ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q40-Q45):

NEW QUESTION # 40

The Business Unit field on a Project or Demand form displays values from a specific table. What type of field is this?

- A. Conditions.
- B. Journal.
- C. List.
- **D. Reference.**

Answer: D

Explanation:

Explanation

According to the ServiceNow documentation¹, the Business Unit field on a Project or Demand form is a reference field that displays values from the `cmn_department` table. A reference field stores a link to a record on another table, rather than storing the data directly in the field².

1:

<https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/project-management/refer>

<https://docs.servicenow.com/bundle/vancouver-platform-administration/page/administer/form-administration/con>

NEW QUESTION # 41

Can an `it_project_manager` convert a task to a milestone?

- **A. Yes, by right-clicking on the task in the Planning Console.**
- B. Yes, if the task is assigned to the project manager.
- C. No, this can only be done by a system admin.
- D. No, the PPS admin role is also required.

Answer: A

Explanation:

According to the Planning Console document, an `it_project_manager` can convert a task to a milestone by right-clicking on the task in the Planning Console and selecting Convert to Milestone. The other options are not correct, as they are not the ways to convert a task to a milestone. A system admin or a PPS admin role is not required for this action. The task assignment is not relevant for this action.

NEW QUESTION # 42

A project expense line is cost associated with a specific source, except for:

- A. Resource.
- **B. Program.**
- C. Fixed Assets.
- D. Software.

Answer: B

Explanation:

Explanation

According to the Project Expense Lines document, a project expense line is cost associated with a specific source, such as fixed assets, resource, or software. The program field on the project expense line form is not a source of cost, but a reference to the program that the project belongs to. Therefore, the correct answer is B.

Program. The other options are not correct, as they are sources of cost for a project expense line.

NEW QUESTION # 43

Users with what role can be considered for resource planning?

- A. `it_project_user`.
- B. `it_pps_user`.
- **C. `pps_resource`.**
- D. `it_user`.

Answer: C

Explanation:

According to the ServiceNow Resource Management document, users with the `pps_resource` role can be considered for resource planning, as this role grants access to the Resource Management application and allows the users to view and update their resource allocations. The other options are not correct, as they are not roles that are related to resource planning. The `it_project_user` role grants access to the Project Portfolio Management application and allows the users to create and update projects. The `it_user` role grants access to the IT Service Management application and allows the users to manage incidents, problems, and changes. The `it_pps_user` role grants access to the Project Portfolio Suite application and allows the users to manage portfolios, programs, and projects.

NEW QUESTION # 44

Using the Request type field on a resource plan, which options can be used to request a resource?

Choose 3 answers

- **A. FTE**
- B. Month
- C. Day
- **D. Hours**
- **E. Person Days**

Answer: A,D,E

Explanation:

Explanation

Using the Request type field on a resource plan, you can request a resource by specifying the amount of FTE, person days, or hours that you need for a task or a project. FTE stands for full-time equivalent and represents the percentage of a standard work week

that a resource can perform. Person days are the number of days that a resource works on a task or a project. Hours are the number of hours that a resource works on a task or a project. You can find more information about the Request type field in the Product Documentation for ServiceNow.

NEW QUESTION # 45

.....
