Reliable 312-76 Test Topics, 312-76 Passleader Review

Now let me introduce the PDF version of our 312-76 exam questions to you. Tt is very easy for you to download the PDF version of our 312-76 study materials, and it has two ways to use. On the one hand, you can browse and learn our 312-76 learning guide directly on the Internet. On the other hand, you can print it on paper so you can take notes. As it takes no place so that you can bring with you wherever you go.

Targeted Audience

Go for this test if you see yourself working under the job roles of security testers, system administrators, firewall administrators, risk assessment professionals, and network server administrators. Such specialists can sharpen acquired skills and get equipped with more profound work acquaintance once they gain the EDRP certification.

EC-COUNCIL EC-Council Disaster Recovery Professional (EDRP) Sample Questions (Q74-Q79):

NEW QUESTION # 74
Nancy is working as a network administrator for a small company. Management wants to implement a RAID storage for their organization. They want to use the appropriate RAID level for their backup plan that will satisfy the following requirements:
* It has a parity check to store all the information about the data in multiple drives.
* Help reconstruct the data during downtime.
* Process the data at a good speed.
* Should not be expensive.The management team asks Nancy to research and suggest the appropriate RAID level that best suits their requirements. What RAID level will she suggest?

- A. RAID 3
- B. RAID 10
- C. RAID 1
- D. RAID 1 (Duplicate option, likely typo for another level)

Answer: A

Explanation:
RAID 3 uses striping with a dedicated parity drive, meeting all requirements: parity for reconstruction, good speed (sequential access), and lower cost than RAID 10 or RAID 1 (fewer drives than RAID 10). Option C duplicates RAID 1, likely a typo.
* Option A (RAID 10):Mirroring and striping, expensive, no parity drive.
* Option B/C (RAID 1):Mirroring, no parity, costly for multiple drives.
* Option D (RAID 3):Parity-based, cost-effective, meets all criteria.
* "RAID 3 employs a dedicated parity drive for data reconstruction, offering good performance and cost- efficiency for backup solutions" (Module: Storage Technologies, Section: RAID Levels).

NEW QUESTION # 75
Which of the following parts of BS 7799 covers risk analysis and management?

- A. Part 4
- B. Part 1
- C. Part 3
- D. Part 2

Answer: C
