Microsoft Information Protection Administrator Sample Questions (Q163-Q168):

NEW QUESTION # 163

You are configuring a retention label named Label1 as shown in the following exhibit.

Define retention settings

When this label is applied to items, the content is retained and/or deleted based on the settings you choose here.

Retain items for a specific period
Labeled items will be retained for the period you choose. During the retention period, Users will be able to edit items and change or remove the label. If they delete items, we'll keep copies in a secure location. [Learn more](#)

Retention period: years months days

Start the retention period based on:

+ Create new event type

At the end of the retention period:

Delete items automatically
We'll delete items from where they're currently stored.

Trigger a disposition review

Do nothing
Items will be left in place. You'll have to manually delete them if you want them gone.

Retain items forever
Labeled items will be retained forever, even if users delete them. Users will be able to edit items and change or remove the label. If they delete items, we'll keep copies in a secure location. [Learn more](#)

Only delete items when they reach a certain age
Labeled items won't be retained, but when they reach the age you choose, we'll delete them from where they're stored.

You need to ensure that documents that have Label1 applied are deleted three years after the end of your company's fiscal year. What should you do?

- A. Select Only delete items when they reach a certain age.
- B. Set At the ends of the retention period to Trigger a disposition review.
- C. Modify the Retention period setting.
- **D. Create a new event type.**

Answer: D

- Create a messaging records management (MRM) retention policy.
- Create an eDiscovery case.
- Enable advanced classification scanning and protection.

Detects communication when users share insider information about stocks:

- Create a communication compliance policy.
- Create a communication compliance policy.
- Create a forensic evidence policy.
- Create an information barrier (IB).
- Create an insider risk management policy.

NEW QUESTION # 166

You have a Microsoft 365 E5 subscription that contains the resources shown in the following table.

Name	Type	Location
Mail1	Email message	Microsoft Exchange Online
File1.docx	File	Microsoft SharePoint Online
File2.xlsx	File	Microsoft OneDrive

You have a retention label configured as shown in the following exhibit.

Define retention settings

When this label is applied to items, the content is retained and/or deleted based on the settings you choose here.

Retain items for a specific period

Labeled items will be retained for the period you choose.

Retention period

Start the retention period based on

+ Create new event type

During the retention period

Retain items even if users delete

Users will be able to edit items and change or remove the label. If they delete items, we'll keep copies in a secure location. [Learn more](#)

Mark items as a record

At the end of the retention period

Delete items automatically

We'll delete items from where they're currently stored.

Trigger a disposition review

Do nothing

Items will be left in place. You'll have to manually delete them if you want them gone.

You publish the retention label and set the scope as shown in the following exhibit.

Choose locations

We'll publish the labels to the locations you choose.

All locations. Includes content in Exchange email, Office 365 groups, OneDrive and SharePoint documents.

Let me choose specific locations.

You apply the label to the resources.

Which items can you delete?

- A. File1.docx and File2.xlsx only
- B. Mail1, File1.docx, and File2.xlsx
- C. Mail1 and File1.docx only
- D. Mail1 only
- E. Mail1 and File2.xlsx only

Answer: B
