

Get Success in Juniper JN0-351 Exam Questions and Grow Your Career

What's more, part of that ActualTestsQuiz JN0-351 dumps now are free: <https://drive.google.com/open?id=1vihk00AoLSTT1Sc7l1C7U9A4EydwCaba>

As the captioned description said, our JN0-351 practice materials are filled with the newest points of knowledge about the exam. With many years of experience in this line, we not only compile real test content into our JN0-351 practice materials, but the newest in to them. Allowing for there is a steady and growing demand for our JN0-351 practice materials with high quality at moderate prices, we never stop the pace of doing better. All newly supplementary updates will be sent to your mailbox one year long. And we shall appreciate it if you choose any version of our JN0-351 practice materials for exam and related tests in the future.

Our company employs experts in many fields to write JN0-351 study guide, so you can rest assured of the quality of our learning materials. What's more, preparing for the exam under the guidance of our JN0-351 exam questions, you will give you more opportunities to be promoted and raise your salary in the near future. So when you are ready to take the exam, you can rely on our JN0-351 Learning Materials. If you want to be the next beneficiary, what are you waiting for? Come and buy our JN0-351 learning materials.

Reliable Juniper JN0-351 Test Price | New JN0-351 Real Exam

The most important thing for preparing the JN0-351 exam is reviewing the essential point. Some students learn all the knowledge of the test. They still fail because they just remember the less important point. In order to service the candidates better, we have issued the JN0-351 test engine for you. Our company has accumulated so much experience about the test. So we can predict the real test precisely. Almost half questions and answers of the real exam occur on our JN0-351 practice material. That means if you study our study guide, your passing rate is much higher than other candidates. Preparing the JN0-351 exam has shortcut. From now, stop learning by yourself and try our test engine. All your efforts will pay off one day.

Juniper JN0-351 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Protocol Independent Routing: An essential domain for understanding routing components outside protocol dependencies, this topic enhances expertise in configuring, monitoring, and troubleshooting critical elements.
Topic 2	<ul style="list-style-type: none">Spanning Tree: Networking professionals explore the principles and advantages of the Spanning Tree Protocol (STP) to ensure loop-free topologies in Layer 2 networks.

Topic 3	<ul style="list-style-type: none"> IS-IS: Aspiring Juniper networking professionals enhance their understanding of IS-IS routing protocols. This topic equips candidates with the knowledge to configure and monitor IS-IS systems, addressing specific exam challenges and practical applications.
Topic 4	<ul style="list-style-type: none"> Layer 2 Security: This topic introduces Layer 2 protection mechanisms and firewall filters to fortify network security. Practical skills in configuring, monitoring, and troubleshooting these features prepare candidates to address exam objectives and real-world challenges effectively.
Topic 5	<ul style="list-style-type: none"> Tunnels: The fundamentals of IP tunneling are emphasized, highlighting their requirements and functionalities. Mastery in configuring, monitoring, and troubleshooting tunnels equips professionals to meet the demands of the JN0-351 Exam.
Topic 6	<ul style="list-style-type: none"> BGP: This topic focuses on the operational and conceptual elements of BGP, a cornerstone in enterprise networks.
Topic 7	<ul style="list-style-type: none"> Layer 2 Switching or VLANs: This topic deepens the understanding of Layer 2 switching operations within the Junos OS, including VLAN concepts and benefits. Experienced networking professionals gain insights into configuration, monitoring, and troubleshooting techniques essential for network segmentation and efficiency.

Juniper Enterprise Routing and Switching, Specialist (JNCIS-ENT) Sample Questions (Q144-Q149):

NEW QUESTION # 144

Which two statements about BGP facilitate the prevention of routing loops within an autonomous system? (Choose two.)

- A. IBGP sessions must be configured as a logical full mesh.
- B. Routes learned from IBGP neighbors are only advertised to other IBGP neighbors.
- C. Routes learned from IBGP neighbors are not readvertised to other IBGP neighbors.
- D. IBGP sessions must be configured as a physical full mesh.

Answer: A,C

NEW QUESTION # 145

Which two statements are correct about IS-IS? (Choose two.)

- A. IS-IS uses IPv6 as its transport protocol in the Junos OS implementation.
- B. IS-IS sends a maximum metric value of 63 by default.
- C. IS-IS has two metric types and Junos sends both by default.
- D. IS-IS only allows you to configure two areas.

Answer: B,C

NEW QUESTION # 146

Which two statements are correct about using firewall filters on EX Series switches? (Choose two.)

- A. You can deploy only stateless firewall filters on an EX Series switch.
- B. You can apply firewall filters to both Layer 2 and Layer 3 traffic on an EX Series switch.
- C. You can deploy both stateless and stateful firewall filters on an EX Series switch.
- D. You can only apply firewall filters to Layer 2 traffic on an EX Series switch.

Answer: A,B

Explanation:

A is correct because you can deploy only stateless firewall filters on an EX Series switch. A stateless firewall filter is a filter that evaluates each packet individually based on the header information, such as source and destination addresses, protocol, and port

numbers. A stateless firewall filter does not keep track of the state or context of a packet flow, such as the sequence number, flags, or session information. EX Series switches support only stateless firewall filters, which are also called access control lists (ACLs) or packet filters.

C is correct because you can apply firewall filters to both Layer 2 and Layer 3 traffic on an EX Series switch. Layer 2 traffic is traffic that is switched within a VLAN or a bridge domain, while Layer 3 traffic is traffic that is routed between VLANs or networks. EX Series switches support three types of firewall filters: port (Layer 2) firewall filters, VLAN firewall filters, and router (Layer 3) firewall filters. You can apply these filters to different interfaces and directions to control the traffic entering or exiting the switch.

NEW QUESTION # 147

Which two statements are true about high availability on Junos devices? (Choose two.)

- A. NSR is dependent on helper routers to assist the routing platform in restoring routing protocol information.
- B. BFD is faster at detecting failures than default GRE or OSPF timers.
- C. BFD is slower at detecting failures than default GRE or OSPF timers.
- D. NSR is independent of helper routers to assist the routing platform in restoring routing protocol information.

Answer: B,D

NEW QUESTION # 148

Which two BGP attributes must be supported by all BGP implementations and must be included in every update? (Choose two.)

- A. AS path
- B. MED
- C. next hop
- D. community

Answer: A,C

Explanation:

BGP attributes are properties that BGP uses for route advertisement, path selection, and loop prevention. There are four categories of BGP attributes:

Well-known mandatory: Must be recognized by all BGP routers, present in all BGP updates, and passed on to other BGP routers.

Well-known discretionary: Supported by all BGP implementations, and are optionally included in BGP updates.

Optional transitive: May not be supported by all implementations of BGP.

Optional non-transitive: May not be supported by all implementations of BGP. The well-known mandatory attributes must be supported by all BGP implementations and must be included in every update. These include the AS path and next hop attributes.

NEW QUESTION # 149

.....

Our service tenet is to let the clients get the best user experiences and be satisfied. From the research, compiling, production to the sales, after-sale service, we try our best to provide the conveniences to the clients and make full use of our JN0-351 guide materials. We organize the expert team to compile the JN0-351 Practice Guide elaborately and constantly update them. To let the clients have a fundamental understanding of our JN0-351 training materials, we provide the free trials of our JN0-351 exam questions before their purchasing.
