我々社のSalesforce Platform-App-Builder問題集を購入するかどうかと疑問があると、弊社MogiExamのPlatform-App-Builder問題集のサンプルを試してみるのもいいことです。試用した後、我々のPlatform-App-Builder問題集はあなたを試験に順調に合格させると信じられます。なぜと言うのは、我々社の専門家は改革に応じて問題の更新と改善を続けていくのは出発点から勝つからです。

Salesforceは、あらゆる規模のビジネスに幅広い顧客関係管理（CRM）ツールを提供するクラウドベースのソフトウェア会社です。Salesforceプラットフォームの重要な機能の1つは、Salesforce Platform-App-Builderを使用してカスタムアプリを構築できることです。このツールを使用すると、開発者と非技術的なユーザーも同様に、従業員や顧客が外部的に使用できるカスタムアプリを作成できます。

Salesforce Platform-App-Builder試験復習、Platform-App-Builderオンライン試験

MogiExamはIT認定試験に関連する資料の専門の提供者として、受験生の皆さんに最も優秀な試験Platform-App-Builder参考書を提供することを目指しています。他のサイトと比較して、MogiExamは皆さんにもっと信頼されています。なぜでしょうか。それはMogiExamは長年の経験を持っていて、ずっとIT認定試験の研究に取り組んでいて、試験についての多くの規則を総括しましたから。そうすると、MogiExamのPlatform-App-Builder教材は高い的中率を持つことができます。これはまた試験の合格率を保証します。従って、MogiExamは皆の信頼を得ました。

Salesforce Certified Platform App Builder 認定 Platform-App-Builder 試験問題 (Q255-Q260):

質問 # 255

Universal Containers uses a private sharing model for opportunities. This model CANNOT be changed due to a regional structure. A new sales operations team has been created. This team needs to perform analysis on Opportunity data, all should have read and write access to all Opportunities.

What are two recommended solutions for the app builder to give the users appropriate access? Choose 2 answers

- A. Create a criteria-based sharing rule to share all opportunities with the sales operations private group
- B. Add a manual share for all opportunities with each user on the sales operations team
- C. Add a permission set with 'View All' and 'Modify All' opportunity permissions enabled.
- D. Create a criteria-based sharing rule to all opportunities with the sales operations public group.

正解: C、D

解説:

The two recommended solutions for the app builder to give the users appropriate access are creating a criteria based sharing rule to all opportunities with the sales operations public group and adding a permission set with 'View All' and 'Modify All' opportunity permissions enabled. A criteria based sharing rule can grant read and write access to all opportunities that meet certain criteria to a specified group of users. A permission set can grant additional object-level permissions to users without changing their profiles.

Option B is incorrect because adding a manual share for all opportunities with each user on the sales operations team is not scalable or maintainable. Option D is incorrect because creating a criteria-based sharing rule to share all opportunities with the sales operations private group is redundant, as private groups are used to manually share records with individual users or other groups.

質問 # 256

Universal Containers (UC) tracks Account locations in Zip Code, a custom text field with a validation rule to enforce proper formatting of the US ZIP+4 code for UC's orders.

What formula should the app builder create on Order to display only the first five digits of Zip Code from the parent Account?

- A. BEGINS(Account.Zip_Code__r, 5)
- B. TEXT(Account.Zip_Code__c, 5)
- C. LEFT(Account.Zip_Code__c, 5)
- D. LPAD(Account.Zip_Code__r, 5)

正解: C

質問 # 257

UVC needs to flag leads with one or more business areas. They need to add a field to capture these to the Lead Record. There is no need to report on this field. What is the appropriate field type?

- A. Radio Buttons (Multi-select)
- B. Picklist
- C. Text Area

- D. Picklist (Multi-Select)

正解: B

質問 # 258

A custom field on an account is used to track finance information about a customer. Only members of the Finance Team have access to this field. However, the business wants to allow one customer service agent, who is assigned the customer service profile, read-only access to this field for special circumstances. What is the recommended solution to grant the customer service agent access to the field?

- A. Create a permission set that allows read-only access to the field via Field Level Security and assign it to the agent.
- B. Update the Customer Service Profile already assigned to the agent to allow for read-only access to the field via Field Level Security
- C. Create a new profile to allow for read-only access to the field via Field Level Security and assign it to the agent
- D. Update the custom field's Field Level Security in setup to allow the agent read-only access to the field.

正解: A

解説:

Explanation

The recommended solution to grant the customer service agent access to the field is creating a permission set that allows read-only access to the field via Field Level Security and assigning it to the agent. A permission set is a collection of settings and permissions that give users access to various tools and functions. Field Level Security (FLS) is a setting that controls the access level of fields for different profiles or permission sets. The app builder can create a permission set that grants read-only access to the custom field on the account object via FLS and assign it to the agent. Option B is incorrect because creating a new profile to allow for read-only access to the field via FLS and assigning it to the agent is not recommended, as profiles are used to define the baseline permissions and settings for a group of users, and creating multiple profiles for individual users can be hard to maintain. Option C is incorrect because updating the Customer Service Profile already assigned to the agent to allow for read-only access to the field via FLS is not recommended, as this will affect all users who have the same profile, which may violate the security policy. Option D is incorrect because updating the custom field's FLS in setup to allow the agent read-only access to the field is not possible, as FLS can only be set at the profile or permission set level, not at the user level.

質問 # 259

A new field has been added to the Applicant object that is part of an unmanaged package. A recruiter ran the Position with or without Applicants report and noticed that the new field was missing as an option to add as a column. How should an app builder troubleshoot this issue?

- A. Update the profile with the Manage Public Reports permission.
- B. Check Allow Reports for the position and applicant objects.
- C. Adjust the field level security to include in the report type.
- D. Add the field to the custom report type field layout.

正解: D

質問 # 260
