The NCP-US certification is a valuable credential for IT professionals who work with Nutanix storage solutions. It demonstrates their expertise in designing, deploying, and managing Nutanix storage solutions, and validates their ability to support business-critical applications and workloads. Nutanix Certified Professional - Unified Storage v6.5 certification is recognized globally and is highly regarded by employers who are looking for skilled professionals to manage their storage infrastructure.

The NCP-US exam focuses on the storage capabilities of the Nutanix platform, including the deployment and configuration of Nutanix storage services, data protection and disaster recovery, and storage optimization. NCP-US Exam is designed for IT professionals who are responsible for managing and maintaining Nutanix storage solutions in enterprise environments. Successful completion of the exam demonstrates the ability to design, implement, and support Nutanix storage solutions.

The NCP-US exam is based on the Nutanix Enterprise Cloud OS, which is a software-defined infrastructure platform designed for building and operating hybrid clouds. NCP-US exam tests the candidate's ability to work with Nutanix storage solutions and covers topics such as Nutanix storage architecture, file and block services, data protection and disaster recovery, and storage management and monitoring.
