#### NEW QUESTION # 28

Medium Inc is on a Standard Slack plan and has recently hired Preethi as a contractor to take care of their food & beverage service. Preethi is on a six-month contract, supporting many teams within the food & beverage department. Each team has set up a public channel to triage requests, and Preethi is responsible for responding to these requests.

What type of workspace access would be most suitable for Preethi?

- A. Single-channel Guest with deactivation time in six months
- B. Member with deactivation time in six months
- C. Member with no deactivation time
- D. Multi-channel Guest with deactivation time in six months

**Answer: D**

Explanation:

Since Preethi needs access to multiple channels but only for a limited time:

"A Multi-channel Guest is the best choice when someone needs access to more than one channel but does not need full member access across the workspace. You can also set an expiration date for their access." Single-channel Guest would be too limiting, and full Member access would provide more access than necessary, posing a security risk.
