Salesforce B2B Commerce for Administrators Accredited Professional Sample Questions (Q74-Q79):

NEW QUESTION # 74

An Administrator does not want to use the default domain associated with a B2B Commerce store. In which two ways should the Administrator configure Salesforce to allow for a custom domain?

- A. Add the custom domain to the B2B store in Experience Builder.
- **B. Configure a custom domain and CDN in Setup.**
- C. Enable Custom URL Redirect in the Administration panel of the store.
- **D. Create a Custom URL in Setup.**

Answer: B,D

Explanation:

To configure Salesforce for a custom domain for a B2B Commerce store, the Administrator should A. Create a Custom URL in Setup, defining the custom domain to be used, and C. Configure a custom domain and CDN in Setup, ensuring that the domain is properly linked to the Salesforce environment and content is delivered efficiently via a Content Delivery Network (CDN).

NEW QUESTION # 75

Which three sub-flows are part of the standard B2B Main Checkout Flow template? 09m 39s

- **A. Billing Address**
- B. Error
- **C. Shipping Method**
- D. Inventory
- **E. Taxes**

Answer: A,C,E

Explanation:

The standard B2B Main Checkout Flow template includes sub-flows for Shipping Method (A), Billing Address (B), and Taxes (E). These sub-flows are integral to the checkout process, ensuring that shipping, billing, and tax calculations are handled efficiently and accurately during the checkout procedure.

NEW QUESTION # 76

An Administrator wants to leverage an existing Salesforce Billing product implementation in their B2B Commerce storefront. What should the Administrator do to achieve this?

- A. Set the collection of payment details in the B2B components.
- **B. Create a custom Component in Experience Builder.**
- C. Set Field-Level Permissions for the Buyer Profile.
- D. Add custom Fields to the Order Object.

Answer: B

Explanation:

To leverage an existing Salesforce Billing product implementation in their B2B Commerce storefront, an administrator should D. Create a custom Component in Experience Builder. This custom component can integrate Salesforce Billing functionality into the B2B Commerce storefront, allowing for seamless invoice and payment processing within the commerce experience.

NEW QUESTION # 77

An Administrator has created a new store and is verifying that a particular user who is a Buyer Manager can review the activity of

other users. When logging in an error message shows up: "Looks like this portal user is not a member of an experience or your experience is down. Ask your Salesforce admin or channel manager for help." How can this be resolved?

- A. Verify this member's account is in a Buyer Group for the store.
- B. Adjust the Permission Set Group to include the needed Permission Set.
- **C. Verify Membership by Profile under Administration in Experience Builder.**
- D. Verify Membership by Permission Set under Administration in Experience Builder.

Answer: C

Explanation:

To resolve the issue where a Buyer Manager cannot review the activity of other users due to an error message, the administrator should D. Verify Membership by Profile under Administration in Experience Builder. This ensures that the user has the appropriate access and membership settings to participate in the B2B Commerce experience and perform their role effectively.

NEW QUESTION # 78

An Administrator is analyzing requirements around a customer's category hierarchy for a multi-language site. They have a set of 110 categories which contain many child categories.

Which consideration should the Administrator keep in mind prior to implementation?

- A. There is a limit of 100 categories total across all languages
- B. There is a limit of 50 categories total across all languages
- C. Only 50 categories can be localized per language
- **D. There is a depth limit for the number of child categories**

Answer: D

Explanation:

When implementing a category hierarchy for a multi-language site with many child categories, an important consideration is C. There is a depth limit for the number of child categories. Salesforce B2B Commerce imposes limits on the depth of the category hierarchy, affecting how deeply nested child categories can be structured within the overall category architecture.
