Amazon AWS Certified Cloud Practitioner Sample Questions (Q483-Q488):

NEW QUESTION # 483

A company is requesting Payment Card Industry (PCI) reports that validate the operating effectiveness of AWS security controls. How should the company obtain these reports?

- A. Download reports from AWS Security Hub.
- B. Contact an AWS technical account manager (TAM).
- C. Contact AWS Support
- D. Download reports from AWS Artifact.

Answer: D

NEW QUESTION # 484

Which AWS service is a continuous delivery and deployment solution?

- A. AWS CodeCommit

- B. AWSAppSync
- C. AWS Cloud9
- D. AWS CodePipeline

Answer: D

Explanation:

Explanation

AWS CodePipeline is a continuous delivery and deployment service that automates the release process of software applications across different stages, such as source code, build, test, and deploy². AWSAppSync, AWS Cloud9, and AWS CodeCommit are other AWS services related to application development, but they do not provide continuous delivery and deployment solutions³⁴.

NEW QUESTION # 485

Which tasks are the responsibility of the customer, according to the AWS shared responsibility model? (Select TWO.)

- A. Patch the Amazon RDS operating system.
- B. Manage data encryption.
- C. Maintain physical access control in an AWS Region.
- D. Grant least privilege access to IAM users.
- E. Upgrade the firmware of the network infrastructure.

Answer: B,D

Explanation:

According to the AWS shared responsibility model, the customer is responsible for security in the cloud, which includes the tasks of managing data encryption and granting least privilege access to IAM users. Data encryption is the process of transforming data into an unreadable format that can only be accessed with a key or a password. The customer must decide whether to encrypt their data at rest (when it is stored on AWS) or in transit (when it is moving between AWS and the customer or between AWS services). The customer must also choose the encryption method, algorithm, and key management solution that best suit their needs. AWS provides various services and features that support data encryption, such as AWS Key Management Service (AWS KMS), AWS Certificate Manager (ACM), and AWS Encryption SDK⁵ IAM users are entities that represent the people or applications that interact with AWS resources and services. The customer must grant the IAM users the minimum permissions that they need to perform their tasks, and avoid giving them unnecessary or excessive access. This is known as the principle of least privilege, and it helps reduce the risk of unauthorized or malicious actions. The customer can use IAM policies, roles, groups, and permissions boundaries to manage the access of IAM users.

NEW QUESTION # 486

A company plans to migrate to AWS and wants to create cost estimates for its AWS use cases.

Which AWS service or tool can the company use to meet these requirements?

- A. AWS Budgets
- B. AWS Pricing Calculator
- C. AWS Cost Explorer
- D. Amazon CloudWatch

Answer: B

Explanation:

Explanation

AWS Pricing Calculator is a web-based planning tool that customers can use to create estimates for their AWS use cases. They can use it to model their solutions before building them, explore the AWS service price points, and review the calculations behind their estimates. Therefore, the correct answer is A. You can learn more about AWS Pricing Calculator and how it works from this page.

NEW QUESTION # 487

Which AWS service or feature is an example of a relational database management system?

- A. Amazon Athena
- B. Amazon Kinesis Data Streams

- C. Amazon S3 Select
- **D. Amazon Redshift**

Answer: D

Explanation:

Amazon Redshift is a fully managed, petabyte-scale data warehouse service in the cloud. You can start with just a few hundred gigabytes of data and scale to a petabyte or more. This enables you to use your data to acquire new insights for your business and customers. Amazon Redshift is a relational database management system (RDBMS), so it is compatible with other RDBMS applications. You can use standard SQL to query the data.

NEW QUESTION # 488

.....

Do some fresh things each day that moves you out of your comfort zone. If you stay cozy every day, you will gradually become lazy. Now, you have the opportunity to change your current conditions. Our CLF-C02 real exam dumps are specially prepared for you. Try our CLF-C02 study tool and absorb new knowledge. After a period of learning, you will find that you are making progress.
