PeopleCert DevSecOps

PeopleCert DevSecOps Exam

2

Fast2test 가 제공하는DevSecOps테스트버전과 문제집은 모두Peoplecert DevSecOps인증시험에 대하여 충분한 연구 끝에 만든 것이기에 무조건 한번에Peoplecert DevSecOps시험을 패스하실 수 있습니다. 때문에Peoplecert DevSecOps덤프의 인기는 당연히 썩 없습니다.

최신 PeopleCert DevOps DevSecOps 무료샘플문제 (Q28-Q33):

질문 #28
An organization does not allow servers to be upgraded.
The scenario BEST describes which of the following?

- A. Mutable infrastructure
- B. Data integrity
- C. Data security
- D. **Immutable infrastructure**

정답D

질문 #29
The Open Web Application Security Project @ (OWASP) is a nonprofit and open community mat supports the goals of DevSecOps that provides many resources to the community.
Which of the following BEST represents a key resource that they make available to the community?

- A. **Security and auditing guidelines**
- B. Open-source testing procedures
- C. Training and certification courses
- D. A maturity model for assessment

정답A

질문 #30
Which of the following BEST describes an example of an insider threat?

- A. Other competitors
- B. Non-malicious attackers
- C. The general public
- D. **Disgruntled employees**

정답D

질문 #31
Visual tactile, and auditory are modalities of formal learning
Which of the following is BEST described as the fourth major modality of formal learning?

- A. Story based
- B. **Observe live**
- C. Kinesthetic

AVIXA CTS시험대비 덤프공부자료 & CTS최신 인증시험 기출자료

Pass4Test는 여러분이 AVIXA인증CTS시험 패스와 추후사업에 모두 도움이 되겠습니다.Pass4Test제품을 선택함으로 여러분은 시간과 돈을 절약하는 일석이조의 득을 얻을수 있습니다. AVIXA인증CTS 인증시험패스는 아주 어렵습니다. 자기에 맞는 현명한 학습자료 선택은 성공의 지름길을 내딛는 첫발입니다. 퍼펙트한 자료만이AVIXA인증CTS시험에서 성공할수 있습니다. Pass4Test시험문제와 답이야 말로 퍼펙트한 자료이죠. Pass4Test AVIXA인증

CTS인증 시험자료는 100% 패스보장을 드립니다

AVIXA CTS 시험요강:

주제	소개
주제 1	Supporting AV System Operation: This section of the exam measures the skills of AV support specialists and covers the ongoing support of AV systems. It includes troubleshooting issues, providing remote assistance, supporting live events, and offering in-room operation training to ensure smooth system operation.
주제 2	Implementing AV Solutions: This section of the exam measures the skills of AV system integrators and focuses on the implementation of AV solutions. It involves integrating AV systems, verifying their functionality, and managing the integration process, including training, documentation, and ensuring operational readiness.
주제 3	Servicing AV Solutions: This section of the exam measures the skills of AV maintenance managers and focuses on the maintenance and repair of AV solutions. It involves supervising AV operations, conducting preventative maintenance, performing firmware and equipment upgrades, and troubleshooting and repairing AV systems to ensure they remain functional and efficient.
주제 4	Creating AV Solutions: This section of the exam measures the skills of AV system designers and covers the process of creating audiovisual solutions. It includes conducting customer needs analysis, performing site surveys to assess environmental factors like lighting and acoustics, developing project scopes, and designing AV solutions with detailed drawings and materials lists.

최신 AVIXA Certification CTS 무료샘플문제 (Q229-Q234):

질문 # 229

A remote monitoring system's PRIMARY benefit is that it

- A. reduces the need for service calls.
- B. does not need to be located in the same building.
- C. allows the AV team to make sure the equipment is being used properly.
- D. provides a faster response time for problem solving.

정답: A

설명:

The primary benefit of a remote monitoring system is that it reduces the need for service calls by allowing technicians to monitor equipment status, detect issues early, and perform diagnostics remotely. This proactive monitoring minimizes downtime and often resolves issues without the need for on-site intervention.

CTS Technology Specialist Reference CTS training emphasizes the value of remote monitoring in AV maintenance, highlighting its role in reducing service costs and improving system uptime by enabling early issue detection and resolution.

질문 # 230

When designing an AVB system, ensuring that these are AVB compliant is critical.

- A. microphone cables
- B. network electronics
- C. loudspeakers
- D. displays

정답: B

설명:

When designing an AVB (Audio Video Bridging) system, ensuring that the network electronics (such as switches, routers, and network interface cards) are AVB compliant is critical. AVB is a set of standards developed to facilitate the transmission of audio

and video data over Ethernet networks with precise timing and low latency. AVB-compliant network electronics are essential for maintaining the quality and synchronization of audio and video streams in such systems.

Top of Form

Bottom of Form

질문 # 231

When is the optimal time to conduct training of end users in a new AV installation?

- A. after all participants have reviewed equipment manuals
- **B. at the time of system handover with accompanying user guides**
- C. during installation so that the system can be configured and modified in line with the user's knowledge
- D. when all users of the facility can be trained at the same time

정답: B

설명:

The optimal time to conduct training of end users in a new AV installation is at the time of system handover with accompanying user guides. This ensures that users receive hands-on training with the actual equipment they will be using, allowing them to understand its operation fully and ask questions while a technician is present. Providing user guides during this time also gives them a reference to consult after the training session.

Axis Technology Specialist documentation stresses the importance of comprehensive training and support at the system handover phase to maximize user proficiency and satisfaction.

질문 # 232

Milestones are key events or deliverables in a project. On a Gantt Chart or Network Diagram, milestones are represented by a(n)

- **A. diamond or triangle.**
- B. asterisk or apostrophe.
- C. square or rectangle.
- D. circle or oval.

정답: A

설명:

The frequency identified by the numbers above each slider of a graphic equalizer is the center frequency. The center frequency is the specific frequency that each slider controls, allowing the user to boost or cut the amplitude of that frequency and those in its immediate vicinity. This helps in fine-tuning the audio signal to achieve the desired sound quality.

Reference: Audio equipment manuals and equalizer usage guidelines, such as those from Axis Communications and other audio equipment manufacturers, explain the function of center frequencies in graphic equalizers.

질문 # 233

Given this system information:

□ What is the MINIMUM current requirement (assuming 110VAC electrical supply)?

- A. 30A
- **B. 15A**
- C. 25A
- D. 50A

정답: B

설명:

To determine the minimum current requirement, we need to calculate the total power draw of the system and then convert it to current using the formula:

□ where:

* III is the current in amperes (A)

* PPP is the total power in watts (W)
