

# 1Z0-1109-25 Latest Dumps Questions & 1Z0-1109-25 Latest Practice Materials

P.S. Free 2025 Oracle 1Z0-1109-25 dumps are available on Google Drive shared by BraindumpStudy:  
[https://drive.google.com/open?id=1XZBKoXe-N25tn\\_s03uaKqIeVckSemKzb](https://drive.google.com/open?id=1XZBKoXe-N25tn_s03uaKqIeVckSemKzb)

Our team regularly modified it to provide you with the real and updated 1Z0-1109-25 pdf exam questions every time. The applicants are informed of these new changes till three months after purchase from the BraindumpStudy. The BraindumpStudy gives its applicants a Oracle 1Z0-1109-25 web-based practice test software that doesn't require installation. Oracle 1Z0-1109-25 Practice Test is compatible with all operating systems, including iOS, Mac, and Windows. You can use this Oracle 1Z0-1109-25 practice test on any browser on any device anywhere. You need to sign in to a verified account on our website to use the entire premium Oracle 1Z0-1109-25 practice test questions.

This version is designed especially for those 1Z0-1109-25 test takers who cannot go through extensive Oracle 1Z0-1109-25 practice sessions due to a shortage of time. Since the Oracle 1Z0-1109-25 PDF file works on smartphones, laptops, and tablets, one can use Oracle 1Z0-1109-25 dumps without limitations of place and time. Additionally, these Oracle 1Z0-1109-25 PDF questions are printable as well.

## Pass Guaranteed Quiz Oracle - 1Z0-1109-25 Fantastic Latest Dumps Questions

Did you have bad purchase experience that after your payment your emails get no reply, your contacts with the site become useless? Stop pursuing cheap and low-price 1Z0-1109-25 test simulations. You get what you pay for. You may think that these electronic files don't have much cost. In fact, If you want to release valid & latest Oracle 1Z0-1109-25 test simulations, you need to get first-hand information, we spend a lot of money to maintain and development good relationship, we well-paid hire experienced education experts. We believe high quality of 1Z0-1109-25 test simulations is the basement of enterprise's survival.

## Oracle Cloud Infrastructure 2025 DevOps Professional Sample Questions (Q42-Q47):

#### NEW QUESTION # 42

Which OCI DevOps project resource is responsible for defining the stages for compiling, testing, and running software applications before deployment?

- A. Development pipelines
- B. Deployment pipelines
- C. Integration pipelines
- **D. Build pipelines**

**Answer: D**

Explanation:

Build pipelines in OCI DevOps are responsible for defining the stages involved in compiling, testing, and running software applications. These pipelines automate the process of building the code, running unit tests, scanning for vulnerabilities, and packaging the software, all of which occur before deploying the application.

#### NEW QUESTION # 43

Your team is working on a project to deploy a microservices-based application on a cloud platform using Terraform. Each microservice has specific configurations and dependencies, and you want to ensure modularity, reusability, and consistency across deployments.

Which Terraform feature would you use to achieve these objectives efficiently?

- A. Terraform Providers
- **B. Terraform Modules**
- C. Terraform Variables
- D. Terraform Workspaces

**Answer: B**

Explanation:

Terraform Modules are used to organize and group related configuration resources into reusable components. By using modules, you can achieve modularity, reusability, and consistency across different deployments, making it easier to manage complex infrastructure setups.

For a microservices-based application, where each microservice has specific configurations and dependencies, modules allow you to define the infrastructure for each microservice in a modular way. This helps to maintain clean, reusable code and ensures consistency across deployments.

#### NEW QUESTION # 44

As a DevOps engineer working on an OCI project, you're setting up a deployment pipeline to automate your application deployments.

Which statement is false about deployment pipeline in OCI DevOps?

- A. You can add a Traffic Shift stage that routes the traffic between two environments.
- B. You can add a Wait stage that adds a specified duration of delay in the pipeline.
- C. You can add an Approval stage that pauses the deployment for a specified duration for manual decision from the approver.
- **D. Using deployment pipeline, you can deploy helm charts in OCI Function.**

**Answer: D**

Explanation:

Helm charts are used to manage Kubernetes deployments, not OCI Functions. Helm charts are deployed to Kubernetes clusters, such as OCI Container Engine for Kubernetes (OKE), to manage containerized applications. OCI Functions are serverless and do not use Helm charts for deployment.

#### NEW QUESTION # 45

As an engineer building and deploying applications using an OCI DevOps project, which two capabilities can help ensure the security and reliability of the code in the build and deployment pipelines? (Choose two.)

- A. Using version control tools like Git or SVN to track and manage changes in the codebase
- B. Using third-party tools like Ansible, Terraform, or OverOps to analyze code for security defects or bugs in code quality
- C. Using Application Dependency Management (ADM) to identify security weaknesses in software applications by checking their dependencies
- D. Using JIRA to track user stories and bug fixes in the development process
- E. Using third-party tools like Sonatype, SonarQube, or OverOps to analyze code for security defects or bugs in code quality

**Answer: C,E**

Explanation:

Application Dependency Management (ADM) is a tool used to identify security weaknesses in software applications by analyzing their dependencies. Dependencies can often introduce vulnerabilities, and managing them properly is a critical part of ensuring application security.

Third-party tools like Sonatype and SonarQube can be used to analyze code for security defects or bugs in code quality. These tools help in identifying vulnerabilities, code smells, and other issues, which can improve the overall security and reliability of the code during the build process.

#### NEW QUESTION # 46

As a DevOps engineer working with OCI DevOps, you are managing artifacts for a microservices application. Based on your understanding of working with DevOps projects and artifacts, which statement is true?

- A. It is recommended to make artifacts immutable to prevent any modifications after they are uploaded.
- B. Artifacts can be used directly by OCI DevOps without the need for them to be located or mirrored in an OCI Artifact or Container registry.
- C. In the build pipeline, to store the Managed Build stage output artifacts, you need an OCI Object storage.
- D. Once created, the artifact's name, type, and source cannot be modified.

**Answer: A**

Explanation:

Making artifacts immutable ensures that the build artifacts are not altered after being published. This is a best practice to maintain the integrity and consistency of the artifacts used in deployments, preventing unintentional changes that could introduce issues during subsequent deployment stages.

#### NEW QUESTION # 47

.....

"It's never too old to learn", preparing for a 1Z0-1109-25 certification is becoming a common occurrence. Especially in the workplace of today, a variety of training materials and tools always makes you confused and waste time to test its quality. In fact, you can totally believe in our 1Z0-1109-25 Test Questions for us 100% guarantee you pass 1Z0-1109-25 exam. If you unfortunately fail in the exam after using our 1Z0-1109-25 test questions, you will also get a full refund from our company by virtue of the proof certificate.

**1Z0-1109-25 Latest Practice Materials:** [https://www.braindumpstudy.com/1Z0-1109-25\\_braindumps.html](https://www.braindumpstudy.com/1Z0-1109-25_braindumps.html)

Oracle 1Z0-1109-25 Latest Dumps Questions So even if you are a newcomer, you don't need to worry that you can't understand the contents, Oracle 1Z0-1109-25 Latest Dumps Questions After that mentioned above, if you have not received it within 2 hours, please contact us, And we can say that 1Z0-1109-25 test questions won't give you any unsatisfactory experience, Our accurate 1Z0-1109-25 Dumps collection offers free demo.

Create, save, and reuse powerful particle effects, How to use OneNote's Audio 1Z0-1109-25 Recording tool and other sources to add audio to Pages, So even if you are a newcomer, you don't need to worry that you can't understand the contents.

### Oracle 1Z0-1109-25 Unparalleled Latest Dumps Questions

After that mentioned above, if you have not received it within 2 hours, please contact us, And we can say that 1Z0-1109-25 Test Questions won't give you any unsatisfactory experience.

Our accurate 1Z0-1109-25 Dumps collection offers free demo, Our 1Z0-1109-25 exam bootcamp files will be your only option.
