The web-based Scrum SSM Practice Exam is compatible with all operating systems, including Mac, Linux, iOS, Android, and Windows. It is a browser-based SSM (6.0) - SAFe® Scrum Master (SSM) practice exam that works on all major browsers, including Chrome, Firefox, Safari, Internet Explorer, and Opera. This means that you won't have to worry about installing any complicated software or plug-ins.

Scrum SSM certification exam is based on the latest version of the Scaled Agile Framework (SAFe 5.0), which is the world's leading framework for scaling Agile practices. SSM exam is designed to test the candidate's knowledge of the Scrum Master role in a SAFe enterprise, including their ability to plan and execute iterations, coach Agile teams, and facilitate Scrum ceremonies. SSM exam is also designed to test the candidate's understanding of Lean-Agile values and principles, as well as their ability to apply Agile methodologies to complex projects. Passing the Scrum SSM certification exam is a significant accomplishment that demonstrates a professional's proficiency in Agile methodologies and their ability to help organizations implement Agile practices at scale.

Scrum SSM Certification Exam is an essential certification for individuals who want to become Scrum Masters in a SAFe environment. SSM exam covers various topics related to Agile and Scrum, and passing the exam demonstrates the expertise and skills of individuals in implementing and leading Agile teams. SSM (6.0) - SAFe® Scrum Master certification is globally recognized and is a valuable asset for individuals who want to pursue a career in Agile and Scrum.

Save Money With Free Scrum SSM Updates

Then you will seize the good chance rather than others.

Scrum SSM (6.0) - SAFe® Scrum Master Sample Questions (Q93-Q98):

NEW QUESTION # 93
There is no way a team can fail if they carry out all of the Scrum or Lean-Agile events successfully.

- A. True
- B. False

Answer: B

Explanation:
Explanation/Reference:
See Poor Collaboration

NEW QUESTION # 94
What is one way a Scrum Master/Team Coach can support productive team Backlog Refinement sessions?

- A. Ensure subject matter experts are invited
- B. Create a reusable agenda for the team ahead of time
- C. Assure teammates that they will be heard
- D. Generate ideas for Stories with the team before refinement

Answer: A

Explanation:
One way a Scrum Master/Team Coach can support productive team Backlog Refinement sessions is to ensure subject matter experts are invited. Subject matter experts (SMEs) are people who have specialized knowledge or skills related to the domain or technical aspects of the product or solution. They can provide valuable input and feedback to the team during Backlog Refinement, such as clarifying requirements, validating assumptions, identifying dependencies, and suggesting solutions. SMEs can also help the team to split, estimate, and prioritize the backlog items more effectively and accurately. By inviting SMEs to the Backlog Refinement sessions, the Scrum Master/Team Coach can facilitate better collaboration, communication, and alignment among the team and the stakeholders. (Must be taken from SAFe 6 Scrum Master resources) Reference:

NEW QUESTION # 95
What is the intended value of the Team Sync event?

- A. The team aligns on the progress of Iteration Goals
- B. The team reviews and improves processes before the next Iteration
- C. The team is able to prepare requirements for Iteration Planning
- D. The team is able to commit to a set of goals to be delivered in the Iteration

Answer: A

Explanation:
The Team Sync (or Daily Stand-up) in SAFe is a short, focused, timeboxed event that allows the team to align on progress toward iteration goals, identify impediments, and plan the next 24 hours.

The meeting promotes transparency and collaboration, ensuring that all team members are aware of progress and issues that could affect delivery. It also reinforces self-management by allowing the team to adapt plans daily based on new information.
From SAFe guidance:
"The Team Sync allows team members to align on progress toward iteration goals, discuss impediments, and adjust their plans to stay on track." Thus, the correct answer is A. The team aligns on the progress of Iteration Goals, as it captures the event's primary intent.

NEW QUESTION # 96
What is one truth about teams?

- A. Development teams can manage daily interruptions
- B. Changes in team composition do not impact productivity
- C. Products are more robust when individuals on teams have specific skill sets
- D. Teams are more productive than the same number of individuals

Answer: D

NEW QUESTION # 97
What are two actions a team can take to improve economic outcomes? (Choose two.)

- A. Late integration
- B. Increase velocity
- C. Research spike/enabler
- D. Automation testing
- E. Delay performance testing

Answer: C,D

NEW QUESTION # 98
......
