Salesforce B2B Commerce for Administrators Accredited Professional Sample Questions (Q33-Q38):

NEW QUESTION # 33
While testing a B2B store, an Administrator notices that the image for a product is missing on the cart page.
Which product image should the Administrator fix?

- A. Product Detail Image
- B. Product Thumbnail Image
- C. Product Checkout Image
- D. Product List Image

Answer: D

Explanation:
To ensure the product image appears on the cart page, the Administrator should fix the:
B) Product List Image: This image is typically used in summary views, such as in the shopping cart, to represent the product.
Ensuring this image is correctly set and accessible will solve the issue of missing product images on the cart page.
This action ensures that customers have a visual confirmation of their chosen products throughout the shopping process, enhancing

usability and the overall shopping experience.

NEW QUESTION # 34
Which two permission sets are needed for a user on the storefront to view other accounts across multiple accounts?

- A. Buyer (or Commerce User)
- B. Account Delegation User
- C. Buyer Manager (or B2B Commerce Super User)
- D. Account Switcher User

Answer: C,D

Explanation:
For a user on the storefront to view other accounts across multiple accounts, the necessary permission sets are C. Account Switcher User, which allows users to switch between different accounts they have access to, and D. Buyer Manager (or B2B Commerce Super User), which provides broader permissions including the ability to manage and view information related to multiple accounts.

NEW QUESTION # 35
Anew B2B Commerce deployment has been pushed to production and is lacking basic reports like Orders by Date and 1im 22s Total Orders.
What is the fastest way for an Administrator to provide immediate value?

- A. Download two new templates from Salesforce Labs.
- B. Download two new templates from AppExchange.
- C. Install Advanced Reports under Commerce Setup.
- D. Install the Commerce Reports under Commerce Setup.

Answer: D

Explanation:
To quickly provide basic reports like Orders by Date and Total Orders in a new B2B Commerce deployment, the fastest way is to Install the Commerce Reports under Commerce Setup (B). This feature provides a set of pre-built reports tailored for commerce analytics, allowing Administrators to quickly deploy essential reporting tools to stakeholders. While Salesforce Labs (A) and AppExchange (C) offer valuable resources and templates, Commerce Reports within Commerce Setup are specifically designed for rapid deployment within the B2B Commerce context. Advanced Reports (D) offer more detailed insights but may require additional configuration.

NEW QUESTION # 36
A company decided to change their payment method from one payment gateway to another. 08m 07s.
What does an Administrator need to do to configure the store to use the new payment gateway?

- A. Update the payment gateway settings on the Payment and Billing subflow.
- B. Use a Salesforce Labs package.
- C. Link the integration in store administration.
- D. Configure the payment gateway using the Experience Builder Administration page.

Answer: A

Explanation:
To configure the store to use a new payment gateway, an Administrator needs to Update the payment gateway settings on the Payment and Billing subflow (A). This involves configuring the new gateway's details and parameters within the relevant settings, ensuring that the store's payment processing is correctly aligned with the new gateway.

NEW QUESTION # 37
An Administrator would like for their content collections to automatically update when new content is added.
Which two steps should the Administrator take to implement this?

- A. Create Content Rule records and associate them to a collection.
- B. Create an Automated Collection.
- C. Create criteria rules to filter content.
- D. Create a Dynamic Content Collection.

Answer: A,D

Explanation:
To ensure content collections automatically update with new content, an administrator should:
A) Create Content Rule records and associate them to a collection: Content Rules define criteria for content inclusion, ensuring that new content meeting these criteria is automatically added to the collection.
B) Create a Dynamic Content Collection: Unlike static collections, dynamic collections automatically update based on predefined rules or criteria, ensuring the collection stays current with the latest content without manual intervention.
This setup allows for a more dynamic and responsive content management approach, where collections reflect the most current content relevant to the defined criteria, enhancing the user experience and content relevance.
