

Updated Cyber AB CMMC-CCP Exam Questions for CMMC-CCP Exam Success

What's more, part of that Prep4pass CMMC-CCP dumps now are free: <https://drive.google.com/open?id=1ktrtlkXccvBBLnyOhk-Nj23Lr0MIT-5R>

Our CMMC-CCP exam questions are highly praised for their good performance. Customers often value the functionality of the product. After a long period of research and development, our CMMC-CCP learning materials have been greatly optimized. We can promise you that all of our CMMC-CCP practice materials are completely flexible. In addition, we have experts who specialize in research optimization, constantly update and improve our learning materials, and then send them to our customers. We take client's advice on CMMC-CCP training prep seriously and develop it with the advices.

Our accurate, reliable, and top-ranked Cyber AB CMMC-CCP exam questions will help you qualify for your Cyber AB CMMC-CCP certification on the first try. Do not hesitate and check out Prep4pass excellent Cyber AB CMMC-CCP Practice Exam to stand out from the rest of the others.

CMMC-CCP Study Material, CMMC-CCP Exam Brainsdumps

We assume all the responsibilities that our practice materials may bring. They are a bunch of courteous staff waiting for offering help 24/7. You can definitely contact them when getting any questions related with our CMMC-CCP practice materials. If you haplessly fail the exam, we treat it as our responsibility then give you full refund and get other version of practice material for free. That is why we win a great deal of customers around the world. Especially for those time-sensitive and busy candidates, all three versions of CMMC-CCP practice materials can be chosen based on your preference. Such as app version, you can learn it using your phone everywhere without the limitation of place or time.

Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.
Topic 2	<ul style="list-style-type: none">• CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.

Topic 3	<ul style="list-style-type: none"> • CMMC Governance and Source Documents: This section of the exam measures the capabilities of legal or compliance advisors, covering key regulatory frameworks that govern cybersecurity compliance. Topics include Federal Contract Information, Controlled Unclassified Information, the role of NIST SP 800-171, DFARS, FAR, and the structure and requirements of CMMC v2.0, including self-assessments and certification levels.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q100-Q105):

NEW QUESTION # 100

Exercising due care to ensure the information gathered during the assessment is protected even after the engagement has ended meets which code of conduct requirement?

- A. Confidentiality
- B. Information Integrity
- C. Availability
- D. Respect for Intellectual Property

Answer: A

NEW QUESTION # 101

Which term describes the prevention of damage to, protection of, and restoration of computers and electronic communications systems/services, including information contained therein, to ensure its availability, integrity, authentication, confidentiality, and nonrepudiation?

- A. Information security
- B. Network security
- C. Cybersecurity
- D. Data security

Answer: C

NEW QUESTION # 102

While conducting a CMMC Assessment, a Lead Assessor is given documentation attesting to Level 1 identification and authentication practices by the OSC. The Lead Assessor asks the CCP to review the documentation to determine if identification and authentication controls are met. Which documentation BEST satisfies the requirements of IA.L1-3.5.1: Identify system users, processes acting on behalf of users, and devices?

- A. User names associated with system accounts assigned to those individuals
- B. Physical access policy that states, "All non-employees must wear a special visitor pass or be escorted."
- C. List of unauthorized users that identifies their identities and roles
- D. Procedures for implementing access control lists

Answer: A

Explanation:

Understanding IA.L1-3.5.1 (Identification and Authentication Requirements) The CMMC 2.0 Level 1 practice IA.L1-3.5.1 aligns with NIST SP 800-171, Requirement 3.5.1, which mandates that organizations identify system users, processes acting on behalf of users, and devices to ensure proper access control.

To comply with this requirement, an Organization Seeking Certification (OSC) must maintain documentation that demonstrates: A unique identifier (username) for each system user

Mapping of system accounts to specific individuals

Identification of devices and automated processes that access systems

Why "C. User names associated with system accounts assigned to those individuals" is Correct?

This documentation directly satisfies IA.L1-3.5.1 because it shows how system users are uniquely identified and linked to specific accounts within the environment.

A list of users and their assigned accounts confirms that the organization has a structured method of tracking access and authentication. It allows auditors to verify that each user has a distinct identity and that access control mechanisms are properly applied.

Why Other Answers Are Incorrect?

A). Procedures for implementing access control lists (Incorrect)

While access control lists (ACLs) are relevant for authorization, they do not identify users or devices specifically, making them insufficient as primary evidence for IA.L1-3.5.1.

B). List of unauthorized users that identifies their identities and roles (Incorrect) Identifying unauthorized users does not fulfill the requirement of tracking authorized users, devices, and processes.

D). Physical access policy stating "All non-employees must wear a special visitor pass or be escorted" (Incorrect) This pertains to physical security, not system-based user identification and authentication.

Conclusion

The correct answer is C. User names associated with system accounts assigned to those individuals, as this directly satisfies the identification requirement of IA.L1-3.5.1.

NEW QUESTION # 103

What is a PRIMARY activity that is performed while conducting an assessment?

- A. Verify readiness to conduct assessment.
- B. Develop assessment plan.
- C. Collect and examine evidence.
- D. Deliver recommended assessment results.

Answer: C

Explanation:

Step 1: Understand the Assessment Phases (CAP v1.0) The CMMC Assessment Process (CAP) outlines a structured lifecycle for assessments, including:

* Plan and Prepare Phase- Develop the assessment plan (before the assessment starts).

* Conduct Assessment Phase- Execute the actual assessment activities.

* Report Results Phase- Finalize and deliver the assessment outcomes.

CAP v1.0 - Section 3.5 (Conduct Assessment):

"The assessment team collects, examines, and evaluates evidence to determine if practices are MET or NOT MET."

* During the "Conduct Assessment" phase, the main activity is to:

* Collect evidence (documentation, interviews, testing),

* Validate adequacy and sufficiency,

* Score practices as MET/NOT MET.

#Step 2: Why "Collect and Examine Evidence" Is the Primary Activity This is the core responsibility of assessors while conducting an assessment.

* A. Develop assessment plan# This occurs in the Plan and Prepare phase before conducting the assessment.

* C. Verify readiness to conduct assessment# Readiness verification is part of pre-assessment activities, not during the assessment itself.

* D. Deliver recommended assessment results# This is done during the Report Results phase after the assessment has been conducted.

#Why the Other Options Are Incorrect

The primary activity performed during the actual execution of a CMMC assessment is collecting and examining evidence to determine compliance with practices.

NEW QUESTION # 104

An organization's sales representative is tasked with entering FCI data into various fields within a spreadsheet on a company-issued laptop. This laptop is an FCI Asset being used to:

- A. store, process, and transmit FCI.
- B. process and transmit FCI.
- C. process and organize FCI.
- D. store, process, and organize FCI.

Answer: A

Explanation:

Understanding FCI and Asset Categorization Federal Contract Information (FCI) is any information not intended for public release that is provided by or generated for the government under a DoD contract.

A company-issued laptop used by a sales representative to enter FCI into a spreadsheet is considered an FCI asset because it:

#Stores FCI- The spreadsheet contains sensitive information.

#Processes FCI- The representative is entering data into the spreadsheet.

#Organizes FCI- The spreadsheet helps structure and manage FCI data.

Processing (Option B and C) is occurring, but since the laptop is primarily being used to organize data, Option D is the most comprehensive.

Transmission (Option A and C) is not explicitly mentioned, so Option D is the best fit.

Why "Store, Process, and Organize FCI" is Correct? Breakdown of Answer Choices

Option Description Correct?

A). Process and transmit FCI.

#Incorrect- No indication of transmission is provided.

B). Process and organize FCI.

#Incorrect- Storage is also a key function of the laptop.

C). Store, process, and transmit FCI.

#Incorrect- Transmission is not confirmed in the scenario.

D). Store, process, and organize FCI.

#Correct - The laptop is used to store, process, and organize FCI in a spreadsheet.

CMMC Asset Categorization Guidelines- Defines FCI assets based on storage, processing, and organization functions.

Official References from CMMC 2.0 Documentation Final Verification and Conclusion The correct answer is D. Store, process, and

organize FCI, as the laptop is used to store information, enter (process) data, and structure (organize) FCI within a spreadsheet.

NEW QUESTION # 105

.....

The CMMC-CCP Practice Exam software is specially made for the students so they can feel real-based examination scenarios and feel some pressure on their brains and don't feel excessive issues while giving the final Cyber AB exam. There are a lot of customers that are currently using Prep4pass and are satisfied with it. Prep4pass has designed this product after getting positive feedback from professionals and is rated one of the best study materials for the preparation of the Cyber AB CMMC-CCP Exam.
