## PRINCE2 Agile Foundation Sample Questions (Q58-Q63):

### NEW QUESTION # 58

Which of the following describes shared attitudes, values, and goals?

- A. Leadership
- B. Management
- C. Co-creation
- **D. Culture**

**Answer: D**

Explanation:

Culture refers to the collective attitudes, values, beliefs, and goals shared by a group or organization. It shapes how people behave, make decisions, and interact. In PRINCE2 Agile, understanding and adapting organizational culture is critical for successful agile adoption and delivery.

Leadership (B) influences culture but is distinct, co-creation (C) is a collaborative approach, and management (D) relates to planning and control activities.

A positive, agile-friendly culture fosters openness, trust, and continuous improvement.

### NEW QUESTION # 59

Whose interests are specifically represented by the senior supplier?

1. Those ensuring the project is value for money.
2. Those who will use the project's products.
3. Those who will be developing the project's products.
4. Those responsible for the project's technical integrity.

- A. 2 and 3
- **B. 3 and 4**
- C. 1 and 4
- D. 1 and 2

**Answer: B**

### NEW QUESTION # 60

What is the MOST important when blending PRINCE2 Project Management with agile?

- **A. Adopting agile mindset**
- B. Using agile techniques
- C. Following agile processes
- D. Fostering psychological safety

**Answer: A**

Explanation:

When blending PRINCE2 with agile, adopting an agile mindset is the most important factor for success. The mindset involves embracing agile values such as flexibility, collaboration, delivering value incrementally, and being responsive to change. Without this cultural and attitudinal shift, the use of agile techniques or processes becomes superficial and fails to deliver the benefits of agility.

PRINCE2 is a highly structured project management method with defined roles, processes, and controls. Integrating agile methods requires more than just overlaying practices like Scrum or Kanban; it demands a fundamental shift in thinking about leadership, governance, team dynamics, and customer involvement.

Fostering psychological safety (B) is indeed important because it allows teams to express ideas, take risks, and innovate without fear of negative consequences. However, this psychological safety is a component of the broader agile mindset.

Using agile techniques (C) and following processes (D) are enablers but do not guarantee agile success. Teams may mechanically perform ceremonies without understanding the principles behind them.

The PRINCE2 Agile guidance emphasizes that the mindset must permeate all levels of the project and organization. Leaders and teams should adopt agility as a philosophy, not just a set of practices.

### NEW QUESTION # 61

Which is an advantage of using the PRINCE2 Agile behavior 'collaboration'?

- A. It allows people to provide cover for one another
- B. It uses experimentation to expand requirements
- C. It uses learning to help improve products
- D. It ensures that there are no surprises

**Answer: C**

### NEW QUESTION # 62

Which statement about velocity is CORRECT?

- A. It is shown by the ideal line on a burndown chart
- B. It describes how much work is getting done
- C. It tracks the time and cost of a timebox
- D. It is based on the concept of rationalism

**Answer: B**

Explanation:
