

# New AP-215 Test Preparation, Latest AP-215 Test Pdf

## Top 150 Questions & Answers

1. To register a vehicle in New Jersey, you must be age \_\_\_\_ or older.

> 17

To register a motor vehicle in New Jersey, you must be at least 17 years old. You must have proof of identity and proof of vehicle ownership.

2. You may avoid a traffic signal by driving on public or private property:

> If an officer directs you to do so.

It is a traffic violation to operate a motor vehicle on public or private property to avoid a traffic control signal or sign unless an officer directs traffic to do so.

3. The Implied Consent Law:

> Means drivers consent to a breath test when suspected of drinking and driving.

The Implied Consent Law means that, by driving on New Jersey roads, you are giving your consent to undergo a breath test if you are arrested for an alcohol-related offense.

4. A five-ounce glass of wine contains the same amount of alcohol as:

> One 12-ounce can of beer.

It is important to remember that the average beer contains about the same amount of alcohol as the average drink of whiskey or wine. A five-ounce glass of wine (12 percent alcohol), a 12-ounce can or bottle of beer, and 1.5 ounces of 86-proof liquor all contain approximately the same amount of alcohol. A person's ability to drive will be equally impaired by the same amount of alcohol no matter what kind of alcoholic beverage they drink.

P.S. Free & New AP-215 dumps are available on Google Drive shared by PDFBraindumps: <https://drive.google.com/open?id=16Zeu0QA8wkK7ry0-DOYtHPHHI2VsybBS>

This cost-effective exam product is made as per the current content of the Salesforce AP-215 examination. Therefore, using PDFBraindumps the actual Salesforce AP-215 dumps will guarantee your successful attempt at the AP-215 Certification Exam. For the convenience of customers, we have designed AP-215 pdf dumps, desktop Salesforce AP-215 practice exam software, and Salesforce AP-215 web-based practice test.

The PDFBraindumps Marketing Cloud Intelligence Accredited Professional (AP-215) PDF dumps file work with all devices and operating system. You can easily install Marketing Cloud Intelligence Accredited Professional (AP-215) exam questions file on your desktop computer, laptop, tabs, and smartphone devices and start Marketing Cloud Intelligence Accredited Professional (AP-215) exam dumps preparation without wasting further time. Whereas the other two PDFBraindumps Salesforce AP-215 Practice Test software is concerned, both are the mock Marketing Cloud Intelligence Accredited Professional (AP-215) exam that will give you a real-time AP-215 practice exam environment for preparation.

**Perfect New AP-215 Test Preparation & Leading Offer in Qualification Exams & Useful Latest AP-215 Test Pdf**

Many candidates test again and again since the AP-215 test cost for is not cheap. Why not choose to pass exam certainly with exam study guide materials? You are under great pressure before passing the real test without Salesforce AP-215 Study Guide Pdf. It may have a big impact on your career and life. Why not take a shortcut while facing difficulties? Why not trust latest version of PDFBraindumps AP-215 study guide PDF and give you a good chance?

## Salesforce Marketing Cloud Intelligence Accredited Professional Sample Questions (Q48-Q53):

### NEW QUESTION # 48

Which two statements are correct regarding the Parent-Child configuration?

- A. Parent-Child configurations can cause performances issues
- B. Parent-Child links different tables based on shared key values
- C. A Parent-Child cannot be configured between an Ads data stream type and a Conversion Tag one.
- D. Parent-Child allows sharing both dimensions and measurements

Answer: A,B

Explanation:

Parent-Child configurations in Marketing Cloud Intelligence are used to link different data tables based on shared key values, allowing for the relational organization of data across various streams. While this setup enhances data analysis and reporting by maintaining logical relationships between parent and child tables, it can also introduce performance issues. The complexity increases with the number of relationships and the volume of data, potentially slowing down query processing and data manipulation. Additionally, Parent-Child configurations facilitate the sharing of dimensions and measurements across linked tables, enhancing the data's usability without duplicating it.

### NEW QUESTION # 49

A client's data consists of three data streams as follows:

Data Stream A:

Day	Media Buy Key	Media Buy Name	Campaign Key	Impressions	Revenue
01-Apr-20	MBK_1	MBN_A_1	CK_3	100	\$ 1
01-Apr-20	MBK_2	MBN_A_2	CK_4	200	\$ 2

Data Stream B:

Day	Campaign Key	Campaign Name	Creative Key	Clicks	Media Cost
01-Apr-20	CK_1	CN_B_1	CRTK_B_1	10	\$ 2
01-Apr-20	CK_2	CN_B_2	CRTK_B_2	20	\$ 3

Data Stream C:

Day	Media Buy Key	Campaign Key	Site Key	Site Name	Revenue
01-Apr-20	MBK_1	CK_1	SK_C_1	SN_C_1	\$ 4
01-Apr-20	MBK_2	CK_2	SK_C_2	SN_C_2	\$ 5
01-Apr-20	MBK_5	CK_5	SK_C_2	SN_C_2	\$ 7

\* The data streams should be linked together through a parent-child relationship.

\* Out of the three data streams, Data Stream C is considered the source of truth for both the dimensions and measurements.

Assuming the data was ingested properly and the Parent Child was created correctly according to the client's requirements, what is the total Impressions value for Campaign Key 'CK\_3'?

- A. N-A
- B. 0
- C. 1
- D. 2

Answer: C

Explanation:

Assuming that Data Stream A is set correctly with parent-child relationships:

To find the total impressions for Campaign Key 'CK\_3', you would look in Data Stream A, since it contains the 'Impressions' metric.

As per the provided data, Campaign Key 'CK\_3' has 100 impressions.

### NEW QUESTION # 50

A client's data consists of three data streams as follows:

Data Stream A:

Data Stream A:					
Day	Media Buy Key	Campaign Name	Campaign Key	Impressions	Revenue
01-Apr-20	MBK_1	MBN_A_1	CK_3	100	\$ 1
01-Apr-20	MBK_2	MBN_A_2	CK_4	200	\$ 2

  

Data Stream B:					
Day	Campaign Key	Campaign Name	Creative Key	Clicks	Media Cost
01-Apr-20	CK_1	CN_B_1	CRTK_B_1	10	\$ 2
01-Apr-20	CK_2	CN_B_2	CRTK_B_2	20	\$ 3

  

Data Stream C:					
Day	Media Buy Key	Campaign Key	Site Key	Site Name	Revenue
01-Apr-20	MBK_1	CK_1	SK_C_1	SN_C_1	\$ 4
01-Apr-20	MBK_2	CK_2	SK_C_2	SN_C_2	\$ 5
01-Apr-20	MBK_5	CK_5	SK_C_2	SN_C_2	\$ 7

\* The data streams should be linked together through a parent-child relationship.

\* Out of the three data streams, Data Stream C is considered the source of truth for both the dimensions and measurements.

\* Data Stream C was set as a 'Parent', and the 'Override Media Buy Hierarchy' checkbox is checked. What should the Data Updates Permissions be set to for Data Stream B?

- A. Inherit Attributes and Hierarchies
- B. There is no difference, all permissions will have a similar effect given the scenario.
- C. Update Attributes
- **D. Update Attributes and Hierarchies**

**Answer: D**

Explanation:

With Data Stream C set as the 'Parent' and 'Override Media Buy Hierarchy' checked:

The appropriate setting for Data Stream B would be 'Update Attributes and Hierarchies'. This setting will ensure that the hierarchy and attributes from the parent data stream (C) are updated based on the child data stream (B) without overwriting the measurement data that the parent is the source of truth for.

The 'Override Media Buy Hierarchy' option checked indicates that the hierarchy of the parent is to be considered as the main one, but the attributes and hierarchy can still be updated from the child data stream, which aligns with option B.

### NEW QUESTION # 51

A technical architect is provided with the logic and Opportunity file shown below:

The opportunity status logic is as follows:

For the opportunity stages "Interest", "Confirmed Interest" and "Registered", the status should be "Open".

For the opportunity stage "Closed", the opportunity status should be closed. Otherwise, return null for the opportunity status.

Oppportunity File		
Day	Opportunity Key	Stage
06-Jan	123AA01	Interest
06-Jan	123AA02	Interest
06-Jan	123AA03	Interest
08-Jan	123AA01	Confirmed Interest
09-Jan	123AA02	Confirmed Interest
10-Jan	123AA01	Registered
10-Jan	123AA02	Registered
14-Jan	123AA02	Rejected
14-Jan	123AA01	Closed

Given the above file and logic and assuming that the file is mapped in a generic data stream type with the following mapping  
 "Day" - Standard "Day" field

"Opportunity Key" > Main Generic Entity Key

"Opportunity Stage" + Generic Entity Key 2

A pivot table was created to present the count of opportunities in each stage. The pivot table is filtered on Jan 7th - 11th. Which option reflects the stage(s) the Opportunity key 123AA01 is associated with?

- A. Confirmed Interest & Registered
- **B. Interest & Registered**
- C. Registered
- D. Interest
- E. Confirmed Interest

**Answer: B**

Explanation:

Analyzing the Opportunity file with a filter set from January 7th to 11th, Opportunity Key '123AA01' appears under 'Interest' on January 6th and 8th, and under 'Registered' on January 10th. Therefore, during the specified date range, Opportunity Key '123AA01' is associated with both 'Interest' and 'Registered' stages. Salesforce Marketing Cloud Intelligence provides the capability to map and track opportunity stages over time, allowing for historical stage tracking and reporting. This answer aligns with the ability to use pivot tables to filter and display data by specific attributes and timeframes, as outlined in the Salesforce Marketing Cloud Intelligence documentation.

#### NEW QUESTION # 52

A client has integrated data from Facebook Ads, Twitter ads, and Google ads in marketing Cloud intelligence. For each data source, the source, the data follows a naming conventions as ...

Facebook Ads Naming Convention - Campaign Name:

CampID\_CampName#Market\_Object#object#targetAge\_TargetGender

Twitter Ads Naming Convention- Media Buy Name

MarketTargeAgeObjectiveOrderID

Google ads Naming Convention-Media Buy Name:

Buying\_type\_Market\_Objective

The client wants to harmonize their data on the common fields between these two platforms (i.e. Market and Objective) using the Harmonization Center. Given the above information, which statement is correct regarding the ability to implement this request?

- A. The client will be able to do this and it will require building three patterns.
- B. This is not possible as the naming conventions are in different fields (Campaign Name and Placement Name)
- C. It is not possible to do this, as the naming conventions are different
- D. The client will be able to harmonize only Google Ads and Twitter Ads, as Facebook Ads naming convention contains multiple delimiters.

**Answer: A**

Explanation:

Despite the different naming conventions, harmonization is possible using patterns in the Harmonization Center. By extracting the 'Market' and 'Objective' components from the naming conventions of each platform, three separate patterns would be created to map these common fields consistently across the data from Facebook Ads, Twitter Ads, and Google Ads.

## NEW QUESTION # 53

.....

In order to pass the Salesforce AP-215 Exam, selecting the appropriate training tools is very necessary. And the study materials of Salesforce AP-215 exam is a very important part. PDFBraindumps can provide valid materials to pass the Salesforce AP-215 exam. The IT experts in PDFBraindumps are all have strengthened experience. Their research materials are very similar with the real exam questions. PDFBraindumps is a site that provides the exam materials to the people who want to take the exam, and we can help the candidates to pass the exam effectively.
