HPE0-J68 Pass Guarantee, New HPE0-J68 Exam Question

PassSureExam is a wonderful study platform that contains our hearty wish for you to pass the HPE0-J68 exam by our HPE0-J68 exam materials. So our responsible behaviors are our instinct aim and tenet. By devoting in this area so many years, we are omnipotent to solve the problems about the HPE0-J68 learning questions with stalwart confidence. And as long as you study with our HPE0-J68 exam questions, you will find that our HPE0-J68 learning guide is the best for the outstanding quality and high pass rate as 99% to 100%.

HPE Storage Solutions Sample Questions (Q253-Q258):

NEW QUESTION # 253

Exhibit:

The customer has upgraded the first of their two HPE StoreServ 8200 to the latest inform OS storage configuration to support oracle database volume to utilize HPE 3PAR compression .

Based on the analysis of the array .what would be your suggestion to implement the requested change?

- A. Configure the source-side the compression to offload compression to the Host

- B. Consider adding another node pair for compression to work efficiently
- **C. Install the catalyst agent on the oracle server to enable inline compression on the selected VV**
- D. Balance the workloads between the arrays to have enough headroom for compression

Answer: C

NEW QUESTION # 254

Which technology is used in a B-series SAN switch to prevent communicate between unauthorized device?

- **A. Port isolation**
- B. VSAN
- C. IVR
- D. Zoning

Answer: A

NEW QUESTION # 255

A customer uses Recovery manager central for Vmware (RMC-V). They need to ability to perform granular recovery of application item directly from backups... Which solution integrates with RMC-V to provide the desired requirements?

- A. Netbackup
- B. CommVault
- C. StoreOnce cloudbank
- **D. Veeam Backup & Replication**

Answer: D

Explanation:

Veeam Backup & Replication integrates with HPE Recovery Manager Central for VMware (RMC-V) to provide granular recovery of application items directly from backups. This integration allows users to perform item-level recovery for applications like Microsoft Exchange, SQL Server, Active Directory, and others, directly from RMC-V backups, providing a seamless and efficient recovery process.

NEW QUESTION # 256

A customer need to server 40TB via file protocols including SMB and FTP to a board range of client operating system in one location .security protocol dictate that data must be encrypted with FIPS 140-2 compliance. Which HPE storage solution you recommend?

- A. HPE StoreOnce 5500with data in flight encryption .
- B. HPE XP7 storage with encryption ready disk adapters
- **C. HPE 3PAR 8200 using self-encrypting drive with 3PAR file persona**
- D. HPE MSA 2052 storage with HPE StoreEasy 3850 Gateway

Answer: C

Explanation:

For a customer needing to serve 40TB of data via file protocols such as SMB and FTP while ensuring FIPS 140-2 compliance, the best solution is HPE 3PAR 8200 with self-encrypting drives (SEDs) combined with 3PAR File Persona. The self-encrypting drives ensure that data at rest is encrypted to meet FIPS 140-2 compliance, while the 3PAR File Persona enables file services directly from the 3PAR storage system, supporting SMB, FTP, and other protocols natively. This combination provides secure, high-performance file storage that meets regulatory requirements.
