### Amazon AWS Certified Cloud Practitioner Sample Questions (Q338-Q343):

#### NEW QUESTION # 338

Which of the following can a customer use to enable single sign-on (SSO) to the AWS Console?

- A. Amazon Connect
- B. Amazon Pinpoint
- C. AWS Directory Service
- D. Amazon Rekognition

**Answer: A**

Explanation:

Single sign-on only works when used on a computer that is joined to the AWS Directory Service directory. It cannot be used on

computers that are not joined to the directory.

[https://docs.aws.amazon.com/directoryservice/latest/admin-guide/ms\\_ad\\_single\\_sign\\_on.html](https://docs.aws.amazon.com/directoryservice/latest/admin-guide/ms_ad_single_sign_on.html)

#### NEW QUESTION # 339

Which AWS service is a relational database compatible with MySQL and PostgreSQL?

- A. Amazon Aurora
- B. Amazon DynamoDB
- C. Amazon Redshift
- D. Amazon Neptune

**Answer: A**

#### NEW QUESTION # 340

Which of the following is a component of the shared responsibility model managed entirely by AWS?

- A. Encrypting data
- B. Patching operating system software
- C. Auditing physical data center assets
- D. Enforcing multi-factor authentication

**Answer: C**

Explanation:

Of course, Amazon is responsible for auditing physical data center assets and resources since it is the property of Amazon Inc. Customers have no access to physical sites, hence they are not responsible for maintaining physical data center assets.

#### NEW QUESTION # 341

A company needs a content delivery network that provides secure delivery of data, videos, applications, and APIs to users globally with low latency and high transfer speeds.

Which AWS service meets these requirements?

- A. Amazon CloudFront
- B. Amazon S3
- C. Elastic Load Balancing
- D. Amazon Elastic Transcoder

**Answer: A**

#### NEW QUESTION # 342

Which AWS service would you use to obtain compliance reports and certificates?

- A. Amazon Inspector
- B. AWS Lambda
- C. AWS Certificate Manager
- D. AWS Artifact

**Answer: D**

Explanation:

AWS Artifact is your go-to, central resource for compliance-related information that matters to you. It provides on-demand access to AWS' security and compliance reports and select online agreements. Reports available in AWS Artifact include our Service Organization Control (SOC) reports, Payment Card Industry (PCI) reports, and certifications from accreditation bodies across geographies and compliance verticals that validate the implementation and operating effectiveness of AWS security controls. Agreements available in AWS Artifact include the Business Associate Addendum (BAA) and the Nondisclosure Agreement (NDA).
