

100% Pass Quiz Fantastic CASPO-001 - Reliable Certified Agile Scrum Product Owner (CASPO) Exam Questions

CASPO-001 Certified Agile Scrum Product Owner Practice Exam

1. Which of the following statements best reflects an Agile principle from the Agile Manifesto?

- A) Following a rigid plan no matter what
- B) Customer collaboration over contract negotiation
- C) Comprehensive documentation over working software
- D) Strict adherence to initial requirements

Answer: B

Explanation: The Agile Manifesto values customer collaboration over contract negotiation, emphasizing ongoing customer engagement and feedback.

2. What is the primary focus of Agile methodologies?

- A) Maximizing documentation
- B) Delivering value incrementally
- C) Minimizing team interactions
- D) Extending project timelines

Answer: B

Explanation: Agile methodologies focus on delivering value incrementally through iterative progress and continuous feedback.

3. Which of the following best describes Scrum within the Agile framework?

- A) A sequential process for project management
- B) A prescriptive methodology with fixed roles and events
- C) An iterative framework that includes roles, events, and artifacts
- D) A tool for creating Gantt charts

Answer: C

Explanation: Scrum is an iterative framework that defines specific roles, events, and artifacts to help teams work in short cycles.

4. What distinguishes Scrum from traditional project management approaches?

- A) Fixed scope and predetermined deadlines
- B) Emphasis on documentation over working software
- C) Incremental delivery and adaptive planning
- D) Centralized command and control

Answer: C

Explanation: Scrum emphasizes incremental delivery and adaptive planning, contrasting with the fixed scope and detailed upfront planning of traditional project management.

5. Which role is responsible for maximizing the value of the product in Scrum?

- A) Scrum Master
- B) Product Owner
- C) Development Team
- D) Project Manager

Answer: B

Explanation: The Product Owner is charged with maximizing the product's value by prioritizing work based on stakeholder and customer needs.

GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q13-Q18):

NEW QUESTION # 13

What does it mean to say that an event has a time-box?

- A. The event must take at least a minimum amount of time.
- **B. The event can take no more than a maximum amount of time.**
- C. The event must happen by a given time.
- D. The event must happen at a set time.

Answer: B

Explanation:

In Scrum, a time-box is a maximum duration for an event, ensuring focus and efficiency. The Scrum Guide states: "All events are time-boxed, meaning they have a maximum duration." For example, Sprint Planning is

8 hours max, Daily Scrum is 15 minutes, etc. The event can end earlier if its purpose is achieved, but it cannot exceed the time-box. Option A refers to scheduling, not time-boxing. Option B implies a deadline, not a duration limit. Option C suggests a minimum, which isn't part of the definition. Thus, D is correct.

NEW QUESTION # 14

The Product Owner's authority to change and update the Product Backlog is unlimited, except for: (Choose the best answer)

- A. Work for which impediments exist that the Scrum Master still needs to resolve.
- B. Decisions by the CFO, the CEO, or the board of directors.
- **C. Nothing. The entire organization must respect a Product Owner's decisions.**
- D. High impact changes that have not been approved by the change request board.
- E. Technical and architectural work that needs to be done first, as indicated by the chief enterprise architect.
- F. Decisions by the chief program manager.

Answer: C

Explanation:

The Scrum Guide grants the Product Owner sole authority over the Product Backlog: "The Product Owner is one person, not a committee... For Product Owners to succeed, the entire organization must respect their decisions." No external roles or processes override this.

* A, C, D, E: These introduce roles (CFO, CEO, program manager, architect, change board) not recognized in Scrum as limiting the Product Owner's authority.

* F: Impediments affect execution, not the Product Owner's right to update the backlog.

NEW QUESTION # 15

Who should know the most about the progress toward a business objective or a release? (Choose the best answer)

- A. The Scrum Master
- B. The Project Manager
- C. The Product Owner
- D. The Developers

Answer: C

Explanation:

The Scrum Guide states: "The Product Owner is accountable for maximizing the value of the product resulting from the work of the Scrum Team" and for "developing and explicitly communicating the Product Goal." This makes them the primary person responsible for tracking progress toward business objectives or releases, as they align the Product Backlog with stakeholder needs and strategic goals. Option B (Developers) focuses on Sprint-level execution, not overarching objectives. Option C (Scrum Master) ensures process adherence, not business progress. Option D (Project Manager) isn't a Scrum role. Thus, A is correct.

NEW QUESTION # 16

What pre-conditions must be fulfilled in order to allow Sprint Planning to begin? (Choose the best answer)

- A. Enough "Ready" Product Backlog to fill the Sprint
- B. There are no such pre-conditions
- C. A fully refined Product Backlog
- D. A clear and non-negotiable Sprint Goal
- E. Formal budget approval to conduct another Sprint
- F. A clear but negotiable business objective for the Sprint

Answer: B

Explanation:

Scrum imposes no formal pre-conditions for Sprint Planning beyond the Sprint starting. The Scrum Guide states: "Sprint Planning initiates the Sprint by laying out the work to be performed for the Sprint."

* A: A fully refined backlog isn't required; refinement is ongoing.

* B: Budget approval isn't a Scrum concept.

* C, D: The Sprint Goal is defined during, not before, Sprint Planning.

* E: Some "Ready" items help, but it's not mandatory; planning can refine items.

NEW QUESTION # 17

What is the primary purpose of the Scrum Master at the Daily Scrum? (Choose the best answer)

- A. Manage the time-box
- B. Prevent interruptions
- C. Ensure the three questions are answered
- D. Document impediments

Answer: A

Explanation:

The Scrum Master ensures the Daily Scrum is effective, with a key focus on its 15-minute time-box. The Scrum Guide states: "The Scrum Master teaches the Developers to keep it within the 15-minute timebox." While they may support other aspects, managing the time-box is primary when present.

* A: Correct-time-box adherence is key.

* B: The three questions are a practice, not mandatory; Developers run the event.

NEW QUESTION # 18

.....
