A lot of professional experts concentrate on making our 4A0-D01 practice materials by compiling the content so they have gained reputation in the market for their proficiency and dedication. About some esoteric points, they illustrate with examples for you. Our 4A0-D01 practice materials are the accumulation of professional knowledge worthy practicing and remembering, so you will not regret choosing us. The best way to gain success is not cramming, but to master the discipline and regular exam points of question behind the tens of millions of questions. Our 4A0-D01 practice materials can remove all your doubts about the exam. If you believe in our products this time, you will enjoy the happiness of success all your life.

Nokia 4A0-D01 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">SR Linux Logging, Monitoring, and Filtering: This section of the exam measures skills of a Data Center Network Engineer and addresses how to implement logging, monitoring, and traffic filtering in SR Linux. It explains log file usage, ACL types, CPM filtering, and packet capture filters. Configuration tasks involve applying ACLs and monitoring network activity using capture tools.

Topic 2	<ul style="list-style-type: none"> SR Linux Configuration and Routing: This section of the exam measures skills of a Network Automation Specialist and focuses on configuring and managing SR Linux systems. It examines the YANG-driven CLI, JSON output, environment variables, and static and dynamic routing. Learners also explore BGP, ECMP, IP-VRF, MAC-VRF, and the use of VXLAN with EVPN to implement both Layer 2 and Layer 3 overlays, including symmetric and asymmetric models.
Topic 3	<ul style="list-style-type: none"> SR Linux User and System Management: This section of the exam measures skills of a Network Automation Specialist and includes managing user roles, TLS configurations for secure communication, and automation features like Zero-Touch Provisioning (ZTP). It covers ZTP setup, configuration processes, and common issues that may arise during deployment.
Topic 4	<ul style="list-style-type: none"> Module 5 – EDA (Event Driven Automation) Introduction

Valid Nokia 4A0-D01 Exam Outline and Excellent Exam 4A0-D01 Dump

We have seen that candidates who study with outdated 4A0-D01 practice material don't get success and lose their resources. To save you from loss of money and time, BrainDumpsStore is offering a product that is specially designed to help you pass the Nokia Data Center Fabric Fundamentals Exam (4A0-D01) exam on the first try. The Nokia 4A0-D01 Exam Dumps is easy to use and very easy to understand, ensuring that it is student-oriented. You can choose from 3 different formats available according to your needs. The 3 formats are desktop 4A0-D01 practice test software, web-based 4A0-D01 practice exam, and 4A0-D01 dumps PDF format.

Nokia Data Center Fabric Fundamentals Exam Sample Questions (Q22-Q27):

NEW QUESTION # 22

Which of the following statements about the data center's leaf-spine topology (clos network) is FALSE?

- A. It uses ECMP to distribute traffic across duplicate links.
- B. It provides a consistent path for east-west traffic.
- C. Each leaf router is connected to all the spine routers in the cluster.
- D. It uses the spanning tree protocol to avoid forwarding loops.

Answer: D

Explanation:

The leaf-spine (Clos) topology does not use the spanning tree protocol because it relies on equal-cost multipath (ECMP) routing to prevent loops and efficiently utilize all available paths. Spanning tree is typically avoided in modern data center fabrics to enable full bandwidth utilization.

NEW QUESTION # 23

Which of the following statements about Zero Touch Provisioning (ZTP) is FALSE?

- A. The ZTP process downloads a provisioning script defined in the TLS profile.
- B. ZTP allows a router to become operational in the network without any pre-provisioning.
- C. The ZTP process relies on a DHCP server for an IP address.
- D. The ZTP process is managed by the ZTP application in Nokia SR Linux.

Answer: A

Explanation:

The ZTP process downloads a provisioning script typically from a defined URL or server, not from a TLS profile. The TLS profile is used for securing communications but does not define the provisioning script location.

NEW QUESTION # 24

Which of the following is NOT one of the characteristics of Nokia's SR Linux?

- A. It uses a modular, state-driven architecture that gives applications efficient access to system information.
- B. It includes a NetOgs development kit that supports the integration of third-party applications.
- C. It uses mature and stable SNMP protocol to access the command line interface.
- D. It uses an unmodified Linux kernel that simplifies the use of third party applications.

Answer: C

Explanation:

Nokia's SR Linux does not rely on the SNMP protocol for accessing the command line interface; instead, it uses modern, programmable interfaces aligned with its modular architecture.

NEW QUESTION # 25

Which of the following statements about the CLI modes in Nokia's SR Linux is FALSE?

- A. The show mode uses pre-defined reports to display operational information.
- B. The state mode displays the current configuration and operational information.
- C. The running mode is used to make configuration changes.
- D. Users can switch from one mode to another using the enter command.

Answer: D

Explanation:

In Nokia SR Linux, users switch between CLI modes using specific commands like configure or exit, not an enter command. The enter command is not used for mode switching.

NEW QUESTION # 26

Examine the exhibit. What type of information is NOT included in the IMET route advertised by VTEP1?

- A. Flooding list
- B. VXLAN network identifier (VNI)
- C. IP address of VTEP1
- D. Route distinguisher of VTEP1's MAC-VRF

Answer: D

Explanation:

The IMET route includes the VNI, flooding list, and IP address of the originating VTEP, but it does not include the route distinguisher of the VTEP's MAC-VRF.

NEW QUESTION # 27

.....

Pass4Test provides updated and valid Nokia 4A0-D01 Exam Questions because we are aware of the absolute importance of updates, keeping in mind the Nokia 4A0-D01 Exam Syllabus. We provide you update checks for 365 days after purchase for absolutely no cost. And the Nokia Data Center Fabric Fundamentals Exam 4A0-D01 price is affordable.
