## EX-Con-101질문과 답 & EX-Con-101퍼펙트 덤프데모문제 다운

Salesforce EX-Con-101 시험을 한번에 합격할수 없을가봐 두려워 하고 계시나요? 이 글을 보고 계신 분이라면 링크를 클릭하여 저희 사이트를 방문해주세요. 저희 사이트에는Salesforce EX-Con-101 시험의 가장 최신 기출문제와 예상문제를 포함하고 있는 Salesforce EX-Con-101덤프자료를 제공해드립니다.덤프에 있는 문제와 답을 완벽하게 기억하시면 가장 빠른 시일내에 가장 적은 투자로 자격증 취득이 가능합니다.

## 최신 Salesforce Consultant EX-Con-101 무료샘플문제 (Q44-Q49):

### 질문 # 44

The Experience Cloud site manager of Cloud Kicks has enabled reputation for its community members, Asper the recommendation given by the Experience Cloud consultant, a decision was made to use the out of the box features.  
Which two things happen automatically when the site manager enables automation? Choose 2 answers

- A. Inactive and active members are assigned default reputation points.
- B. Chatter influence is removed from the Contribution section on the Profile page.
- C. Default point system and set of reputation levels become available.
- D. Customer portal members gain the ability to provide badges to other members.

정답: A,C

설명:

Reputation is a feature that allows you to reward community members for their contributions and engagement.

When you enable reputation for your community, some things happen automatically, such as:

\* Inactive and active members are assigned default reputation points. Inactive members get zero points, while active members get 10 points.

\* Default point system and set of reputation levels become available. You can use the default point system or customize it to suit your needs. You can also use the default reputation levels or create your own.

질문 # 45

Which step does the system administrator have to take to create a partner user?

- A. Select Enable Partner User from the Contact Detail page.
- B. Create a partner queue, and add users to it.
- C. Add the user to the All Partner Portal Users public group.
- D. Assign the Gold Partner permission to the user.

정답: A

설명:

This step allows the system administrator to create a partner user from an existing contact that is associated with a partner account.

The partner user inherits the role, profile, and permission sets from the contact. The system administrator can also specify a username, email address, and nickname for the partner user.

질문 # 46

Northern Trail Outfitters wants to add a background image to a record list of products in its digital experience.

How should an administrator accomplish this?

- A. Create CMS items.
- B. Use a Flexible page layout.
- C. Build a custom Lightning component.
- D. Use an HTML component

정답: C

설명:

To add a background image to a record list of products in its digital experience, an administrator should build a custom Lightning component. A Lightning component is a reusable unit of user interface that you can create and customize using code. A custom Lightning component allows you to add your own functionality and design to your Experience Cloud site. To add a background image to a record list of products, an administrator should build a custom Lightning component that uses the SLDS Background Image utility class and the lightning-record-list base component.

질문 # 47

Universal Container (UC) has a business model that involves B2C as well B2B customers. A group of B2B customers has recently signed a contract with UC that would allow them to start working with the UC Support team in resolving low-severity B2C customer issues.

How should UC use Experience Cloud to accomplish this goal?

- A. Create a digital experience for B2C customer and employees, and another one for B2B customers and employees.
- B. Create a digital experience for B2B customers, a partner portal for B2B customers, and use the internal CRM org for employees.
- C. Create a digital experience for B2C customers and B2B customers, and use the internal CRM app for employees.

- D. Create a single digital experience for B2C customers, B2B customers, and employees.

정답: A

설명:

UC should create two separate digital experiences for its different customer segments and employees. This will allow UC to provide different features, content, and branding for each experience, as well as control the access and visibility of records. For example, UC can create a customer service site for B2C customers and employees, where they can view and create cases, access knowledge articles, and chat with agents. UC can also create a partner portal for B2B customers and employees, where they can view and update billing information, access contracts, and work on low-severity B2C customer issues.

질문 # 48

Universal Containers (UC) maintains multiple customer experiences, but only one profile for No customer has access to more than one experience Which two steps should the UC admin taka to grant access to each customer?

Choose 2 answers

- A. Create a permission Set
- B. Edit the applicable user profile
- C. Select the profile for a given experience
- D. Select a permission pot for a given experience

정답: C,D

설명:

Two steps that the UC admin should take to grant access to each customer are B and C. To grant access to an Experience Cloud site, you need to assign a license type, a profile, and a permission set to each user. A license type determines what features and functionality a user can access on the site. A profile determines what objects and fields a user can see and edit on the site.

Apermission set determines what additional permissions and settings a user can have on the site. To assign a profile and a permission set for a given experience, you need to select them from the drop-down menus in the Admin Workspace of your Experience Builder tool.
