Answer: B

NEW QUESTION # 28

What ensures that architecture documentation is aligned with business capability goals?

- **A. Capability Mapping**
- B. Lifecycle Milestones
- C. RACI Grid Builder
- D. Fact Sheet Owners

Answer: A

Explanation:

Capability Mapping links business capabilities to applications, interfaces, and technologies. This mapping ensures that architectural artifacts remain connected to strategic business objectives. By organizing IT components according to the business capabilities they support, organizations can validate whether their architecture aligns with transformation goals and identify redundancy, gaps, or misalignment. Other options may support governance tasks, but only capability mapping directly assures alignment with business capabilities.
