SC-100 Most Reliable Questions & Customized SC-100 Lab Simulation

Perhaps now you are one of the candidates of the SC-100 exam, perhaps now you are worried about not passing the exam smoothly. Now we have good news for you: our SC-100 study materials will solve all your worries and help you successfully pass it. With the high pass rate as 98% to 100%, you will find that we have the best SC-100 learning braindumps which contain the most accurate real exam questions.

Microsoft Cybersecurity Architect Sample Questions (Q48-Q53):

NEW QUESTION # 48

You are designing a security strategy for providing access to Azure App Service web apps through an Azure Front Door instance. You need to recommend a solution to ensure that the web apps only allow access through the Front Door instance.

Solution: You recommend access restrictions based on HTTP headers that have the Front Door ID.

Does this meet the goal?

- A. Yes
- B. No

Answer: A

Explanation:

Explanation

<https://docs.microsoft.com/en-us/azure/frontdoor/front-door-faq#how-do-i-lock-down-the-access-to-my-backend>

NEW QUESTION # 49

You have a Microsoft 365 E5 subscription. The subscription contains 500 devices that run Windows 11 Pro and are enrolled in Microsoft Intune.

You need to evaluate the use of Microsoft Defender Vulnerability Management to provide recommended configuration changes for the devices.

Which Endpoint security settings should you use to review the recommended changes?

- A. Security tasks
- B. End point detection and response
- C. Device compliance
- D. Attack surface reduction

Answer: D

Explanation:

For Microsoft Intune enrolled Windows 11 Pro devices protected by Microsoft Defender Vulnerability Management, the Endpoint security policy for Attack Surface Reduction would provide recommended configuration changes. This policy allows you to manage settings for Microsoft Defender Antivirus and the Windows Security experience on your devices, enabling you to implement best practices and mitigate potential vulnerabilities.

Reference:

<https://learn.microsoft.com/en-us/defender-endpoint/overview-attack-surface-reduction>

NEW QUESTION # 50

Your organization is in the process of moving its on-premises VMs into Azure; you're using Azure Backup to protect these VMs. The Chief Information Officer is concerned about ransomware attacks and has asked for an Azure native cost-effective solution that can be initiated in case of a ransomware attack, and a backup restoration is necessary.

What security configurations can you implement?

- A. Backup to Azure Data Box
- B. A Veeam backup solution
- C. Enable soft delete
- D. Require PINs for critical operations

Answer: C,D

Explanation:

Option A is incorrect because it's not a cost-effective solution

Option B is incorrect because it's not in the native Azure solution

Options C is correct because as part of adding an extra layer of authentication for critical operations, you're prompted to enter a security PIN when you perform Stop Protection with Delete data and Change Passphrase operations, Option D is correct because enabling this security feature protects your backup from accident and malicious deletion, adding a layer of security.

Reference:

NEW QUESTION # 51

You have an Azure subscription that is used as an Azure landing zone for an application. You need to evaluate the security posture of all the workloads in the landing zone. What should you do first?

- A. Configure Continuous Integration/Continuous Deployment (CI/CD) vulnerability scanning.
- **B. Add Microsoft Sentinel data connectors.**
- C. Enable the Defender plan for all resource types in Microsoft Defender for Cloud.
- D. Obtain Azure Active Directory Premium Plan 2 licenses.

Answer: B

Explanation:

Topic 2, Fabrikam, Inc

Overview

Fabrikam, Inc. is an insurance company that has a main office in New York and a branch office in Paris.

On-premises Environment

The on-premises network contains a single Active Directory Domain Services (AD DS) domain named corp.fabrikam.com

Azure Environment

Fabrikam has the following Azure resources:

- * An Azure Active Directory (Azure AD) tenant named fabrikam.onmicrosoft.com that syncs with corp.fabrikam.com
- * A single Azure subscription named Sub1
- * A virtual network named Vnet1 in the East US Azure region
- * A virtual network named Vnet2 in the West Europe Azure region
- * An instance of Azure Front Door named FD1 that has Azure Web Application Firewall (WAF) enabled
- * A Microsoft Sentinel workspace
- * An Azure SQL database named ClaimsDB that contains a table named ClaimDetails
- * 20 virtual machines that are configured as application servers and are NOT onboarded to Microsoft Defender for Cloud
- * A resource group named TestRG that is used for testing purposes only
- * An Azure Virtual Desktop host pool that contains personal assigned session hosts. All the resources in Sub1 are in either the East US or the West Europe region.

Partners

Fabrikam has contracted a company named Contoso, Ltd. to develop applications. Contoso has the following infrastructure-

- * An Azure AD tenant named contoso.onmicrosoft.com
- * An Amazon Web Services (AWS) implementation named ContosoAWS1 that contains AWS EC2 instances used to host test workloads for the applications of Fabrikam. Developers at Contoso will connect to the resources of Fabrikam to test or update applications. The developers will be added to a security group named Contoso Developers in fabrikam.onmicrosoft.com that will be assigned to roles in Sub1.

The ContosoDevelopers group is assigned the db.owner role for the ClaimsDB database.

Compliance Event

Fabrikam deploys the following compliance environment:

- * Defender for Cloud is configured to assess all the resources in Sub1 for compliance to the HIPAA HITRUST standard.
- * Currently, resources that are noncompliant with the HIPAA HITRUST standard are remediated manually.
- * Qualys is used as the standard vulnerability assessment tool for servers.

Problem Statements

The secure score in Defender for Cloud shows that all the virtual machines generate the following recommendation-. Machines should have a vulnerability assessment solution.

All the virtual machines must be compliant in Defender for Cloud.

ClaimApp Deployment

Fabrikam plans to implement an internet-accessible application named ClaimsApp that will have the following specification

- * ClaimsApp will be deployed to Azure App Service instances that connect to Vnet1 and Vnet2.
- * Users will connect to ClaimsApp by using a URL of <https://claims.fabrikam.com>.
- * ClaimsApp will access data in ClaimsDB.
- * ClaimsDB must be accessible only from Azure virtual networks.
- * The app services permission for ClaimsApp must be assigned to ClaimsDB.

Application Development Requirements

Fabrikam identifies the following requirements for application development:

- * Azure DevTest labs will be used by developers for testing.
- * All the application code must be stored in GitHub Enterprise.

* Azure Pipelines will be used to manage application deployments.

* All application code changes must be scanned for security vulnerabilities, including application code or configuration files that contain secrets in clear text. Scanning must be done at the time the code is pushed to a repository.

Security Requirement

Fabrikam identifies the following security requirements:

* Internet-accessible applications must prevent connections that originate in North Korea.

* Only members of a group named InfraSec must be allowed to configure network security groups (NSGs) and instances of Azure Firewall, VJM, and Front Door in Sub1.

* Administrators must connect to a secure host to perform any remote administration of the virtual machines. The secure host must be provisioned from a custom operating system image.

AWS Requirements

Fabrikam identifies the following security requirements for the data hosted in ContosoAWSV.

* Notify security administrators at Fabrikam if any AWS EC2 instances are noncompliant with secure score recommendations.

* Ensure that the security administrators can query AWS service logs directly from the Azure environment.

Contoso Developer Requirements

Fabrikam identifies the following requirements for the Contoso developers:

* Every month, the membership of the ContosoDevelopers group must be verified.

* The Contoso developers must use their existing contoso.onmicrosoft.com credentials to access the resources in Sub1.

* The Comoro developers must be prevented from viewing the data in a column named MedicalHistory in the ClaimDetails table.

Compliance Requirement

Fabrikam wants to automatically remediate the virtual machines in Sub1 to be compliant with the HIPAA HITRUST standard. The virtual machines in TestRG must be excluded from the compliance assessment.

NEW QUESTION # 52

You have a Microsoft 365 subscription and an Azure subscription. Microsoft 365 Defender and Microsoft Defender for Cloud are enabled.

The Azure subscription contains 50 virtual machines. Each virtual machine runs different applications on Windows Server 2019.

You need to recommend a solution to ensure that only authorized applications can run on the virtual machines. If an unauthorized application attempts to run or be installed, the application must be blocked automatically until an administrator authorizes the application.

Which security control should you recommend?

- A. app protection policies in Microsoft Endpoint Manager
- **B. adaptive application controls in Defender for Cloud**
- C. Azure Security Benchmark compliance controls in Defender for Cloud
- D. app discovery anomaly detection policies in Microsoft Defender for Cloud Apps

Answer: B

Explanation:

Adaptive application controls are an intelligent and automated solution for defining allowlists of known-safe applications for your machines.

Often, organizations have collections of machines that routinely run the same processes.

Microsoft Defender for Cloud uses machine learning to analyze the applications running on your machines and create a list of the known-safe software. Allowlists are based on your specific Azure workloads, and you can further customize the recommendations using the instructions below.

When you've enabled and configured adaptive application controls, you'll get security alerts if any application runs other than the ones you've defined as safe.

Reference:

<https://docs.microsoft.com/en-us/azure/defender-for-cloud/adaptive-application-controls>

<https://docs.microsoft.com/en-us/mem/intune/apps/app-protection-policy>

NEW QUESTION # 53

.....

As is known to us, there are best sale and after-sale service of the SC-100 certification training materials all over the world in our

company. Our company has employed many excellent experts and professors in the field in the past years, in order to design the best and most suitable SC-100 Latest Questions for all customers. More importantly, it is evident to all that the SC-100 training materials from our company have a high quality, and we can make sure the quality of our products will be higher than other study materials in the market.

SC-100 Most Reliable Questions: <https://www.realexamfree.com/SC-100-real-exam-dumps.html>

So now our SC-100 actual test questions and answers can help you do these and get certifications 100% for indeed, Microsoft SC-100 Valid Test Cost We also offer a web-based test engine with an online user-friendly interface for experiencing real exam scenarios, What you Get with Microsoft SC-100 PDF Dumps, Our company is professional brand established for compiling SC-100 exam materials for candidates, and we aim to help you to pass the examination as well as getting the related SC-100 certification in a more efficient and easier way.

To sum up, Microsoft Cybersecurity Architect exam training torrent really does good SC-100 to help you pass real exam, Human capital is the most valuable asset that you will own over your lifecycle.

So now our SC-100 actual test questions and answers can help you do these and get certifications 100% for indeed, We also offer a web-based test engine with an online user-friendly interface for experiencing real exam scenarios.

Marvelous Microsoft SC-100 Valid Test Cost - SC-100 Free Download

What you Get with Microsoft SC-100 PdfDumps, Our company is professional brand established for compiling SC-100 exam materials for candidates, and we aim to help you to pass the examination as well as getting the related SC-100 certification in a more efficient and easier way.

If you are confused that how you emit your time for your study Customized SC-100 Lab Simulation due to your actual reason like you are a businessman or any kind of your activity in your life so you don't worry about this, you can easily prepare your SC-100 exam, because our professional make the product very easy to understand as well as you will happy after using SC-100 PDF practice.
