Practical-Applications-of-Prompt최신덤프샘플문제다운 & Practical-Applications-of-Prompt최고품질인증시험기출자료

SAP C-C4H450-04 SAP Certified Integration Associate - SAP Cloud for Customer 2

인기자격증 C-C4H450-04인증덤프 샘플문제 시험덤프 최신자료

ITDumpsKR 의 엘리트는 다년간 IT업계에 종사한 노하우로 높은 적중율을 자랑하는 SAP C-C4H450-04덤프를 연구제작하였습니다. 한국어 온라인서비스가 가능하기에 SAP C-C4H450-04덤프에 관하여 궁금한 점이 있으신 분은 구매전 문의하시면 됩니다. SAP C-C4H450-04덤프로 시험에서 좋은 성적 받고 자격증 취득하시길 바랍니다.

최신 SAP Certified Integration Associate C-C4H450-04 무료샘플문제 (Q54-Q59):

질문 # 54
How can you determine if a field in the message mapping in SAP Cloud Platform Integration is an extension field?

- A. By the WSDL naming convention
- B. By the mapping functions
- C. By the used namespace
- D. By the mapping icon

정답□C

질문 # 55
Which transaction codes do you use to register and activate the IDoc service on SAP ERP?

- A. SICF and IDoc, respectively
- B. IDoc and RBDMIDOC, respectively
- C. SRTIDOC and SICF, respectively
- D. SICF and RBDMIDOC, respectively

정답□C

질문 # 56
Which of the following business functions are supported by SAP S/4HANA Settlement Management?
Note: There are 3 correct Answers to this question

- A. Calendar-based settlement
- B. Evaluated receipt settlement
- C. Advance payments
- D. Business-volume-related rebates
- E. Accrual conditions

정답□A,B,C

질문 # 57
Which of the following views can be maintained for a material with material type SERV (Service

C-C4H450-04 인증덤프 샘플문제 & C-C4H450-04 시험문제모음

참고: Itcertkr에서 Google Drive로 공유하는 무료 2026 WGU Practical-Applications-of-Prompt 시험 문제집이 있습니다: https://drive.google.com/open?id=1qA4CV0l9SWlMDfhbiW-6uUxnaxCo1lfd

IT인증시험에 도전해보려는 분들은 회사에 다니는 분들이 대부분입니다. 승진을 위해서나 연봉협상을 위해서나 자격증 취득은 지금시대의 필수입니다. Itcertkr의WGU인증 Practical-Applications-of-Prompt덤프는 회사다니느라 바쁜 나날을 보내고 있는 분들을 위해 준비한 시험준비공부자료입니다. Itcertkr의WGU인증 Practical-Applications-of-Prompt덤프를 구매하여 pdf버전을 공부하고 소프트웨어버전으로 시험환경을 익혀 시험보는게 두렵지 않게 해드립니다. 문제가 적고 가격이 저렴해 누구나 부담없이 애용 가능합니다. Itcertkr의WGU인증 Practical-Applications-of-Prompt덤프를 데려가 주시면 기적을 안겨드릴게요.

Itcertkr 는 여러분의 IT전문가의 꿈을 이루어 드리는 사이트 입다. Itcertkr는 여러분이 우리 자료로 관심 가는 인증시험에 응시하여 안전하게 자격증을 취득할 수 있도록 도와드립니다. 아직도WGU 인증Practical-Applications-of-Prompt 인증시험으로 고민하시고 계십니까? WGU 인증Practical-Applications-of-Prompt인증시험 가이드를 사용하실 생각은 없나요? Itcertkr는 여러분께 시험패스의 편리를 드릴 수 있습니다.

>> Practical-Applications-of-Prompt최신 덤프샘플문제 다운 <<

Practical-Applications-of-Prompt최고품질 인증시험 기출자료 & Practical-Applications-of-Prompt자격증문제

Itcertkr는 가장 효율높은 WGU Practical-Applications-of-Prompt시험대비방법을 가르쳐드립니다. 저희 WGU Practical-Applications-of-Prompt덤프는 실제 시험문제의 모든 범위를 커버하고 있어 WGU Practical-Applications-of-Prompt덤프의 문제만 이해하고 기억하신다면 제일 빠른 시일내에 시험패스할수 있습니다. 경쟁율이 심한 IT시대에 WGU Practical-Applications-of-Prompt시험 패스만으로 이 사회에서 자신만의 위치를 보장할수 있고 더욱이는 한층 업된 삶을 누릴수도 있습니다.

최신 Courses and Certificates Practical-Applications-of-Prompt 무료샘플문제 (Q16-Q21):

질문 # 16
What is a risk associated with failing to include a goal when writing a prompt?

- A. Nonsensical information
- B. Inaccurate responses
- C. Blatant misinformation
- D. Conflicting personas

정답：B

설명：
Failing to include a clear goal creates a significant risk of receivinginaccurate responses. In the context of AI, "inaccuracy" doesn't just mean a factual error; it also refers to an output that is "off-target" for the user's intent. Without a goal (the specific outcome the user wants to achieve), the AI is forced to make assumptions about what the user wants. These assumptions are often based on the most common patterns in its training data, which may not align with the user's actual needs.
For example, if a user provides context about a product but doesn't state the goal (e.g., "Write a product description," "Critique this product," or "Compare this product to X"), the AI might simply summarize the text provided. This response is "inaccurate" because it fails to fulfill the user's unspoken requirement. This lack of direction leads to a "hallucination of intent," where the AI provides a response that is technically coherent but practically useless. Clearly defining the goal is the most effective way to anchor the AI's logic, ensuring that the generated content is accurate in terms of both facts and function.

질문 # 17
Part of a person's prompt to an AI chatbot is: "You are a lawyer." Which effective prompt component does this demonstrate?

- A. Context
- B. Output format
- C. Persona
- D. Instructions

정답：C

설명：
The instruction "You are a lawyer" is a classic example of assigning aPersonato an AI model. In prompt engineering, a persona is a specified role or identity that the AI is asked to adopt. This technique is highly effective because it triggers the model to prioritize certain linguistic patterns, professional jargon, and specialized knowledge bases associated with that specific role. By telling the AI to act as a lawyer, the user is signaling that the tone should be formal, the reasoning should be analytical, and the output should reflect legal standards and structures.
Assigning a persona helps narrow the "probabilistic space" of the AI's responses. Instead of providing a generic answer, the model will attempt to provide an answer that a legal professional would likely give. This is different from "Instructions," which tell the AIwhat to do(e.g., "Write a contract"), or "Context," which provides thebackground facts(e.g., "This is for a small business in Ohio"). The persona provides thevoice and perspectivethrough which the information is filtered. Utilizing personas is a core strategy in prompt engineering to ensure that the output matches the professional or creative expectations of the user.

질문 # 18
What is an advantage that comes from generative AI interfaces that are designed well?

- A. They give each user an experience with unique generated outputs.
- B. They allow users to avoid exposure to misinformation.
- C. They allow users to specify the context for generating outputs.
- D. They filter output that contains errors and bias.

정답：C

설명：
A well-designed generative AI interface prioritizes user control and clarity. One of the most significant advantages of a high-quality interface is that it provides the necessary fields or conversational flow to allow users to specify the context for generating outputs. In the realm of prompt engineering, context is the
"background information" that helps the model understand the specific environment, audience, or constraints of the task. Without a well-designed interface, users might provide vague prompts, leading to generic or irrelevant results.
Effective interfaces often guide the user through "prompt priming"-allowing them to set the scene (e.g., "I am writing a report for a CEO" vs. "I am writing a blog post for teenagers"). By enabling the user to easily input parameters such as tone, format, and specific background data, the interface ensures the AI has a narrow enough focus to be useful. While AI models still struggle with inherent bias or misinformation (options A and D), a good interface mitigates these risks by encouraging specific, context-rich inputs that ground the AI's logic in the user's actual needs. This results in outputs that are significantly more relevant and actionable compared to unguided interactions.

질문 # 19
A user wants to automatically identify and provide the name of the person speaking on a conference call.
Which advanced AI tool fits this goal?

- A. Speech recognition
- B. Text recognition
- C. Object recognition
- D. Voice recognition

정답：D

설명：
The specific task of identifyingwhois speaking is the primary function ofVoice recognition(also known as speaker recognition or speaker identification). It is important to distinguish this from "Speech recognition." While speech recognition focuses onwhatis being said (converting spoken words to text), voice recognition focuses on the unique biometric characteristics of an individual's voice-such as pitch, cadence, and tone-to identify the specific person talking.
In a conference call setting, the AI compares the incoming audio stream against a database of stored
"voiceprints." When a match is found, the system can display the name of the participant currently speaking.
This technology is a cornerstone of modern collaborative tools and security systems. In practical prompt engineering and AI integration, choosing the right "medium" or tool is vital; if a developer mistakenly uses a standard speech-to-text model, they would get a transcript of the meeting but would lose the metadata regarding speaker identity. Voice recognition adds a layer of "identity context" to the data, making it invaluable for automated meeting minutes, forensic analysis, and personalized user experiences in multi-user environments.

질문 # 20
A person is using generative AI to create a social media post. Why is it important to write an effective prompt?

- A. The prompt ensures that the post will be well received.
- B. The prompt ensures that the content is original.
- C. The prompt indicates how to customize the post for each reader.
- D. The prompt prevents output that is nonsensical.

정답：D

설명：
Writing an effective prompt is essential because it provides the logical framework the AI needs to process a request; primarily, the prompt prevents output that is nonsensical. Generative AI models are statistical engines that predict the next most likely word or character. Without a clear, well-structured prompt that includes instructions and context, the model can easily lose the "thread" of logic, leading to "hallucinations" or sequences of text that are grammatically correct but logically incoherent or irrelevant to the user's

goal.
In the context of social media, where brevity and impact are key, an ineffective prompt might result in a post that uses the wrong hashtags, misses the brand voice, or includes bizarre metaphors that don't make sense to the audience. While no prompt can "ensure" a post will be well-received by humans (Option B) or guarantee absolute originality (Option D), a structured prompt guides the AI to stay within the bounds of human logic.
By providing specific constraints (e.g., "Write a 20-word caption about coffee in a joyful tone"), the user ensures the output is a sensible, usable piece of content rather than a random string of related words.

질문 # 21
