NEW QUESTION # 62

Which of the following statements about the scenario analysis investigation technique is FALSE?

- A. Provides a basis for developing subsequent prototypes.
- **B. Helps prepare the scripts that will be used to test the delivered solution.**
- C. Provides a broad view of the business area under investigation.
- D. Helps identify tacit knowledge used in business practice.

Answer: B

Explanation:

Scenario analysis is an investigation technique used to explore and evaluate potential future scenarios or situations. It helps stakeholders understand how different factors might impact a business area or process.

Key Characteristics of Scenario Analysis:

Broad View: Scenario analysis provides a comprehensive understanding of the business area by considering multiple possible outcomes.

Prototyping Basis: The insights gained from scenario analysis can inform the development of prototypes.

Tacit Knowledge Identification: By exploring real-world scenarios, it helps uncover implicit knowledge embedded in business practices.

Testing Scripts: Scenario analysis is not directly involved in preparing test scripts, which are typically created during the testing phase.

Evaluation of Each Option:

A . Provides a broad view of the business area under investigation:

Scenario analysis evaluates multiple possibilities, offering a broad perspective.

Conclusion: This is true .

B . Provides a basis for developing subsequent prototypes:

Insights from scenario analysis can guide prototype development.

Conclusion: This is true .

C . Helps identify tacit knowledge used in business practice:

Exploring scenarios uncovers hidden knowledge and practices.

Conclusion: This is true .

D . Helps prepare the scripts that will be used to test the delivered solution:

Preparing test scripts is part of testing activities, not scenario analysis.

Conclusion: This is false .

NEW QUESTION # 63

Which of the following options BEST describes the characteristics of a T-Shaped professional?

- **A. The crossbar of the T-shape represents having a good level of skills across many areas, and deep level of skills in a specialism.**
- B. T stands for Talented.

- C. AT-Shaped professional possess a deep understanding in a
- D. T-shaped professional has a deep level of skills in many areas.

Answer: A

Explanation:

given area and leads a team of people in other areas.

Explanation:

A T-shaped professional is a concept used to describe individuals who possess a combination of broad and deep skills. Let's evaluate each option to determine which best describes this concept:

Key Characteristics of a T-Shaped Professional:

Vertical Line (Deep Expertise): Represents specialized knowledge or expertise in one specific area.

Horizontal Line (Broad Skills): Represents a wide range of general skills or knowledge across multiple disciplines, enabling collaboration and adaptability.

Evaluation of Each Option:

A . T stands for Talented:

While "talented" may describe the individual, the "T" specifically refers to the shape that visually represents their skill profile (broad and deep).

Conclusion: This is not correct .

B . T-shaped professional has a deep level of skills in many areas:

A T-shaped professional does not have deep expertise in many areas; they have deep expertise in one area and broad skills across others.

Conclusion: This is not correct .

C . The crossbar of the T-shape represents having a good level of skills across many areas, and deep level of skills in a specialism: This accurately describes the T-shaped professional: the horizontal bar represents broad skills, and the vertical bar represents deep expertise in a specific area.

Conclusion: This is correct .

D . A T-Shaped professional possesses a deep understanding in a given area and leads a team of people in other areas:

While leadership may be a trait of some T-shaped professionals, it is not a defining characteristic of the concept.

Conclusion: This is not correct .
