed for Microsoft 365 E5 and Teams Premium. All users are enabled for Teams Phone by using Operator Connect.

The contoso.com domain syncs to Microsoft 365 by using Azure AD Connect cloud sync. All users use the Microsoft Authenticator app for multi-factor authentication (MFA) to cloud services.

A Microsoft Surface Hub device is deployed to the boardroom in each office.

The reception area at the Toronto office is configured to use a phone number of +14165555555 in Teams.

Problem Statements

Contoso identifies the following issues:

- A user in the London office cannot locate the recorded files from a recurring Teams meeting.
- Executives in the New York office report having to use Microsoft Authenticator to access their Microsoft OneDrive files from the Surface Hub.
- A user in the Toronto office reports receiving incoming calls while attending Teams meetings instead of having calls sent automatically to voicemail.

Requirements

Planned Changes

Contoso plans to implement the following changes:

- Deploy a new Teams-certified endpoint to all the boardrooms and huddle spaces in all the offices.
- Start a pilot project to deploy an Intelligent Speaker to the boardroom in the Rome office and evaluate transcription and voice attribution capabilities.
- Deploy a Teams shared device to the lunchroom in the Toronto office. Calls placed to +14165555555 must ring in both the reception area and the lunchroom.

Technical Requirements

Contoso identifies the following technical requirements:

- The endpoint deployed to each boardroom must include a console on the table. The endpoint must automatically invite the existing Surface Hub when joining a Teams meeting.
- The sales team must be able to temporarily sign in to the endpoints deployed to the huddle spaces to respond to Teams messages and attend video calls.
- The endpoints deployed to the huddle spaces must allow only outbound emergency calls when a user is NOT signed in.
- During Teams meetings, the sales team must have a watermark displayed on shared content.

You need to implement the planned changes for the Rome office boardroom.

Which two settings should you configure for the device? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Default Video Camera
- B. Default Speaker
- C. Microphone for Conferencing
- D. Speaker for Conferencing
- E. Content Camera

Answer: C,D

Explanation:

Scenario: Requirements. Planned Changes

Start a pilot project to deploy an Intelligent Speaker to the boardroom in the Rome office and evaluate transcription and voice attribution capabilities.

Audio

Configure the following parameters for program audio.

* Microphone for Conferencing selects the microphone to use in a conference.

Select a microphone from the drop-down list.

* Speaker for Conferencing selects the speaker to use in a conference. Select a speaker from the drop-down list. Speaker functions are controlled by the control device Reference:

NEW QUESTION # 265

You have a Microsoft 365 E5 subscription and a Microsoft Teams deployment.

You need to recommend a solution for a company-wide meeting. The solution must meet the following requirements:

* Support Microsoft enterprise content delivery network (eCDN).

* Support 500 attendees in a real-time meeting.

* Minimize costs.

Which meeting template should you recommend, and which license should you recommend for the meeting organizer? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Meeting template: **Town hall**

License: **Teams Premium**

Meeting template:	Town hall
	Live event
	Town hall
	Virtual appointment
	Webinar
License:	Teams Premium
	Audio Conferencing
	Communications Credits
	Teams Premium
	Teams Rooms Pro

Answer:
